1. PROFILE OF THE PARENT COMPANY

1.1. GENERAL INFORMATION

The Group's core business is the import and distribution of industrial products, including in particular power tools and hand tools for professionals and for home use, equipment useful in the kitchen, bathroom and garden, as well as professional catering equipment. The main producers and suppliers of goods that can be found in millions of apartments, workshops and construction investments in over 100 countries around the world are companies located in China. For many years, the Group has been implementing a strategy of expansion into international markets. It focuses primarily on the markets of Central, Southern and Eastern Europe.

The Parent Company of the Group is TOYA S.A. (the "Company" or the "Parent Company") is a joint stock company established under the Commercial Companies Code. The Parent Company has its registered office in Wrocław at ul. Sołtysowicka 13/15.

TOYA S.A. was formed on the basis of a Notarial Deed drawn up on 17 November 1999. Pursuant to a decision of 3 December 1999, the Parent Company was entered in the Commercial Register maintained by the District Court for Wrocław-Fabryczna, 6th Commercial Division, with the reference number RHB 9053. By virtue of a decision of 4 December 2001, the District Court for Wrocław-Fabryczna, 6th Commercial Division of the National Court Register, decided to enter the Parent Company in the Register of Entrepreneurs, with the reference number KRS 0000066712. The entry in the Register took place on 5 December 2001.

The duration of the Parent Company is unlimited.

As at the date of submission of the annual report, the Parent Company has 1 branch located outside the registered office, in Nadarzyn.

As of 31 December 2025, the share capital of the Parent Company amounted to PLN 7,504,222.60 and consisted of 75,042,226 shares with a nominal value of PLN 0.1 each. In 2025, there were no changes in the share capital.

The Parent Company does not hold any treasury shares.

Since 12 August 2011, the Parent Company's shares have been listed on the Warsaw Stock Exchange.

This Management Board report on operations of TOYA S.A. Capital Group for 2025 has been prepared together with the Management Board report on operations of TOYA S.A. and includes the sustainable development report of TOYA S.A. Capital Group for 2025.

1.2. ORGANISATION OF TOYA S.A. CAPITAL GROUP

TOYA Capital Group consists of entities operating in various countries. As at 31 December 2024, the Group comprised the following entities:

Characteristics of entities comprising the Capital Group (as at 31 December 2025 and as at the date of publication of the report on operations of the Capital Group):

Entity name	Registered office	Business profile	Type of equity link	% of shares and votes held	Link establishment date	Method of Consolidation as at the end of the reporting period
TOYA S.A.	Wroclaw, Poland	Distribution of tools and power tools	Parent Company	Not applicable	Not applicable	Not applicable – Parent Company in the Group
Toya Romania S.A.	Bucharest, Romania	Distribution of tools and power tools	Subsidiary	99.99	November 2003	Full consolidation method
Yato Tools (Shanghai) Co., Ltd.	Shanghai, China	Distribution of tools and power tools	Subsidiary	100.00	January 2013	Full consolidation method
Yato Tools (Jiaxing) Co., Ltd.	Baibu, China	Distribution of tools and power tools	Subsidiary	100.00	December 2019	Full consolidation method

TOYA S.A. is a member of the Association of Stock Exchange Issuers.

YATO Tools (Shanghai) is a member of Shanghai Pudong International Chamber of Commerce for Foreign Economic Relations.

Apart from the capital investments described above, no other capital investments were made within the Group.

As of the date of publication of the report on the activities, the Parent Company is personally related with the following entities (entities with which the Parent Company made transactions in 2025 are included):

- Toyota Katowice Sp. z o.o. - an entity related through the key management of the Company;
- Unicas Sp. z o.o. - an entity related through the key management of the Company.

Details regarding transactions with related parties are included in Note 33 of the stand-alone financial statements and Note 34 of the consolidated financial statements.

In 2025 there were no significant changes in the Group's management methods and principles.

2. EXTERNAL ENVIRONMENT OF THE COMPANY AND THE GROUP

2.1. MACROECONOMIC SITUATION

The Group is present on markets in various parts of the world, although most of its clients operate in Poland. Due to the links between the Polish economy and the global economic system and due to the extensive activities conducted outside the local market, the global economic situation affects the volume of turnover realized by the Group's clients. In 2025, the dynamic volatility on global markets, resulting from geopolitical tensions, rising commodity prices and the consequences of central bank actions, periodically hindered the Group's expansion on foreign markets, forcing it to search for new clients and adjust market strategies.

The current macroeconomic situation is influenced by several factors:

1. **Interest Rate Rise and Monetary Policy:** In 2025, most major central banks, including the European Central Bank (ECB) and the US Federal Reserve, ended their cycle of interest rate increases and transitioned to a phase of cautious reductions or holding rates stable. These actions are aimed at supporting the slowing economy after a period of restrictive monetary policy. Despite the policy easing, borrowing costs remain relatively high, which may continue to constrain consumption and business investment growth.
2. **Inflation:** In many countries, inflation declines significantly in 2025, thanks to the normalization of energy and food prices and the fading of post-pandemic effects. In Poland, inflation also continues its downward trend and is roughly approaching the upper end of the National Bank of Poland's inflation target, although wage pressures and service costs may still keep core inflation relatively elevated compared to the period before 2020.
3. **Economic Slowdown:** In 2025, many developed economies will experience a moderate slowdown in growth, and some EU countries will see growth close to stagnation. This is due to continued high financing costs, weakening external demand, and cautious consumer and business sentiment. Economic growth in the eurozone and the US is weaker than in previous years, although prospects for the coming quarters are beginning to improve due to expected interest rate cuts.
4. **Labor Market:** The labour market in 2025 remains relatively stable, and unemployment remains low in many countries, although pressure on wage increases is gradually easing. In Poland, unemployment remains low, but some businesses may feel the need to optimize employment in response to the economic slowdown.
5. **Supply Chain Issues:** Global supply chains have largely stabilized in 2025 following the disruptions of the pandemic, although they may still be vulnerable to shocks related to geopolitical tensions, the situation in the Red Sea, high freight prices, and uncertainty in energy markets. These factors can impact transportation costs, delivery times, and business inventory levels.

The economic situation on the Asian market related to the current growth of the GDP of these countries remains a significant factor influencing the financial situation of the entire Group due to the fact that the Group purchases goods mainly from manufacturers in this region. In 2024, this economic situation was influenced by challenges resulting from uncertainty on the Chinese market, such as a slowdown in the real estate sector, a weakening of the dynamics of imports and exports and disruptions in supply chains. In 2025, this uncertainty remains somewhat persistent, with China's economic growth remaining moderate and weak domestic demand and trade tensions continuing to weigh on the region's manufacturing activity. Prices of purchased goods, trading conditions, order fulfilment times and logistics costs between Asia and Europe may continue to fluctuate, especially in the context of high energy prices and possible transport disruptions.

The impact of these factors is difficult to estimate, as the future economic and regulatory situation may differ from the expectations of the Management Board of the Parent Company. The Group's management is closely monitoring developments and adjusting strategic intentions in order to minimize these threats.

2.2. CHANGES IN FINANCIAL MARKETS

The Group's strong ties with foreign suppliers and settlements with them in USD and CNY make its financial results sensitive to currency fluctuations. In 2025, currency fluctuations will remain significant and are driven by several factors, including the changing monetary policies of major central banks, the slowing US economy, the unstable economic situation in China, and the ongoing geopolitical tensions affecting global financial markets. Additionally, periodic changes in market expectations regarding future decisions by central banks and the bond market are observed. The Group closely monitors currency conditions and trends in global markets, periodically updating the prices of its goods. Consequently, margins may continue to be subject to periodic fluctuations.

It should, however, be stressed that due to the fact that a substantial part of the Group's sales revenue is earned through the export channel based on prices set in foreign currencies, the Group is, to a certain extent, secured against sudden movements in exchange rates. However, this security is not complete and not sufficient, as a result of which FX fluctuations may have negative impact on the Group's financial performance.

The chart below shows fluctuations in the average NBP exchange rate for the basic currency rates used in the Company's operations in 2025.

Source: own study based on <https://nbp.pl/statystyka-i-sprawozdawczosc/kursy/archiwum-tabela-a-csv-xls>

The Group uses external capital financing. An increase in interest rates on the financial market may adversely affect the costs of financing and reduce the Group's profitability, as the Parent Company and the subsidiary in China enter into variable interest rate loan agreements in their functional currencies (PLN and CNY).

In 2025, compared to 2024, when the National Bank of Poland's interest rates remained stable, the Monetary Policy Council began a cycle of monetary policy easing. The NBP reference rate, maintained at 5.75% at the beginning of the year, was gradually lowered throughout the year. The first cut occurred in May 2025, with subsequent rate cuts in July, September, October, November, and December 2025. As a result, at the end of 2025, the reference rate stood at 4.00%, a decrease of 1.75 percentage points compared to the level at the beginning of the year.

The chart below presents changes in the NBP reference interest rate in the period 2022-2025.

Source: own study based on <https://nbp.pl/polityka-pieniezna/decyzje-rpp/podstawowe-stopy-procentowe-nbp>

In 2025, the People's Bank of China (PBoC) pursued a moderately accommodative monetary policy. At the beginning of the year, the annual Loan Prime Rate (LPR) was 3.10%. In May 2025, it was reduced by 0.10 percentage points to 3.00%, and the LPR for loans with terms over five years was reduced from 3.60% to 3.50%. Following this decision, rates remained unchanged until the end of 2025.

These changes were part of measures aimed at supporting economic growth by lowering financing costs amidst a slowing economy and the continued weakness of the real estate sector.

Interest rates for loans in China are usually lower than in Poland, which is due to differences in the monetary policies and economies of the two countries. In China, the government pursues a more expansionary monetary policy, maintaining lower rates, while in Poland higher interest rates are used to control inflation and stabilize the economy.

In order to minimize the risk of a negative impact of interest rate changes on the Group's financial situation, the Parent Company simulates various scenarios in order to select the optimal sources of financing, taking into account refinancing, renewal of existing positions, alternative financing as well as medium-term trends on the debt market.

2.3. LEGAL ENVIRONMENT

Changes in legislation and diverse interpretations of the law hinder the Group's operations. Changes in legislation, in particular in tax, customs, labour and social insurance law and introduction of new burdens, may have negative consequences for the Company's activity. Frequent changes in the interpretation of the tax law and lack of uniform practices of fiscal authorities and courts in the application of tax legislation, are particularly burdensome. This may involve the risk of third-party claims and proceedings of various state authorities. Moreover, because of their complexity and inconsistent taxation practices, interpretations are often the subject of disputes with tax authorities. The Parent Company exercises due care to ensure that these transactions are compliant with legislation – in particular with the tax law. In spite of that, the risk of third-party claims, possible disputes with tax authorities or proceedings of various state authorities cannot be ruled out. Such claims, disputes or proceedings, as well as cases when fiscal authorities or courts and the Parent Company adopt different interpretations of tax regulations and different tax qualification of events and transactions in which the Parent Company participated, may have adverse impact on the Group's financial performance.

However, it should be noted that the Group takes measures to mitigate the effects of changes in law. The Parent Company uses external services of renowned law and tax firms, which facilitate its current operations.

2.4. SUPPLY CHAIN

The Group purchases goods from suppliers located in various parts of the world, but mainly in Asia. These goods are transported by sea. In 2025, disruptions in supply chains between Asia and Europe resulting from logistical problems, infrastructure constraints and pressure on transport costs highlighted the vulnerability of such solutions to global challenges. Any adverse events concerning, among others, means of production and transport, labour, infrastructure, natural phenomena and events, of a general nature, can significantly affect the stability of supplies. The Group mitigates this risk by cooperating with many contractors, who are additionally based in different regions of many countries. However, in the case of disruptions with a wide geographical scope, such as congestion in Asian ports or trade restrictions, even this strategy may prove insufficient.

2.5. COMPETITION

The global market of manufacturers is quite fragmented. The 7 largest entities such as Bosch, Stanley Black&Decker, Hilti, Makita account for slightly over half of the market. The main share in creating the market value is held by tools and power tools imported by distributors who have transferred production to foreign, mainly Asian, sub-suppliers.

The Polish market for distribution of industrial goods, which is the Group's main field of operation, is relatively highly dispersed in spite of the presence of several market leaders. Entities currently competing with the Group continue to take actions to intensify their development through aggressive pricing policy aimed at current, target or potential customers. Such actions may have a negative impact on the Group's financial standing, because further expansion of the market may be slowed down, become difficult or even impossible. The Group shall be monitoring the market and its environment, taking various measures in order to maintain and develop competitive advantage.

3. DESCRIPTION OF THE MOST IMPORTANT EVENTS IN THE COMPANY AND CAPITAL GROUP IN 2025

3.1. CONCLUSION OF A CREDIT AGREEMENT BY A SUBSIDIARY YATO TOOLS (JIAXING) CO., LTD.

On 29 January 2025, TOYA S.A. received notice that YATO TOOLS (JIAXING) Co., Ltd. had applied for a working capital loan in an amount not exceeding CNY 100,000 thousand. On 28 February 2025, TOYA S.A. received notice of the conclusion of a Loan Agreement with Bank of Ningbo Co., Ltd., Jiaxing Branch, based in the People's Republic of China.

The subsidiary issued a loan for import and export activities up to CNY 80,000 thousand for a period of one year, with the possibility of extension. The remaining terms of the Agreement do not differ from those commonly used in such agreements.

3.2. ANNEX TO THE OVERDRAFT AGREEMENT

On 19 March 2025, TOYA S.A. entered into Annex No. 7 to Overdraft Agreement No. 09/030/19/Z/VV with mBank S.A. with its registered office in Warsaw. Under the Annex, the final repayment date of the loan was set at 26 March 2026. The remaining terms of the Agreement do not differ from those commonly used in this type of agreements.

3.3. CONCLUSION OF A LOAN AGREEMENT

On 22 April 2025, TOYA S.A. entered into a loan agreement with TOYA Romania S.A. The subject of the agreement is that TOYA S.A. will grant a loan of USD 4,500 thousand to its subsidiary. The loan was granted to finance the subsidiary's ongoing operations.

The repayment date was set for 31 March 2026. The loan was repaid in full, along with accrued interest, in December 2025.

3.4. CHANGE IN CUSTOMS POLICY BY THE U.S. GOVERNMENT

On 2 April 2025, the US government announced a change in customs policy for most countries around the world, and on 27 July 2025, a change in customs policy was announced for relations with the European Union. None of the Group's companies have customers in the US, and no deliveries are made from that market. The Management Board of Toya S.A. estimates that, as of the date of this report, the change in US customs policy has no direct impact on the Group's operations. The Management Board is closely monitoring the situation regarding changes in customs policy in the US and other countries, as this assessment is subject to change given the global reach of the Group's operations.

3.5. BUY-BACK OF OWN SHARES

On 3 June 2025 the Management Board of TOYA S.A. published an invitation to submit offers for the sale of shares of TOYA S.A. The invitation covered up to 9,850,000 shares in TOYA S.A. with a nominal value of PLN 0.10 each. The offered purchase price was PLN 8.00, and offers were accepted from 5 to 13 June 2025.

As part of the announced general share buyback, shareholders submitted offers for the sale of shares of the Company for a total of 1,004,979 shares with a total nominal value of PLN 100,497.90, representing approximately 1.34% of the share capital.

3.6. RESOLUTIONS ADOPTED BY THE ANNUAL GENERAL MEETING OF SHAREHOLDERS ON 24 JUNE 2025

On 24 June 2025, the Annual General Meeting of Shareholders of Toya S.A. approved the financial statements of TOYA S.A. for 2024 and the consolidated financial statements of the TOYA Group and also decided to allocate the profit for 2024 in the amount of PLN 55,653 thousand to supplementary capital.

3.7. REGISTRATION OF AMENDMENTS TO THE ARTICLES OF ASSOCIATION OF TOYA S.A.

On 12 August 2025, the Company was informed of the decision of the District Court for Wrocław-Fabryczna in Wrocław, 6th Commercial Division of the National Court Register, dated 7 August 2025, on the registration of amendments to the Issuer's Articles of Association adopted by Resolution No. 23 of the Annual General Meeting of Shareholders of TOYA S.A. dated 24 June 2025, and Resolution No. 24 of the Annual General Meeting of Shareholders of TOYA S.A. dated 24 June 2025. The amendments consist of:

- Adding in § 17, section 2, after item a), a new item aa) reading:
"aa) selection of the audit firm to attest the sustainable development report referred to in the provisions of the Accounting Act, after the presentation of a recommendation by the Audit Committee,"
- Amending § 25, section 2:
"2. Resolutions of the General Meeting shall be adopted by a simple majority of votes, unless the law or these Statutes provide otherwise."

3.8. ANNEX TO THE OVERDRAFT AGREEMENT

On 13 November 2025, the Company entered into an Amendment to the Overdraft Facility Agreement No. WAR/8833/20/326/CB with BNP Paribas Bank Polska Spółka Akcyjna, based in Warsaw.

The amendment extended the current loan term until 17 November 2026. The remaining terms of the Agreement do not differ from those commonly used in this type of agreement.

3.9. CONCLUSION OF A MULTILINE AGREEMENT WITH SANTANDER BANK POLSKA S.A.

On 12 December 2025, the Company entered into MultiLine Agreement No. K01535/25 with Santander Bank Polska Spółka Akcyjna, based in Warsaw.

The total amount of the Agreement is PLN 75,000 thousand, including:

- Overdraft and foreign currency overdraft facilities up to PLN 70,000,000, with the option of simultaneous use of the overdraft facility in the currency of use: PLN, EUR, or USD. The repayment date is 12 December 2027. The loan was granted without any collateral on the Issuer's assets. The interest rate is equal to the WIBOR 1M base rate (for PLN), the EURIBOR 1M base rate (for EUR), and the SOFR base rate (for USD), plus the Bank's margin.
- Guarantee limit up to PLN 5,000 thousand, with an availability period until 12 December 2026, and a maximum expiration date of no later than three years from the expiry date of the availability period.

The remaining terms of the Agreement do not differ from those commonly used for this type of agreement.

3.10. THE IMPACT OF THE WAR BETWEEN UKRAINE AND RUSSIA ON THE GROUP'S ACTIVITIES

The Group has been present on the markets of Eastern Europe for a long time. Despite its long presence on these markets, the Group did not have any assets there, and transactions with local clients were of a short-term nature. The Russian-Ukrainian conflict, which began with military operations on 24 February 2022, disrupted trade relations on these markets, which in turn resulted in a temporary freezing of relations with some customers or suspension of cooperation. It should be emphasized that the Parent Company complies with all sanctions imposed by the European Union, Poland and the governments of other countries, on entities, persons and goods indicated in the relevant legal acts. The Group has implemented appropriate procedures in this regard. However, the implemented procedures and the need to verify and comply with all economic sanctions slow down trade with customers from these markets, which is beyond the Group's control. This may have an impact on trading with customers present in these markets in the coming quarters.

4. COMPANY AND GROUP ACTIVITIES IN 2025

The Management Board of the Parent Company did not publish any forecasts of the Company's and the Group's results for 2025.

4.1. OVERVIEW OF THE FINANCIAL RESULTS OF THE TOYA CAPITAL GROUP

Revenue and profitability of TOYA S.A. GROUP (PLN '000)

For 12 months ended 31 December	2025	2024
Sales revenue	907 705	821 008
Gross profit on sales	308 520	278 382
Operating profit	110 450	87 403
Profit before tax	109 105	85 883
Net profit	87 196	68 418

Revenue and profitability (PLN '000)

In 2025, sales revenues amounted to PLN 907,705 thousand and were higher than the revenues achieved in 2024 by PLN 86,697 thousand, i.e. by 10.6%. The largest increase in volume and revenues, by PLN 44,509 thousand, i.e. 12.4%, was achieved in the wholesale channel, primarily in the Parent Company. A similar dynamic, at the level of 12.2%, was achieved by the export channel, in which revenues increased by PLN 34,039 thousand. The increase was achieved mainly in Ukraine, where revenues amounted to PLN 66,436 thousand, an increase of PLN 16,640 thousand (33.4%) compared to the previous year, and in Hungary (an increase by PLN 8,754 thousand, i.e. 30.7%). Outside of Europe, the largest increases were recorded in destinations served primarily by subsidiaries in China – Chile (an increase of PLN 3,879 thousand) and the United Arab Emirates (an increase of PLN 1,978 thousand). Increases were also recorded in the retail chain channel (by PLN 18,237 thousand, i.e. 18.8%). The e-commerce sales channel recorded a decrease in revenue of PLN 10,088 thousand, i.e. 11.9%. The main reason for this was the high growth resulting from the change in the Parent Company's pricing policy achieved in 2024. In 2025, the Parent Company revised its pricing policy, focused on maintaining the competitiveness of all sales channels. High product availability was also a significant factor influencing the level of revenue.

Gross profit from sales increased by PLN 30,138 thousand in 2025, i.e. by 10.8% compared to 2024, driven by higher sales revenues, with profitability similar to 2024 (34.0% compared to 33.9%).

Operating profit in 2025, amounting to PLN 110,450 thousand, was higher than that achieved in 2024 by PLN 23,047 thousand, i.e. by 26.4%. The increase in operating profit was primarily the result of higher sales revenues at the Parent Company, which also translated into higher selling costs by PLN 4,478 thousand (3.1%) (primarily due to higher transportation and logistics costs). Administrative costs also increased, primarily as a result of higher payroll costs. At the same time, the Group recorded a surplus of positive exchange rate differences over negative exchange rate differences in the amount of PLN 5,524 thousand as compared to PLN 3,513 thousand in 2024.

To obtain necessary working capital, the Group primarily relies on short-term bank loans. Given the significant impact of financial costs associated with these loans on its financial results, the Group negotiates the terms of its loan agreements annually to minimize these costs. In 2025, the Parent Company relied less on bank loans than in the previous year. Yato Tools (Shanghai) and Yato Tools (Jiaxing) took out bank loans to finance their ongoing operations. Interest costs on bank loans were slightly higher compared to the previous year, amounting to PLN 693 thousand.

Profitability ratios

For 12 months ended 31 December	2025	2024
Sales profit margin	34,0%	33,9%
Operating profit margin	12,2%	10,6%
Pre-tax profit margin	12,0%	10,5%
Net profit margin	9,6%	8,3%

Key:

Sales profit margin – the ratio of gross profit to sales revenue
Operating profit margin – the ratio of operating profit to sales revenue
Pre-tax profit margin – the ratio of pre-tax profit to sales revenue
Net profit margin – the ratio of net profit to sales revenue

Sales profitability is a key indicator of market competitiveness for the TOYA Group and has a decisive impact on its financial situation. Analysis of this indicator for 2025 shows that gross sales profitability in this period was similar to 2024, at 34%.

The profitability ratios for operating profit, pre-tax profit, and net profit increased in 2025 compared to the previous year. The main positive impact on profitability ratios was the increase in revenues, coupled with a proportional increase in selling and administrative expenses.

Cash flows of the Group (PLN '000)

For 12 months ended 31 December	2025	2024
Cash flows from operating activities	67 802	(40 084)
Cash flows from investment activities	(4 080)	(14 165)
Cash flows from financial activities	(36 471)	22 715
Net change in cash before foreign exchange differences	27 251	(31 534)
Cash and cash equivalents at the beginning of the period	39 128	69 927
Effect of translation of cash and cash equivalents	(2 973)	735
Cash and cash equivalents at the end of the period	63 406	39 128

In 2025, the Group reported positive cash flows from operating activities in the amount of PLN 67,802 thousand. This was primarily due to a reduction in inventory levels across all Group companies, which served to optimize inventory levels in individual Group companies. At the same time, short-term trade and other receivables decreased by PLN 9,663 thousand due to lower sales in December 2025 compared to December 2024. Short-term trade liabilities decreased by PLN 86,061 thousand, which was the result of the repayment of high amounts due to suppliers at the end of 2024.

In 2025, the Parent Company continued its investment in reinforcing the roof structure of the warehouse in Wrocław. Other expenditures on property, plant and equipment include, as in previous years, the purchase of IT equipment and display racks.

In 2025, the Group generated negative cash flows from financing activities in the amount of PLN 36,471 thousand. The main reason was a reduction in bank debt at its subsidiaries in China. The related debt at the end of 2025 amounted to PLN 15,508 thousand. During the year, the Parent Company used overdraft financing, but there was no overdraft debt at the beginning or end of the period. Cash flows from financing activities were also influenced by the repayment of lease principal in the amount of PLN 10,774 thousand, as well as interest paid on bank loans and leases in the amount of PLN 1,876 thousand.

The TOYA S.A. Capital Group's liquidity remained at an adequate level during the period under review. The Group's net working capital was positive, covering the demand resulting from the amount of sales revenues. The ability to settle short-term liabilities was sound.

Liquidity ratios

	31.12.2025	31.12.2024
Current ratio	3,64	2,44
Quick ratio	1,07	0,64

Key:

Current ratio – the ratio of current assets to short-term liabilities

Quick ratio – the ratio of current assets less inventories to short-term liabilities

The current ratio increased to 3.64 as of 31 December 2025, compared to 2.44 as of 31 December 2024. The higher current ratio indicates a lower growth rate of liabilities relative to the growth rate of current assets.

The quick ratio was 1.07 as of 31 December 2025, compared to 0.64 as of 31 December 2024. The increase in both ratios is primarily due to the high level of cash in bank accounts, coupled with lower levels of inventories and receivables. The Group has sufficient resources to meet its current liabilities.

The structure of assets of TOYA S.A. Capital Group (PLN '000)

Ratios of return on equity, assets and current assets

For 12 months ended 31 December	2025	2024
Return on assets (ROA)	12%	9%
Return on equity (ROE)	16%	14%
Return on current assets	13%	10%

Key:

Return on assets (ROA) – the ratio of net profit to total assets as at the end of the period

Equity ratio (ROE) – the ratio of net profit to equity as at the end of the period

Return on current assets – the ratio of net profit to current assets as at the end of the period

As at 31 December 2025, the Group's property, plant and equipment constitute 8% of total assets used in the Group's operations. Property, plant and equipment comprise primarily a newly constructed warehouse in China and land, buildings and structures necessary for the Parent Company's commercial activity.

As at 31 December 2025, right-of-use assets constituted 3% of the total balance sheet amount (4% in 2024). This item consists mainly of the right of perpetual usufruct of land in Poland and China, rented office and warehouse space in Poland and Romania, as well as cars, forklifts and servers under lease.

The structure of current assets used in the operations of TOYA S.A. Capital Group, which as at 31 December 2024 constitute 87% of total assets, includes primarily inventories and trade and other receivables, which is typical to the business activity conducted by TOYA S.A. and its Capital Group. Both these items constitute in total 90% of current assets as at 31 December 2025.

Equity structure and debt ratios

	31.12.2025	31.12.2024
Total debt ratio	26%	38%
Equity debt ratio	35%	61%
Long-term debt ratio	2%	3%
Short-term debt ratio	24%	35%
The ratio of coverage of non-current assets with equity and long-term liabilities	581%	451%
Key:		
Total debt ratio – the ratio of long- and short-term liabilities to total equity and liabilities		
Equity debt ratio – the ratio of long- and short-term liabilities to equity		
Long-term debt ratio – the ratio of long-term liabilities to total equity and liabilities		
Short-term debt ratio – the ratio of short-term liabilities to total equity and liabilities		
The ratio of coverage of non-current assets with equity and long-term liabilities – the ratio of total equity and long-term liabilities to non-current assets		

As of 31 December 2025, the Group's main equity item was retained earnings in the amount of PLN 448,736 thousand. The Group's share capital as of December 31, 2025, amounted to PLN 7,504 thousand.

The main sources of financing for operating activities, and in particular current assets, are equity capital, as well as short-term financing - primarily bank loans. As of 31 December 2025, the Group financed 74.3% of its operations with equity capital for. As of that date, the Group had bank loan debt of PLN 15,508 thousand (PLN 33,840 thousand as of 31 December 2024). The long-term debt ratio as of 31 December 2025, was 2%.

Group management effectiveness ratios

For 12 months ended 31 December	2025	2024
Inventories turnover period (days)	182	218
Receivables inflow period (days)	51	60
Liabilities repayment period (days)	50	93
Key:		
Inventories turnover period (days) – the ratio of inventories as at the end of the period, multiplied by 360 days, to revenue from sales		
Receivables inflow period (days) – the ratio of short-term trade and other receivables as at the end of the period, multiplied by 360 days, to revenue from sales		
Liabilities repayment period (days) – the ratio of trade and other liabilities as at the end of the period, multiplied by 360 days, to revenue from sales		

In 2025, the payables collection period was similar to the receivables collection period. This means that the Group extended similar trade credit to customers compared to the credit it received from suppliers. This situation translates into a stabilization of the need for working capital financing. The inventory turnover period in 2025 shortened to 182 days, primarily due to the lower volume of goods purchased in 2025 compared to 2024.

SEASONALITY

The Group offers seasonal products. However, due to their limited value, the wide range of other products in demand year-round, and the geographical diversity of its subsidiaries, seasonality does not occur.

4.2. OVERVIEW OF THE FINANCIAL RESULTS OF TOYA S.A.

Revenue and profitability of TOYA S.A. (PLN '000)

For 12 months ended 31 December	2025	2024
Sales revenue	674 518	627 541
Gross sales profit	214 706	192 667
Operating profit	85 502	69 888
Profit before tax	86 138	68 930
Net profit	69 532	55 653

In 2025, sales revenues amounted to PLN 674,518 thousand and were higher than revenues achieved in 2024 by PLN 46,977 thousand, i.e. by 7.5%. This increase was achieved mainly in the wholesale sales channel, where sales were higher by PLN 38,062 thousand, i.e. by 14.3%, and in the retail chain channel (by PLN 17,315 thousand, or 20.4%). The main reason in this respect was the revision of the pricing policy aimed at maintaining the competitiveness of individual distribution channels. A slight increase was also recorded in the export channel (by PLN 3,347 thousand, i.e. by 1.7%). The largest increase in volume and revenues was achieved in Ukraine, where revenues amounted to PLN 59,147 thousand, an increase of PLN 12,180 thousand (25.9%) compared to the previous year, and in Hungary (an increase of PLN 8,754 thousand, i.e. by 30.7%). At the same time, the Company recorded a lower volume of sales to the subsidiary Toya Romania (a decrease in sales revenues of PLN 12,413 thousand). The reason for this change was the further intensification of supplies to this company directly by subsidiaries in China, which serves to rationalize costs within the Group. A significant factor influencing the level of revenues was the high availability of goods.

Gross profit on sales increased by PLN 22,039 thousand in 2025 as compared to 2024, which was influenced by higher sales revenues, with slightly higher profitability compared to 2024 (31.8% compared to 30.7%), resulting from a lower average exchange rate of foreign currencies, in particular the Chinese yuan (CNY), which has a direct impact on the cost of imported goods.

Operating profit in 2025, in the amount of PLN 85,502 thousand, was higher than that achieved in 2024 by PLN 15,614 thousand, i.e. by 22.3%. The increase in operating profit was primarily the result of higher sales revenues, which also translated into an increase in selling expenses of PLN 2,204 thousand (2.2%), mainly due to higher transportation and logistics service costs. Administrative expenses also increased, primarily as a result of higher payroll costs. At the same time, the Company recorded a surplus of positive exchange rate differences over negative ones in the amount of PLN 3,031 thousand compared to PLN 3,351 thousand in 2024.

In order to obtain the necessary working capital, the Company periodically uses short-term bank loans. Taking into account the significant impact of financial costs related to these loans on the financial result, the Company negotiates the terms of loan agreements every year so that the costs associated with them are as low as possible. In 2025, the Company used bank loans to a lesser extent than in the previous year, while base interest rates decreased compared to 2024. As a result, the interest costs incurred on bank loans amounted to PLN 81 thousand and were lower by PLN 370 thousand as compared to the previous year.

Net profit in 2025 amounted to PLN 69,532 thousand and was higher by PLN 13,879 thousand, i.e. by 24.9%, compared to 2024.

Profitability ratios of TOYA S.A.

For 12 months ended 31 December	2025	2024
Sales profit margin	31.8%	30.7%
Operating profit margin	12.7%	11.1%
Pre-tax profit margin	12.8%	11.0%
Net profit margin	10.3%	8.9%

Key:

Sales profit margin – the ratio of gross profit to sales revenue
Operating profit margin – the ratio of operating profit to sales revenue
Pre-tax profit margin – the ratio of pre-tax profit to sales revenue
Net profit margin – the ratio of net profit to sales revenue

For TOYA S.A., the sales profit margin is a key indicator of the Company's market competitiveness and has a decisive impact on its financial position. The analysis of this ratio for 2025 shows that the gross sales profit margin increased by 1.1 percentage points compared to 2024. This was due to improved profitability across all distribution channels, resulting from lower costs of purchasing goods thanks to favourable exchange rates.

Profitability indicators at the level of operating profit, profit before tax and net profit also increased compared to the previous year.

Cash flows of TOYA S.A. (PLN '000)

For 12 months ended 31 December	2025	2024
Cash flows from operating activities	59 926	(29 076)
Cash flows from investment activities	(1 745)	(5 223)
Cash flows from financial activities	(15 922)	(7 106)
Change in net cash	42 259	(41 405)
Cash and cash equivalents at the beginning of the period	7 711	49 107
Cash and cash equivalents at the end of the period	49 971	7 711

In 2025, TOYA S.A. reported positive cash flows from operating activities of PLN 59,926 thousand. This was mainly due to a high gross profit, accompanied by a slightly lower inventory level (a decrease of PLN 3,535 thousand, i.e. by 1.1%) and a lower level of short-term receivables (a decrease of PLN 4,667 thousand, i.e. by 8.8%, resulting from lower sales before the end of 2025 as compared to 2024). At the same time, short-term trade liabilities decreased, mainly as a result of lower liabilities to related parties for the purchase of goods (a decrease of PLN 32,177 thousand), which resulted from a different timing of shipments and payments compared to 2024.

In 2025, the Company continued the investment related to strengthening the roof structure of the warehouse in Wrocław. In addition, as in previous years, the Company invested in IT equipment and display racks. Furthermore, the Company granted a loan to the related entity TOYA Romania S.A. in the amount of USD 4,500 thousand. The loan was granted to finance the subsidiary's current operating activities and was fully repaid in 2025 together with accrued interest amounting to PLN 329 thousand.

In 2025, the Company generated negative cash flows from financing activities in the amount of PLN 15,922 thousand. The main direction of expenses was the repayment of lease liabilities in the amount of PLN 6,877 thousand, as well as interest paid on bank loans and leases in the amount of PLN 955 thousand. During the year, the Company used financing from overdrafts, while there was no debt on this account either at the beginning or at the end of the period.

The liquidity of TOYA S.A. during the analysed period remained at an appropriate level. The Company's net working capital was positive, covering the demand arising from the volume of sales revenues generated. The ability to settle short-term liabilities was satisfactory.

Liquidity ratios

	31.12.2025	31.12.2024
Current ratio	6.48	4.23
Quick ratio	1.51	0.66

Key:

Current ratio – the ratio of current assets to short-term liabilities

Quick ratio – the ratio of current assets less inventories to short-term liabilities

The current liquidity ratio increased to 6.48 as of 31 December 2025, compared to 4.23 as of 31 December 2024. The higher current liquidity ratio indicates a lower growth rate of liabilities relative to the growth rate of current assets.

The quick liquidity ratio as of 31 December 2025 was 1.51, compared to 0.66 as of 31 December 2024. The increase in this ratio is mainly attributable to the high level of cash held in bank accounts. The Company has sufficient resources to settle its current liabilities.

Za okres 12 miesięcy zakończony 31 grudnia	2025	2024
Return on assets (ROA)	13%	11%
Return on equity (ROE)	15%	14%
Return on current assets	16%	14%

Key:

Return on assets (ROA) – the ratio of net profit to total assets as at the end of the period

Equity ratio (ROE) – the ratio of net profit to equity as at the end of the period

Return on current assets – the ratio of net profit to current assets as at the end of the period

TOYA S.A.'s property, plant and equipment as of 31 December 2025 constitute 4% of the total assets involved in the Company's operations. Property, plant and equipment mainly consist of land, buildings and structures necessary for TOYA S.A. to conduct its commercial activities. There were no significant changes in their structure during the period under review.

As of 31 December 2025, right-of-use assets accounted for 2% of the balance sheet total, representing a decrease of 1 percentage point compared to 31 December 2024. This item consists primarily of the right of perpetual usufruct of land, leased office and warehouse space, and leased cars, forklifts and servers. The main reason for the decrease in both the value and share in the balance sheet total of this item was depreciation.

As of 31 December 2025, investments in subsidiaries consisted of shares in Toya Romania S.A. in the amount of PLN 1,885 thousand, Yato Tools (Shanghai) Co. Ltd. in the amount of PLN 20,746 thousand and Yato Tools (Jiaxing) Co. Ltd. in the amount of PLN 48,172 thousand. There were no changes in the structure of subsidiaries during the current year.

In the structure of current assets used in TOYA S.A.'s operations, which as at 31 December 2025 constitute 80% of total assets, inventories and trade and other receivables predominate, which is characteristic of TOYA S.A.'s business operations. Both of these items together as at 31 December 2025 constitute 88% of total current assets (98% as at 31 December 2024). The main reason for the change in the structure of current assets was the increase in the share of cash and cash equivalents, which as at 31 December 2025 constitute 9% of total assets (2% as at 31 December 2024).

Equity structure and debt ratios of TOYA S.A.

	31.12.2025	31.12.2024
Total debt ratio	13%	20%
Equity debt ratio	15%	26%
Long-term debt ratio	1%	2%
Short-term debt ratio	12%	18%
The ratio of coverage of non-current assets with equity and long-term liabilities	438%	361%

Key:

Total debt ratio – the ratio of long- and short-term liabilities to total equity and liabilities

Debt to equity ratio – the ratio of long- and short-term liabilities to equity

Long-term debt ratio – the ratio of long-term liabilities to total equity and liabilities

Short-term debt ratio – the ratio of short-term liabilities to total equity and liabilities

The ratio of coverage of non-current assets with equity and long-term liabilities – the ratio of total equity and long-term liabilities to non-current assets

As of 31 December 2025, the main item of TOYA S.A.'s equity was retained earnings in the amount of PLN 334,274 thousand. The Company's share capital as of 31 December 2025 amounted to PLN 7,504 thousand.

The main sources of financing for operating activities, in particular current assets, are equity as well as short-term financing, mainly trade credit and periodically bank loans.

As of 31 December 2025, TOYA S.A. financed its operations in 87% with equity (80% as of 31 December 2024). As of that date, the Company had no debt under bank loans. The long-term debt ratio as of 31 December 2025 was 0.8%. This debt results mainly from concluded lease agreements with a term longer than 12 months.

TOYA S.A. management effectiveness ratios

For 12 months ended 31 December	2025	2024
Inventories turnover period (days)	173	188
Receivables inflow period (days)	26	30
Liabilities repayment period (days)	21	41

Key:

Inventories turnover period (days) – the ratio of inventories as at the end of the period, multiplied by 360 days, to revenue from sales

Receivables inflow period (days) – the ratio of short-term trade and other receivables as at the end of the period, multiplied by 360 days, to revenue from sales

Liabilities repayment period (days) – the ratio of trade and other liabilities as at the end of the period, multiplied by 360 days, to revenue from sales

In 2025, the repayment period for liabilities was shorter than the receivables collection period. This means that the Company granted longer trade credit to its customers than it received from its suppliers. At the same time, the inventory turnover period in 2024 decreased to 173 days, mainly due to a lower level of purchases made compared to 2024.

The Company consistently takes action to adapt its offer to the needs of customers, increase the operational efficiency of the entire sales group and continuously improve logistics processes.

Seasonality

The Company offers seasonal products. However, due to their limited value, a wide range of other products that are in demand throughout the year, and due to the geographically diverse sales, seasonality does not occur.

4.3. INFORMATION ON OWN BRANDS

The TOYA Group offers a wide range of products sold under its own brands:

- YATO (cordless, electric, petrol, pneumatic, and hand tools; personal protective equipment),
- VOREL (workshop and construction hand tools),
- LUND (power tools),
- STHOR (power tools),
- FALA (bathroom equipment),
- FLO (manual and petrol garden tools, garden power tools).

The most profitable brand is YATO. Every year, the Group records an increase in the sales volume of this brand on both the domestic and international markets.

The value of sales revenues from the core operations of the Company and the Capital Group, broken down by brand, is presented in the tables below:

Structure and volume of sales revenues from the core (trading) operations of the Capital Group, broken down by brand.

for 12 months ended 31 December	2025	share %	2024	share %
	PLN '000	%	PLN '000	%

The most recognizable and leading brand of the Company, which also generates the highest sales growth, is **YATO**. **Since 2012, the YATO brand has held the largest share in the Company's sales.** It includes a wide range of high-quality hand tools, pneumatic tools, and power tools designed for automotive workshops, construction, finishing, and gardening work. The YATO assortment includes general-purpose tools as well as specialized instruments that have gained recognition among both professionals and DIY users.

Products sold under the **YATO** brand include socket wrenches, torque and impact wrenches, screwdrivers, pliers, combination wrenches, hammers, drill bits, cutting discs, lighting and PPE items. A strong position within the brand's assortment is held by automotive workshop equipment such as tool cabinets and kits, pneumatic tools, and specialized car repair instruments. The broad YATO range also includes tools for installers in the electrical, plumbing, and HVAC sectors.

In 2015, the YATO brand's offer was expanded with a line of power tools that combine excellent technical parameters with high-quality workmanship. The range includes cordless drills, rotary hammers, angle grinders, circular saws, jigsaws, routers, and more. Among YATO's power tools are also cordless devices powered by a unified battery type, creating a universal and user-friendly platform for tools used in construction, workshops, and gardens. Since 2017, the YATO brand has also offered professional catering equipment for the HoReCa sector, including refrigeration devices, work tables, insulated transport containers, deep fryers, grills, meat grinders, pots, pans, and many other products.

YATO tools are made from high-quality alloy steels using modern technologies, including heat and chemical treatment. The Company continuously expands its product range, introducing several hundred new items each year. In selecting products, special attention is paid to their use in modern construction and automotive industries, as well as to market trends in the supported sales channels. As a result, the YATO brand is well perceived in the market in terms of both quality and price.

Revenues from sales of YATO brand products accounted for 83% of the Group's revenues in 2025 (80% in 2024).

VOREL is a brand that, for approximately 10 years, held the largest share of the Company's product sales. Its assortment includes hand and pneumatic tools essential for workshop, construction, and household applications. The VOREL offering features tools for a wide range of professionals (electricians, locksmiths, service technicians, welders, plumbers, pavers, plasterers, tilers), as well as hobbyists. These include, for example: screwdrivers and screwdriver bits, pliers, pipe wrenches, hammers, chisels, cold chisels and axes, clamps, vises, gas torches, hand planes, tile cutting tools, ladders, measuring tapes, levels, tool bags, etc. Among the pneumatic tools are grinders, impact wrenches, angle shears, air blow guns, and ratchets. The VOREL tool range also includes products designed to help maintain cleanliness in the home and workshop.

In 2025, sales of VOREL brand products accounted for 9% of the Group's revenue (compared to 11% in 2024).

The LUND brand was established in mid-2010 and offers household appliances, including mixers, blenders, deep fryers, sandwich makers, as well as vacuum cleaners, irons, mops, and air purifiers. The multifunctional and user-friendly LUND appliances facilitate everyday tasks such as cooking and maintaining cleanliness at home, and their modern design makes them a decorative addition to any interior. Charcoal and gas garden grills are also very popular among users.

In 2025, sales of LUND brand products accounted for 2% of the Group's revenue (compared to 3% in 2024).

The STHOR brand is aimed at demanding DIY enthusiasts. It includes power tools for construction, renovation and finishing work. The STHOR range also includes tool sets, accessories and equipment for work in the garage and home workshop, e.g. vacuum cleaners, rectifiers, extension cords, screwdriver bit sets, drills. STHOR products are distinguished by their ergonomic work combined with affordable prices.

Sales revenues from products under the STHOR brand accounted for 2% of the Group's revenues in both 2025 and 2024.

The Company sells bathroom and kitchen equipment under the **FALA** brand. The product range includes washbasin and sink faucets, shower panels and a wide selection of linear drains. Products gathered in unique collections are accompanied by accessories that complement the brand's range, such as connecting hoses, towel holders, plugs, shower heads, pumps, heaters, bathroom scales. Modern design and well-thought-out solutions make FALA products create a functional space tailored to the needs of users.

Sales revenues from products under the FALA brand accounted for 1% of the Group's revenues in 2025 (2% in 2024).

FLO is a brand that includes a wide range of hand tools, electric and battery-powered devices designed for gardening and for the care of terrace and balcony plants. Products offered under this brand include secateurs, branch saws, spades, rakes, hoses, garden baskets, gloves. FLO power tools include hedge trimmers, chainsaws, scarifiers, pumps, sprayers, etc.

Revenues from the sale of FLO brand products accounted for 1% of the Group's revenue in 2025 (2% in 2024).

4.4. INFORMATION ABOUT MAIN SALES MARKETS

4.4.1. Sales Structure

The main distribution channels of TOYA S.A. and the TOYA Capital Group are:

a) local markets (Poland, Romania and China):

- wholesale market, i.e., distributors, wholesalers, and stores
- retail chains
- retail sales – mainly through online channels, including own online stores operated by TOYA S.A., TOYA Romania S.A., Yato Tools (Shanghai) Co. Ltd, and Yato Tools (Jiaxing) Co. Ltd.

b) export.

Outside Poland, the products are introduced to the market through TOYA's subsidiaries Toya Romania S.A., YATO Tools (Shanghai), and YATO Tools (Jiaxing), as well as through distributors and sales representatives. Such a diversified sales network ensures the possibility of reaching a wide market, professional service, and optimization of the availability of the entire range of products sold by the Group.

The Company's and the Capital Group's revenues broken down by distribution channels and their profitability are presented in the tables below.

Structure and volume of sales revenues of the Capital Group broken down by segments as distribution channels.

Legend:

Sales profitability ratio of a segment – the ratio of segment gross profit to sales revenue in that segment, based on data from the financial statements.

Average – revenue-weighted average for all segments combined.

4.4.2. Wholesale market - sales in Poland

TOYA S.A. has been present on the domestic market for over 30 years and is systematically strengthening its position there. The largest sales in Poland are realized through traditional distribution channels, i.e. through distributors, wholesalers and stores. In 2025, TOYA S.A. cooperated with many distributors, whose network is constantly being developed. The company also cooperates with several dozen wholesale recipients in all provinces, meeting the growing demand for its goods and aiming to increase margins and promote the private brands it manages. The company employs several dozen sales representatives - partner guardians on the wholesale market and plans to further develop this distribution channel.

Structure and volume of the Company's sales revenue on the wholesale market in Poland (in PLN thousand)

for 12 months ended 31 December	2025	% share	2024	% share
Distributors	178 927	59%	185 735	70%
Wholesalers and stores	124 480	41%	79 610	30%
Total	303 407	100%	265 345	100%

4.4.3. Retail chains - sales in Poland

Sales to retail chains in Poland constitute approx. 15% of TOYA S.A.'s sales revenue and 11% of the Group's sales revenue. TOYA S.A. cooperates with large chains in the country. Two key chains generate a total of 70.6% of the Company's revenue in this channel. The Parent Company sells industrial goods based on orders received from its customers for specific, in terms of quantity and date, deliveries of goods, which, after confirmation of their acceptance for execution, result in the creation of typical contractual obligations. In this channel, the Company cooperates with customers with an established market position, financially reliable and transparent, and with a positive history of debt repayment.

4.4.4. Export sales and foreign operations of the Group

TOYA S.A.

For many years, the Parent Company has been operating on international markets, focusing primarily on the markets of Central, Southern and Eastern Europe.

The structure and volume of revenues from export sales of the Parent Company by country in PLN thousand (*)

for the 12-month period ended December 31	2025	Share %	2024	share %
Ukraine	59 147	30%	46 967	26%

(*) does not include sales to subsidiary TOYA Romania, which amounted to PLN 4,005 thousand (PLN 16,418 thousand in 2024)

Toya Romania S.A.

In addition to the export sales described above, direct sales in Romania are conducted by the subsidiary established in 2003 - Toya Romania S.A., which specializes in the sale of tools and power tools within Romania. The product assortment, offered brands, and distribution channels (apart from exports) are identical to those of the Polish company. Revenues from Toya Romania's sales are reported within the wholesale and retail chain segments.

The development strategy for Toya Romania S.A. includes, among other things, further leveraging synergy effects within the Group, particularly optimizing the costs of purchasing goods based on shared supply sources and logistics centres. Moreover, the Romanian company intends to strengthen its position in the local market by further expanding its network of sales representatives, whose role is to acquire customers in the traditional market among specialized retail stores and institutional clients. Marketing efforts focus on increasing the share of the high-margin YATO brand in the revenue structure, which, using a shortened distribution channel, will provide the Company with a significant increase in profitability.

Yato Tools (Shanghai) Co., Ltd.

Yato Tools (Shanghai) Co. Ltd., headquartered in Shanghai, has been operating since the second half of 2008 as a jointly controlled company, and since 2 January 2013 as a controlled company fully consolidated in the Group's financial statements. During this period, the company focused on building a distribution network, recruiting and training sales

personnel, and preparing for expansion into global markets. In recent years, the company has completed its initial development phase and established a distribution network, as well as created a structure enabling consolidation and export of YATO products directly to customers and distributors in Southeast Asia, Africa, Australia, and the Middle East. Yato Tools (Shanghai) Co. Ltd. is also one of the main suppliers of goods to TOYA S.A. and TOYA Romania S.A.

Currently, Yato Tools covers almost the entire territory of China with its sales network, serving a population of 1.4 billion people. This indicates significant potential for further development of the local sales network, not only through increased transactions with existing representatives, but also through growth in the number of distributors specializing in other product categories offered by the company, such as automotive tools, power tools, and garden tools. In addition, Yato Tools is developing its online sales channel, both through its own store and through existing large specialized e-commerce platforms.

Yato Tools' export activity began in the second quarter of 2010 as a further step in the company's development. In 2025, the company conducted trade with several dozen countries across Africa, Asia, Australia, as well as South and Central America. The highest turnover in this year was recorded with customers from the United Arab Emirates, Belarus, and Uzbekistan.

4.4.5. Retail sales – sales in all Group companies

The year 2025 marked a period of stabilisation in the development of the online stores www.toya24.pl and yatogastro.pl. In addition, sales in Poland are conducted via popular online platforms. Subsidiaries in Romania and China also conduct online sales. In total, this sales channel accounts for 8% of the Group's total sales revenue.

The decrease in this sales channel amounted to 12%, following a period of dynamic growth in 2024, when growth in this channel compared to 2023 amounted to 62%. Changes in this area were mainly driven by a revision of the pricing policy in the Parent Company, focused on improving competitiveness, which affected the volume of orders from both

individual customers and business entities preferring online shopping. The Group sees significant potential and plans further dynamic development of this distribution channel in the coming periods.

4.5. INFORMATION ABOUT SUPPLIERS

The network of suppliers with which the Group cooperates is significantly diversified. For many years, the Group has been cooperating with several hundred foreign suppliers and several dozen domestic ones, thanks to which it has established lasting business contacts. Such a wide range of suppliers ensures a high degree of independence and allows to strengthen the Group's negotiating position. This position is additionally strengthened by the presence of subsidiaries Yato Tools (Shanghai) and Yato Tools (Jiaxing), both due to greater trust of Asian producers in the local partner, as well as due to larger order volumes. The Parent Company usually orders products on the basis of individual orders, which ensures flexibility in negotiations and allows for better adjustment of the product offer to changing customer expectations.

4.6. MAJOR RESEARCH AND DEVELOPMENT ACHIEVEMENTS

The Group has a wide portfolio of offered products and treats their development and improvement as one of the key tools for building a competitive advantage on the market. The Product Development Centre - an organizational unit of the Parent Company, has been conducting, in cooperation with subsidiaries, analyses of market design trends, analyses of their growth potential and conceptual and design work for specific tool groups for many years. This work is financed from the Parent Company's own funds.

4.7. INFORMATION ON THE EMPLOYEE STOCK PROGRAM CONTROL SYSTEM

In 2025 r. there was no employee share program in the Parent Company or the Group.

4.8. TRANSACTIONS WITH RELATED PARTIES

Transactions with related parties are concluded in the normal course of the Company's and the Group's business activities and are conducted on arm's length terms. These transactions are presented in Note 34 to the consolidated financial statements and in Note 33 to the stand-alone financial statements. In 2025, TOYA S.A. granted a loan to TOYA Romania, as described in section 4.10, and received a dividend from Yato Tools (Jiaxing) Co. Ltd. in the amount of PLN 512 thousand (the equivalent of CNY 1,000 thousand). Neither the Company nor other entities belonging to the TOYA Group entered into any transactions with related parties that would be unusual or not conducted on market terms.

4.9. INFORMATION ON CREDITS AND LOANS TAKEN

A summary of bank loans is provided in the table on the next page.

(**) CNY 60,000 thousand converted using the NBP exchange rate applicable as of 31 December 2025.

4.10. INFORMATION ON CREDITS AND LOANS GRANTED

On 22 April 2025, TOYA S.A. entered into a loan agreement with TOYA Romania S.A. for the purpose of financing the subsidiary's current operating activities. The basic information is presented below.

Borrower	Borrower name	Currency	Nominal amount in contract currency (USD thousand)	Value at the time of granting the loan (PLN thousand)	Current interest rate	Date of expiry
TOYA S.A.	Toya Romania S.A.	USD	4 500	16 749	90-day Average SOFR + margin	31.03.2026

As of 31 December 2025, the loan granted had been fully repaid together with accrued interest. Apart from the above agreement, in 2025 the companies belonging to the Group did not grant any loans or credits.

4.11. INFORMATION ON CONCLUDED AGREEMENTS SIGNIFICANT FOR THE GROUP'S ACTIVITIES

The Company adopted the value of the agreement exceeding 10% of TOYA's equity as the criterion for determining whether the agreements are significant. Using this criterion, in 2025 the Company concluded annexes to the credit agreements with banks, which are presented in point 4.9.

The table below includes the Parent Company's insurance policies.

No	Insurance period	Subject of insurance
1a	July 1, 2025 – June 30, 2026	Insurance against all risks of physical loss or damage to property - fixed assets and real estate
1b	July 1, 2025 – June 30, 2026	Insurance against all risks of physical loss or damage to working capital
1c	July 1, 2025 – June 30, 2026	Insurance against all risks of physical loss or damage - electronic equipment
2	July 1, 2025 – June 30, 2026	Civil liability insurance for property ownership and business activity
3	December 12, 2025 – December 12, 2026	Car fleet motor insurance
4	September 20, 2025 - September 19, 2026	Civil liability insurance for members of company management boards
5	October 13, 2025 – October 12, 2026	Professional liability insurance for accountants and payroll staff
6	July 1, 2025 - June 30, 2027	Trade credit risk insurance for certain contracts
7	March 1, 2025 – February 28, 2026	Property insurance in CARGO transport
8	January 1, 2026 - December 31, 2026	Guarantee of payment of customs debt
9	June 21, 2025 – June 20, 2026	Employee travel insurance
10	July 15, 2025 - February 28, 2026	Insurance for construction and assembly works

4.12. ASSESSMENT OF FINANCIAL RESOURCE MANAGEMENT AND ASSESSMENT OF THE ABILITY TO MEET OBLIGATIONS

The Group's operations were financed with external capital in 25.7%, and the operations of TOYA S.A. - in 13%. The loan agreements stipulate that throughout the entire loan period the borrower undertakes to maintain the capitalization ratio and debt ratio at the agreed level and to maintain the inflows to bank accounts in the amount agreed, in accordance with the terms of the loan agreements.

The Parent Company has good relations with banks, financial institutions and has not had a problem with renewing loans on favourable terms. The Group continues to dynamically develop its operations, maintains liquidity at a high level and pursues a conservative debt policy. Therefore, the Management Board highly evaluates the Company's ability to meet its obligations.

At present, there are no events that, in the opinion of the Management Board, could negatively affect the ability of the Company and the entire Group to meet its obligations.

4.13. DESCRIPTION OF SIGNIFICANT OFF-BALANCE SHEET ITEMS

As of 31 December 2025, the Group companies were parties to the following guarantee agreements in connection with their business activities, granted by the entities listed below:

No.	Principal	Counterparty	Type of guarantee	Subject matter and value	Date of expiry
1	TOYA S.A.	Bank Handlowy S.A. w Warszawie	Guarantee of proper performance-timely payment for the lease of warehouses in Nadarzyn by TOYA S.A.	638 698,83EUR	28 February 2026
2	TOYA S.A.	Sopockie Towarzystwo Ubezpieczeń ERGO Hestia S.A.	Security for amounts due for customs duties, taxes and other fees in relation to goods subject to release for circulation on the basis of a customs declaration by TOYA S.A.	270 000 PLN	31 December 2025 (*)
3	TOYA Romania S.A.	BRD Groupe Societe Generale	Warehouse rental payment guarantee in Bucharest	341 602 EUR	3 August 2026

(*) After the end of the year, the guarantee was extended until 31 December 2026.

On 12 June 2019, TOYA S.A. provided a guarantee for the payment of liabilities resulting from the lease of office and warehouse space by Toya Romania S.A. to the lessor up to the amount of EUR 115,000. The lease agreement was concluded on 8 February 2019 and covers 10 years with an option to change this period. The guarantee expires after 3 months from the date of termination of the lease agreement.

On 29 March 2024, TOYA S.A. concluded a guarantee agreement with Citibank (China) Company Limited-Shanghai Branch, based in the People's Republic of China, in order to secure the repayment of receivables due to the bank under the conclusion by YATO TOOLS (Shanghai) Co., Ltd, of a short-term working capital loan agreement, in the amount of CNY 60,000 thousand. The agreement assumes TOYA S.A.'s guarantee for the liabilities of the subsidiary up to the amount of CNY 72,000 thousand. The guarantee was granted until 31 August 2025.

Apart from the guarantees and sureties granted, the Group has no significant contingent assets or liabilities.

4.14. DISPUTES

As of 31 December 2025, TOYA S.A. is not a party to any material proceedings pending before a court, an arbitration authority, or a public administration body.

In 2025, TOYA S.A. received three demands for payment of additional remuneration from an unrelated entity, relating to services rendered, with a total gross value of PLN 5,170 thousand. The agreement between the parties expired at the end of the first quarter of 2025. The Management Board of the Company assesses that there are no factual or legal grounds for such claims, and the probability of any payment obligation arising is considered low. In the Company's view, all obligations for services rendered during the term of the agreement have been fully settled. Therefore, no provision was recognised in the 2025 financial statements for this matter.

4.15. OWN SHARES

On 26 June 2024, the Company's General Meeting of Shareholders adopted a resolution authorising the Management Board to acquire own shares and establishing a reserve capital in the amount of PLN 100,000 thousand, allocated for the purpose of purchasing the Company's own shares.

On 3 June 2025, the Management Board of TOYA S.A. published an invitation to submit offers for the sale of TOYA S.A. shares. The invitation covered up to 9,850,000 shares of TOYA S.A. with a nominal value of PLN 0.10 each. The purchase price offered was PLN 8.00 and offers to sell shares were accepted between 5 and 13 June 2025.

Under the announced public share buyback programme, shareholders submitted offers to sell a total of 1,004,979 shares of the Company, with a total nominal value of PLN 100,497.90, representing approximately 1.34% of the share capital.

Voting rights attached to treasury shares held by the Company are not exercised at the Company's General Meeting of Shareholders. In accordance with §2(9) of the General Meeting resolution, the own shares acquired by the Company may be cancelled pursuant to a separate resolution of the General Meeting.

5. GROUP DEVELOPMENT PLANS AND PROSPECTS

The Capital Group attaches great importance to the quality of customer service. This is a key factor in maintaining a competitive advantage on the market, and one of its most important elements is ensuring full availability of the product offer for every customer in any region of the world. Supporting these goals, the Group improves logistics processes and maintains good relations with suppliers, taking into account the need to minimize delivery costs. The Group will strengthen its market position and seek new, attractive expansion opportunities.

The most important activities for the implementation of this program are:

- Development of the capital group
Yato Tools (Jiaxing), a subsidiary based in Baibu Town, Zhejiang Province, operates a modern high-bay warehouse located near two major seaports, among the world's most important transshipment centres. The facility serves a key role as a central point for consolidating shipments to warehouses in Poland and Romania, while also serving as a local distribution centre for companies operating in China. Thanks to advanced automation, the warehouse significantly streamlines logistics processes and reduces the need for significant human resources. The group plans to further strengthen and develop its logistics capabilities, viewing them as one of the foundations for building a sustainable competitive advantage.

- Development of the export channel

The prolonged conflict between Russia, Belarus, and Ukraine continues to impact sales in the export channel. Declining deliveries to Russia and Belarus are offset by dynamic growth in sales to Ukraine, which has now become the Group's largest geographic market. Maintaining and further strengthening its position in this market will only be possible once the political and macroeconomic situation in Ukraine stabilizes. The Group is also closely monitoring the situation in Russia and Belarus and intends to rebuild its position in these markets after the end of hostilities.

The Group plans to strengthen its presence in other European markets, expanding its customer base to new customer segments and diversifying sales channels. At the same time, it is expanding its operations outside Europe. The Chinese subsidiary Yato Tools (Jiaxing) is rapidly increasing sales and acquiring new customers, particularly in South American markets, where the Group is steadily strengthening its position. African markets also represent a natural direction of expansion for Chinese companies. This development is supported by a newly built warehouse in China, equipped with modern infrastructure, which streamlines logistics processes throughout the Group.

Chinese companies are dynamically expanding their operations among clients in the Persian Gulf region. However, prolonged hostilities in this area could disrupt further development and, in extreme cases, lead to a reduction in the Group's presence in these markets.

- Effective product management

The Group attaches great importance on effective product management at every stage of its lifecycle—from market launch to product discontinuation. It boasts a broad portfolio encompassing several thousand products targeted at diverse customers. The Product Management team continually develops its offerings, ensuring they are attractive, modern, and tailored to the needs of customers in Europe and other markets where the Group sees growth potential. A key element of this process is the continuous introduction of new products that respond to changing expectations and market trends. In their daily work, the team is supported by modern IT technologies, systems, and devices that facilitate effective product management.

- Development of logistics processes

The Group is working to optimize its logistics processes, primarily focused on warehousing, due to the intensive development of its product offering and increased trading volume. The work aims to identify and implement solutions that will, on the one hand, increase the Group's competitive advantage and, on the other, maintain the effectiveness of its business model in the long term. These efforts will focus on ensuring improved product availability, a key factor in the Group's competitiveness, as well as adapting logistics processes to current and anticipated customer expectations.

- Capital investments

The Group monitors the market in search of an attractive acquisition target that would generate added value for shareholders.

ASSESSMENT OF THE POSSIBILITY OF IMPLEMENTING INVESTMENT INTENDED USE

In the opinion of the Management Board of the Parent Company, there are no threats to the implementation of the above-mentioned investment plans. In addition to funds generated from operating activities, the Group has secured external financing in the form of credit limits in accordance with the agreements described in point 4.9.

6. RISK MANAGEMENT

6.1. MAIN TYPES OF RISK

The basic **financial risks** include:

- currency risk,
- interest rate risk,
- liquidity risk.

The characteristics of financial risks are included in point 6.2.

The basic **non-financial risks** include:

- the risk of changes in the macroeconomic situation, including in particular changes in the GDP growth rate, the level of inflation, the situation in the industrial, automotive, home and garden, infrastructure and residential construction, construction and assembly segments, the level of investment in enterprises, interest rate policy, the budget situation, or the income situation of society,
- competition risk,
- risk related to changes in the legal and tax environment,
- risk of disruption of the supply chain.

The characteristics of these risks are included in point 2.

6.2. RISK MANAGEMENT SYSTEM

The purchase prices of goods sold by the Group are subject to fluctuations, primarily due to changes in production costs of acquired goods (including raw material prices) incurred by the Group's suppliers. In addition, the purchase price of goods depends on the USD/PLN and CNY/PLN exchange rates. These factors affect the profit margins achieved. To minimize the negative impact of purchase price fluctuations on financial performance, the Group negotiates relatively high-value contracts and selects manufacturers offering competitive prices and commercial terms. The Group does not use financial instruments to hedge against the risk of changes in purchase prices due to currency exchange rate fluctuations.

A portion of the Group's sales revenue is generated through export activities, with prices denominated in foreign currencies. As a result, the Group partially benefits from natural hedging. However, there remains a risk that future currency fluctuations could have a temporary negative impact on the Group's financial results.

Client credit risk is not significant due to the high diversification of customers. To mitigate the risk of overdue receivables, the Group periodically assesses the creditworthiness of its counterparties and conducts systematic (internal and external) monitoring of outstanding balances. Credit limits for individual customers are determined by the Management Board. For customers who consistently exceed payment terms, appropriate debt collection procedures and restrictions on purchasing goods from the Group are applied. To further minimize risk, the Parent Company also concludes receivables insurance agreements with one of the leading financial institutions.

Due to the nature of its operations, the Group requires working capital to settle payments with suppliers before receiving payment from customers, in exchange for favourable purchasing terms. The necessary capital is provided, among other sources, through short-term credit agreements for working capital financing. To diversify its lenders, the Parent Company cooperates with several banks that hold high credit ratings. Loan interest rates are based on the WIBOR benchmark rate. The Group does not use instruments to hedge against interest rate risk.

The Parent Company maintains good relationships with banks and has not experienced any issues with loan renewals to date. Therefore, the Management Board of the Parent Company considers the risk associated with short-term debt to be low.

In the opinion of the Management Board of the Parent Company, the Group's liquidity is secured for the foreseeable future. The Group follows a strict liquidity risk management policy by maintaining an adequate level of cash and ensuring access to available credit lines. The Parent Company monitors the level of short-term liabilities, working capital, and the current cash flows of both the Company and the Group.

7. TOYA GROUP SUSTAINABILITY REPORT

7.1. ESRS 2 GENERAL DISCLOSURE

This report concerning the TOYA Group has been prepared in accordance with Article 63x, Chapter 6c of the Accounting Act of 29 September 1994 and Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, together with the Delegated Regulations of the Commission (EU) 2021/2139 of 4 June 2021, 2021/2178 of 6 July 2021, and 2022/1214 of 9 March 2022, as well as taking into account Delegated Regulation (EU) 2023/2772 of 31 July 2023, applicable from 1 January 2024, supplementing Directive 2013/34/EU of the European Parliament and of the Council as regards sustainability reporting standards.

The report has been prepared on a consolidated basis, and the scope of data consolidation is consistent with the consolidated financial statements. The data, indicators, and statements presented in this report refer to the Parent Company TOYA S.A. and the TOYA Capital Group.

The Sustainability Report of the TOYA Group for the year 2025 applies to the organization and its value chain when describing material impacts, risks, and opportunities, in order to better understand them. In preparing the document, the Group did not exercise the option to omit information relating to intellectual property, know-how, or the results of innovation.

In preparing the Sustainability Report, TOYA Capital Group generally did not deviate from the definitions of short-, medium-, and long-term time horizons as set out in ESRS 1, adopting a 1-year horizon for short-term, 5 years for medium-term, and over 5 years for long-term perspectives. However, for the assessment of climate-related risks (physical and transition risks) and scenario analysis, different medium- and long-term horizons were applied — up to 2040 and up to 2050, respectively — in alignment with the European Union's decarbonization target for 2050.

The TOYA Capital Group has decided to present the following disclosures in other sections of the Management Report of TOYA S.A. and the TOYA Group:

Disclosure	Place in the report on the operations of the Company and the TOYA Group
(ESRS 2 GOV-1) 21a-d	Item 8.8 (statement regarding corporate governance)
(ESRS2 GOV-3) 27	Item 8.8 (statement regarding corporate governance)
(G1) 5b	Item 8.8 (statement regarding corporate governance)

TOYA Capital Group does not report any changes in the method of preparation or presentation of information or errors from previous reporting periods.

7.1.1. Management

TOYA Capital Group consists of four companies:

- TOYA S.A. – a Parent Company that meets the criteria for reporting on sustainable development,
- TOYA Romania S.A.,
- YATO Tools (Shanghai) Co., Ltd.,
- YATO Tools (Jiaxing) Co., Ltd.

According to the statute, the TOYA S.A. Management Board consists of one to seven members - this number is determined by the Supervisory Board. The Management Board members are appointed by the Supervisory Board for a joint, three-year term of office. The Company provides membership in the Management Board and Supervisory Board to persons with the widest possible range of competences and qualifications. In the opinion of TOYA S.A., the General Meeting and the Supervisory Board, when selecting the Supervisory Board and the Management Board, respectively, are guided primarily by the interests and needs of the company in terms of ensuring a diversified pool of talents necessary to meet the challenges facing the organization.

As of 31 December 2025, the Management Board of TOYA S.A. consisted of:

- Grzegorz Pinkosz – Chairman of the Board,
- Maciej Lubnauer – Vice President of the Management Board,
- Robert Borys – Vice President of the Management Board,
- Jan Jakub Szmidt – Vice President of the Management Board.

Composition of the Supervisory Board as at 31 December 2025:

- Piotr Mondalski – Chairman of the Supervisory Board,
- Jan Szmidt – Vice-Chairman of the Supervisory Board,
- Beata Szmidt – Member of the Supervisory Board,
- Dariusz Górka – Member of the Supervisory Board,
- Zenon Beker – Independent Member of the Supervisory Board (independent member),
- Grzegorz Maciąg – Member of the Supervisory Board,
- Wojciech Papierak – Independent Member of the Supervisory Board (independent member).

More information on the Management Board and the Supervisory Board of TOYA S.A. can be found in section 8.8 of the Report on operations of the Company and the TOYA Group.

The organizational structure of the Management Board does not designate a specific individual responsible for overseeing impacts, risks, and opportunities. Each member of the Board is responsible for these issues within the organizational units under their supervision. It is also the Management Board that, by way of resolution, adopts Company policies and is responsible for their implementation within the organization.

The Company's risk management system is based on an established organizational structure composed of specialized units responsible for identifying potential risks, assessing their impact on specific decision-making processes, monitoring, and reporting directly to the Management Board. The Management Board of TOYA S.A. oversees the achievement of business objectives and supports managerial staff and operational employees in their daily activities, including risk management. In 2020, the Company established a specialized Legal and Compliance Department, responsible for the comprehensive oversight and control of business and organizational units regarding compliance with legal regulations, market best practices, adopted business ethics standards, and internal policies. The Legal and Compliance Department reports directly to the Management Board. This solution has provided the Board with access to consolidated knowledge regarding the Company's compliance across all areas and aspects of its operations, including applicable law, internal regulations, and the *Best Practices for WSE Listed Companies*. Currently, the Company has set

objectives related to its material impact on climate change. The Management Board of TOYA S.A. is informed annually of progress made in achieving these objectives.

The Management Board's knowledge of sustainability is continuously developed through participation in specialized training. Board members also have access to the expertise of ESG advisors with whom the Company collaborates. The Management Board plays a key role in defining, approving, and supervising the sustainability strategy, and is also responsible for reviewing and approving the reported data.

For several years, the TOYA Capital Group has identified its material sustainability topics. The most recent analysis was fully conducted in accordance with the double materiality principle, meaning it took into account both the organization's impact on the environment and the assessment of financial risks and opportunities for the Group. The Management Board of the parent company was informed about the results of the double materiality assessment process, and a Board representative actively participated in the process. The Board is informed about performance indicators, allowing it to assess the effectiveness of management at TOYA S.A. In 2025, there were no changes to the business model, organizational structure, or operational processes that could significantly impact the results of the double-materiality analysis. Therefore, after reviewing the identified material topics for relevance, the 2025 Sustainability Report uses the results of the double-materiality analysis conducted with an external advisor between November 2024 and February 2025.

The Management Board of the parent company has been made aware of all significant impacts and risks identified through the double materiality assessment (no opportunities were identified). A list of the material impacts and risks is provided in disclosure SBM-3. These risks and opportunities are taken into account in the Company's management processes. For this reason, in 2024, a decarbonization action plan was developed. The next area to be addressed by a new policy will concern the circular economy and waste management within the TOYA Capital Group.

7.1.2. ESG governance and due diligence

TOYA Capital Group has adopted an ESG Governance Policy to implement and maintain an effective ESG management system. In order to ensure completeness and effectiveness of management, the ESG management structure is based on three levels of management:

- **SUPERVISORY LEVEL** - Comprehensive supervision over ESG management and implementation of ESG commitments / priorities.
- **MANAGEMENT LEVEL** - Strategic management of ESG and implementation of ESG commitments / priorities / reporting.
- **OPERATIONAL LEVEL** - operational activities. Implementation of individual initiatives and projects.

Responsibility for the scope of disclosures and review of the reported data lies with the Management Board of the Parent Company within the TOYA Capital Group. Employees of TOYA S.A., TOYA Romania S.A., YATO Tools (Shanghai) Co., Ltd., and YATO Tools (Jiaxing) Co., Ltd., who are responsible for specific areas within the Company, participate in the preparation of the sustainability disclosures.

The risk associated with sustainability reporting may relate to inaccurate data or errors in the calculation of quantitative indicators. Although this risk is not listed in the ESG Management Policy, measures are taken during the preparation of the TOYA Group's sustainability report to minimize it. The content of the report is reviewed by individuals responsible for each area, as well as by the person coordinating the preparation of the report. The Management Board of TOYA S.A. is also involved in this process. ESG management-related information is communicated to the Management Board of TOYA S.A. at least once a year.

The TOYA Capital Group exercises due diligence, particularly in matters related to labour practices, environmental protection, and corporate governance (including anti-corruption efforts). All of these aspects are described in the TOYA Group's Sustainability Report.

Due diligence	
Basic Elements of the Due Diligence Process	Sustainability Statement Points
Integrating Due Diligence into Corporate Governance, Strategy and Business Model	ESRS2 GOV-2, ESRS2 SBM-3,
Engage with affected stakeholders throughout all key stages of the due diligence process	ESRS2 SBM-2, S1-2, S4-2
Identification and assessment of adverse impacts	ESRS2 IRO-1, ESRS2 SBM-3
Taking action to mitigate identified adverse impacts	E1-1, E5-1, S1-1, S2-1, G1-3
Monitoring the effectiveness of these efforts and providing relevant information in this regard	E1-6, E5-4, S1-17, G1-3

7.1.3. Business model and value chain

In 2025, TOYA Group did not have a business strategy related to sustainable development. Climate change was considered the main area of activity. The Climate Strategy adopted in 2024 is presented in Chapter E1 of this TOYA Group Sustainability Report.

TOYA Capital Group sold products under 6 own brands, which meant about 14 thousand products in 23 categories.

TOYA Capital Group's own brands and the scope of the offer are:

- YATO - power tools, battery-powered, electric, petrol-powered, pneumatic and hand-held tools, as well as health and safety articles).
- VOREL - hand-held, workshop and construction tools.
- FLO - hand-held and petrol-powered garden tools and garden power tools.
- STHOR - power tools and workshop tools.
- FALA - bathroom and kitchen fittings, accessories.
- LUND - small household appliances, household products.

More information on own brands can be found in point 4.3 of the Report on the operations of the Company and the TOYA Group.

The TOYA Capital Group operates in Poland, Romania and China, offering its products to individual customers and in wholesale. Companies in China facilitate contact with manufacturers of products sold by the TOYA Capital Group. Thanks to cooperation with distributors on local markets, the TOYA Capital Group reaches customers in over 100 countries in Europe, Asia, Africa, Australia and the countries of both Americas. No goals related to sustainable development have been adopted for product groups, customer categories or geographical areas. Despite this, the TOYA Capital Group undertakes activities that are consistent with the idea of sustainable development. In the context of distributed products and the provision of services, the TOYA Capital Group offers the possibility of repairing equipment after the warranty has expired and the possibility of purchasing spare parts for selected products, which allows for continued use of the

equipment. Both professionals and DIY enthusiasts have access to information helpful in repairing equipment. In this way, the TOYA Capital Group contributes to sustainable consumption.

As of 31 December 2025, 352 people were employed in Poland, 90 in Romania, and 163 in China.

The TOYA Capital Group strictly complied in 2025 with all sanctions imposed by the European Union, Poland, and other governments on entities, persons, and goods indicated in the relevant legal acts.

The Capital Group's revenues by ESRS sectors were as follows:

Revenues by significant ESRS sectors [PLN thousand]	
Sector	Revenues
Sales and trade	907 705
Total revenues	907 705

TOYA Capital Group does not conduct business related to the fossil fuel sector, including coal, oil or gas.

TOYA Capital Group's business model and value chain are focused on inputs, outputs and benefits for stakeholders. Inputs include financial resources such as revenues, as well as assets such as the online store toya24.pl, yatogastro.pl and toya24.ro. In addition, intellectual and human capital contribute to value creation in the form of brand reputation, employee knowledge, relationships with customers and business partners. TOYA Capital Group puts customers at the centre of its activities, which in the opinion of the organization translates into specific results and benefits.

Customer benefits:

- High quality products. TOYA Capital Group supplies tools and accessories that meet international quality standards. Own brands such as YATO, VOREL or STHOR are recognizable and valued by customers from various industries.
- Wide range of products. TOYA Capital Group's portfolio includes products tailored to various customer needs. The customer can choose products tailored to various technical requirements and budgets.
- Availability and customer service. TOYA Capital Group develops its distribution channels (traditional and online) and offers professional after-sales service. The benefits for customers include quick access to products, convenient shopping, and technical and warranty support.
- Innovation. Regular introduction of new products that take into account the latest trends. The benefits for customers can be better functionality and ergonomics of tools, which increases work efficiency.

Benefits for investors:

TOYA Capital Group delivers value to its investors through:

- Stable financial results. TOYA Capital Group records regular growth in revenues and profits;
- International development. TOYA Capital Group is expanding into foreign markets in Europe, Asia and other regions;
- Cost optimization and effective resource management;

- Transparency. Regular reporting of financial results increases trust and certainty related to the way the Company is managed.

Benefits for other stakeholders:

- employees:
 - training and development of team competences,
 - stable employment.
- business partners:
 - long-term relationships with suppliers and distributors,
 - stable orders,
 - transparent terms of cooperation.
- environmental protection:
 - reducing the negative impact on the environment and promoting sustainable development.

TOYA Group value chain:

- **Research and development, including brand management** – takes place at TOYA S.A. and is carried out by the Product Development Department responsible for market analysis in terms of finding new products, analysis of design trends, conceptual work and product designs. The team also has an influence on product life cycle management.
- **Order process management** – in the TOYA Capital Group business model, the production function (outsourced to external entities, most often in Asia) is separated from the product management function and the broadly understood sales process. The purchase of goods for sale is made directly by TOYA S.A., TOYA Romania or through subsidiaries in China. The management of the purchasing process takes place in subsidiaries in China or with independent suppliers until the delivery is loaded onto a ship – from that moment on, the management of the process as well as the risk and costs related to transport are taken over by TOYA Capital Group. Customs clearance is carried out by TOYA Capital Group companies directly or through a customs agency. Deliveries are accepted at warehouses located in Poland and Romania
- **Sales process service** – sales process logistics require handling many product lines. TOYA Capital Group places emphasis on continuous improvement of logistics systems and constant modernisation of its systems. For efficient customer service, constant availability of goods for sale is also necessary. Considering that production is outsourced, most often to manufacturers operating in geographically distant locations, ensuring the availability of goods is crucial to ensuring customer satisfaction. Therefore, TOYA Capital Group considers it necessary to maintain significant warehouse stocks, which requires significant financial outlays.
- **Sales and marketing** - maintaining good sales dynamics requires constant development of the sales network, which in the TOYA Capital Group is divided into four distribution channels - wholesale market, export, retail chains, retail sales. Conducting business in many distribution channels requires adapting different sales methods to them, conducting diverse marketing, because each channel is dedicated to a different group of recipients. The TOYA Capital Group is responsible for most marketing functions, including creating a marketing strategy. Additionally, the Group manages its brands, makes decisions regarding the product range and prepares appropriate marketing materials (catalogues, banners, leaflets).
- **After-sales service** – apart from a few exceptions, the TOYA Capital Group's product range includes goods intended for longer use. This is consistent with the expectations of customers who expect the possibility of using tools for a longer period. Market practice focused on customer care requires the organization of well-functioning after-sales service in the form of, for example, the availability of spare parts, support services, ensuring technical support for tools after the warranty expires. At the same time, good functioning of the after-

sales service is not only well received by customers and potential recipients, but also builds trust in the brand and may be one of the elements of competitive advantage on the market.

Activities supporting core supply chain include:

- Investments in modern IT systems, e.g. ERP system.
- Human resources management.
- Digitalization of business processes, including customer service, digitalization of document flow, supply chain management.
- E-commerce and modern sales platforms.

7.1.4. TOYA Capital Group Stakeholders

TOYA Capital Group has established a list of key stakeholders of the organization in the process of double materiality assessment. These are:

- current employees,
- subsidiaries,
- key suppliers and business partners,
- key shareholders,
- long-term strategic customers, domestic,
- long-term strategic customers, foreign,
- banks, financial institutions,
- suppliers and business partners (smaller),
- non-strategic customers, domestic.

TOYA Capital Group provides interested parties with information on current activities, achievements and challenges. Communication - in terms of topics, communication channels, method of data presentation, place and time - is adapted to the expectations of each stakeholder group. TOYA S.A. is a listed company and fulfils its reporting and information obligations by publishing current and periodic reports on its website. Relationships with the most important stakeholder groups were verified in the process of internal assessment by representatives of key departments of the organization. The results of the verification together with conclusions were used in everyday practice to regulate and improve relations with stakeholders. TOYA Capital Group prepared, among others, a survey for the most important stakeholder groups in order to learn about their perspective on the assessment of the significance of individual issues of sustainable development of the organization. The stakeholders with whom the dialogue was conducted were selected due to their direct relations with TOYA Capital Group. The collected opinions allowed for an assessment of whether the organization takes into account the stakeholder perspective in its activities. TOYA Capital Group treats them as an expression of interest in the further development of the organization, recognizing that these observations may be important for the results achieved in the future. The summary of the double materiality assessment together with the important topics that were indicated in the survey addressed to stakeholders were accepted by the Management Board of TOYA S.A. As a result of the dialogue with stakeholders, no decision was made to change the business model or other key decisions taken.

Main channels and method of cooperation with stakeholders:

7.1.5. Material Impacts and Risks of TOYA Capital Group

TOYA Capital Group identified material impacts, risks and opportunities during the double materiality assessment.

IRO	TYPE	DESCRIPTION	Place of occurrence	
E1	Impact	Potential positive	TOYA Group can manage the risks associated with climate change (heavy rain, floods, tornadoes, windstorms, droughts) by developing business continuity plans, developing technologies that reduce the negative impact of climate change and implementing changes in operational processes and supply chains to maintain continuity of supply in order to minimize exposure to risk (this may include diversifying sources of raw materials, securing infrastructure against extreme weather conditions or investing in technologies that reduce greenhouse gas emissions)	Organization, Upstream
E1	Impact	Potential negative	Climate change may affect the availability of raw materials, supply chain stability and working conditions.	Organization, Upstream
E1	Impact	Actual negative	The organization's suppliers and other entities in the value chain emit greenhouse gases into the atmosphere while producing their services.	Upstream

IRO		TYPE	DESCRIPTION	Place of occurrence
E1	Impact	Potential positive	An organization can choose suppliers that use energy-efficient technologies, optimize logistics to reduce emissions from transportation, and invest in renewable energy sources.	Upstream
E1	Risk		Change in stakeholders' perception of the Company's activities and/or negative assessment of the Company by stakeholders	Organization
E1	Risk		Changing consumer behaviour and unpredictable market situation	Organization
E5	Impact	Actual negative	TOYA Group business partners may use various non-renewable natural resources, such as metals, minerals, water and energy, in their production processes. Excessive use of these resources can lead to their depletion and negative impact on the environment. Activities in the value chain can mitigate negative impacts but will not contribute to the creation of positive impacts.	Upstream, Downstream
E5	Impact	Potential negative	TOYA Group business partners can use various non-renewable natural resources, such as metals, minerals, water and energy, to a greater extent than they do now in their production processes. Excessive use of these resources can lead to their depletion and negative impact on the environment. Activities in the value chain can mitigate negative impacts but will not contribute to the creation of positive impacts.	Upstream, Downstream
E5	Impact	Actual negative	TOYA Group and its business partners may generate various types of waste, including solid, liquid and gaseous waste, which may be hazardous to human health and the environment. The organization should implement effective waste management systems that include segregation, recycling, recovery of raw materials and safe disposal of hazardous waste.	Organization, Upstream, Downstream
E5	Impact	Potential negative	Improper waste management can lead to air, water and soil pollution. The organization should implement effective waste management systems that include segregation, recycling, recovery of raw materials and safe disposal of hazardous waste.	Organization, Upstream, Downstream
S1	Impact	Actual positive	The TOYA Group should strive to provide competitive wages for both new and existing employees.	Organization
S1	Impact	Potential negative	TOYA Group could potentially stop striving to provide competitive wages for both new and existing employees.	Organization
S1	Impact	Potential positives	TOYA Group can strive to provide even more competitive wages for both new and existing employees.	Organization
S1	Impact	Actual positive	TOYA Group adheres to rigorous occupational health and safety standards to minimize the risk of accidents and occupational diseases. Regular training and health and safety audits are essential to maintain a high level of safety.	Organization
S1	Impact	Potential positives	TOYA Group can implement even more stringent occupational health and safety standards to minimise the risk of accidents and occupational diseases.	Organization
S1	Impact	Actual positive	The organization strives to ensure equal employment and advancement opportunities for women and men and equal pay for work of equal value. Gender equality supports diversity and justice in the workplace.	Organization
S1	Impact	Potential positives	An organization may strive to ensure equal opportunities for employment and advancement for women and men and greater equality of pay for work of equal value.	Organization
S1	Impact	Actual positive	TOYA Group offers its employees a training system, invests in their competences and development, and also offers employees attractive benefits.	Organization

IRO	TYPE	DESCRIPTION	Place of occurrence	
S1	Impact	Potential positives	TOYA Group offers its employees a training system, invests in their competences and development, and also offers employees attractive benefits	Organization
S1	Impact	Actual positive	All regulations regarding ethics, values, equality, diversity and anti-corruption are included in the Code of Ethics. It is intended to help TOYA Capital Group employees understand its commitment to the highest ethical and legal standards in business activities, facilitates proper assessment of the situation and conduct in an appropriate manner, and provides information on how to report possible violations of the rules.	Organization
S1	Impact	Potential positive	The Code of Ethics will be gradually implemented across the TOYA Group, and employees will receive training in this area. In August 2025, the document was implemented at the parent company, and employees completed training in this area.	Organization
S2	Risk		Increased contract costs resulting from rising operating costs associated with the remuneration of employees in the supply chain.	Upstream
S2	Impact	Actual positive	Regular occupational health and safety training and audits are essential to maintain a high level of safety throughout the value chain.	Upstream
S2	Impact	Actual negative	Despite training and maintaining a high level of safety, accidents can occur in the value chain.	Upstream
S2	Impact	Potential positives	TOYA Group value chain participants can implement and maintain rigorous occupational health and safety standards to minimize the risk of accidents and occupational diseases. Regular OHS training and audits are essential to maintain a high level of safety. TOYA Group can conduct audits of its business partners in this regard.	Upstream
S2	Impact	Actual negative	The TOYA Capital Group has implemented a Code of Ethics only in the parent entity.	Upstream
S2	Impact	Potential positives	All regulations regarding ethics, values, equality, diversity and anti-corruption are included in the Code of Ethics, which will be binding for all suppliers. TOYA Capital Group wants its business partners to replicate the values it professes. Each supplier is obliged to respect human rights, including ensuring fair working conditions.	Upstream
S4	Impact	Actual positive	The organization regularly analyses new requirements for product labelling. All products meet legislative requirements, have full labelling, including contact information for consumers. Each product is equipped with a detailed safety data sheet, some of them - where necessary - with instructions for use, which increases transparency and safety of use. Distributors in individual countries are responsible for labelling in local markets.	Organization, Downstream
S4	Impact	Potential positives	TOYA Capital Group can increase transparency and safety of use. Distributors in individual countries are responsible for labelling in local markets.	Organization, Downstream
S4	Impact	Actual both negative and positive	The quality and safety of each product are analysed. There is a dedicated channel for reporting irregularities and ensuring consumer safety. Regular safety tests and compliance with standards are key to protecting users. Despite this, there are situations in which TOYA Capital Group has withdrawn a product from the market due to concerns about the safety of the product.	Organization, Downstream
S4	Impact	Potential positives	Regular security testing and compliance are key to protecting users in the future.	Organization, Downstream
S4	Impact	Actual positive	The organization regularly analyses new regulations in the field of marketing practices. Internal quality control and information about products in the framework of marketing activities are carried out. TOYA	Organization, Downstream

IRO	TYPE	DESCRIPTION	Place of occurrence
		Capital Group avoids misleading advertisements and ensures that all marketing information is accurate and reliable.	
S4	Impact	Potential positives	Responsible marketing practices build customer trust and loyalty.
			Organization, Downstream
G1	Impact	Actual positive	The TOYA Group applies corporate governance principles that aim to ensure transparency, integrity and responsibility in the way it conducts business.
			Organization
G1	Impact	Potential positives	TOYA Group may apply corporate governance principles that are intended to ensure greater transparency, honesty and responsibility in the way it conducts business.
			Organization
G1	Impact	Actual positive	The organization has implemented a system and procedures defining how to report irregularities. There is a dedicated channel that allows stakeholders to anonymously report irregularities and guarantees no retaliatory actions. Until September 2024, the issue was directed internally to the organization, and since the entry into force of the Act on Whistleblowers, the channels have also been made available externally. Reports are possible in the categories specified in the Act. Training for employees has been held. Suppliers and recipients have access to the procedure for whistleblowers, which is on the TOYA Group website.
			Organization, Upstream, Downstream
G1	Impact	Potential positives	TOYA Group may expand the system to include other categories of reports and promote it among its stakeholders.
			Organization, Upstream, Downstream
G1	Impact	Actual both negative and positive	The organization does not have a separate code defining relations and conduct with suppliers in the context of business relations and issues related to sustainable development, including payment terms. Payment terms for contractors are set individually depending on the business relationship.
			Organization, Upstream,
G1	Impact	Actual positive	The organisation has standard anti-corruption training.
			Organization
G1	Impact	Potential positives	TOYA Group should implement anti-corruption policies, procedures to prevent and detect corruption, and regular training for employees on ethics and compliance. The Company should also conduct internal audits and monitor its operations to minimize the risk of corruption. Prevention and detection of corruption is essential to maintaining the Company's integrity and reputation.
			Organization

TOYA Group does not report specific impacts that do not result from the ESRS standard.

TOYA Capital Group has identified significant risks in the long term. Therefore, it does not bear current financial consequences, and actions to mitigate the indicated risks do not have to be immediate. In the long term, the identified risks may contribute to a decrease in revenues of between 8% to 16%. Therefore, in Chapter E1, TOYA Group has described the steps taken to manage these risks and limit their impact on the functioning of the organization in the long term.

7.1.6. Double materiality assessment process

The double materiality assessment was performed in accordance with the guidelines described in the ESRS standards and additional EFRAG publications in this area. The aim of the double materiality assessment was to create a list of material topics for the TOYA Group. The TOYA Capital Group consists of 4 companies:

- TOYA S.A. – Parent Company,
- TOYA ROMANIA S.A.,
- YATO Tools (Shanghai) Co., Ltd.,
- YATO Tools (Jiaxing) Co., Ltd.

Due to the size and scale of the operations of the companies in China and Romania, and their dependence on the parent company, TOYA S.A., issues of impacts, risks and opportunities were analysed jointly for the entire TOYA Group, which operates in the ESRS sector “Retail and Wholesale” within the macro-sector “Retail and Wholesale”.

The following disclosure requirements were considered in the materiality assessment process:

- ESRS 1 chapter 3 - Description of the double materiality assessment principle, definitions and parameters of impact materiality and financial materiality and the relationship between them.
- ESRS 1 AR 16 - AR 16 contains a three-level list of issues that should be subject to materiality testing
- ESRS 2 SBM-2 - Requirement specifying how stakeholders were considered in the materiality testing.
- ESRS 2 IRO-1 - Requirements specifying what information about the materiality testing process should be disclosed in the report.

The process included a series of analyses and discussions, including two workshops. A benchmarking analysis of entities with a similar business profile was also carried out (in 2024), a value chain analysis (conducted in 2023), a stakeholder materiality assessment (in December 2024), and interviews with internal stakeholders (conducted in 2023). The process was conducted with an external advisor and lasted from November 2024 to February 2025. The process used materials and analyses prepared in previous years, which remained relevant at the time of the double materiality assessment.

For the purposes of the double materiality process, the communication channels with key stakeholders and the methods of stakeholder engagement were discussed. A prepared survey was sent to the identified key stakeholders in Polish or English. The survey allowed for an assessment of which topics, subtopics and sub-subtopics in ESRS 1 AR 16 are material from the stakeholders’ perspective (what type of impact occurs and what its severity is). The survey also included an open-ended question, allowing stakeholders to comment on any additional topic relevant to them. The survey was conducted from 9 to 20 December 2024. During this period, a total of 158 responses were collected. The stakeholder assessment was taken into account in determining the materiality of the identified topics.

In accordance with the ESRS methodology, an assessment was carried out from both the impact materiality perspective and the financial materiality perspective of the activities conducted in Poland, Romania and China.

Within the impact materiality assessment, all impact criteria were considered (positive and negative, actual and potential), as well as the scale used to determine the magnitude of a given impact (scale, scope, reversibility or irreversibility of the impact). A scale from 1 to 5 was used, where 1 is the lowest score and 5 is the highest score.

Within the financial materiality assessment, risks and opportunities were identified, including dependence on natural and social resources. A scale defining the potential magnitude of the financial impact on the TOYA Capital Group and the probability of occurrence was used for the assessment. On the applied scale, 1 means low impact/scope, and 5 means very high impact/wide scope.

As a result of the workshops, a list of risks was developed and assigned appropriate ratings within the financial materiality assessment scale, which enabled the identification of material topics from the financial perspective. None of the identified impacts and risks were assessed as more significant than the others. Climate risks (changes in stakeholders' perception of the Company's activities and/or negative assessment of the Company by stakeholders; changes in consumer behaviour and unpredictability of market conditions) are related to climate impact in the form of greenhouse gas emissions contributing to climate change.

A member of the Management Board of TOYA S.A. participated in the double materiality assessment process, and the entire Management Board of the Parent Company was familiar with the results of the process, including the description of identified impacts and risks.

In accordance with the TOYA Capital Group Risk Management Policy, identified risks are categorised in the main risk register, divided into main risk types considered by the Risk Committee as key from the perspective of TOYA's operations (e.g. regulatory risks, financial risks, legal risks, climate-related risks, etc.) and other risks. All risks are reviewed at least once a year in terms of the probability of materialisation and their impact on the Company.

In the TOYA Group's 2025 Sustainability Report, the TOYA Capital Group discloses information resulting from the double materiality assessment and identifies specific material topics. The report presents policies aimed at managing material impacts and risks. The presented metrics are used to assess the effectiveness of this management. Thus, it presents the information required by the ESRS standard.

The table below includes all ESRS disclosures. In the case of non-material disclosures, information about this fact replaces the page number.

Disclosure number	Point
ESRS 2 - General Disclosures, including information provided under the ESRS Thematic Application Requirements listed in ESRS 2, Appendix C	
BP-1 – General basis for making sustainability statements	7.1
BP-2 – Disclosure in relation to specific circumstances	7.1
GOV-1 – The role of administrative, management and supervisory bodies	7.1.1
GOV-2 – Information provided to the administrative, management and supervisory bodies of the entity and the issues related to sustainable development undertaken by them	7.1.1
GOV-3 – Integration of sustainability-related performance in incentive schemes	8.8
GOV-4 – Due Diligence Statement	7.1.2
GOV-5 – Risk management and internal controls over sustainability reporting	7.1.2
SBM-1 – Strategy, business model and value chain	7.1.3
SBM-2 – Interests and opinions of interested parties	7.1.4
SBM-3 – Material impacts, risks and opportunities, and their interaction with strategy and business model	7.1.5
IRO-1 – Description of the processes to identify and assess material impacts, risks and opportunities	7.1.6
IRO-2 – Disclosure requirements in the ESRS covered by the undertaking's sustainability statement	7.1.6
ESRS E1 – Climate Change	

Disclosure number	Point
E1-1 – Climate Change Mitigation Transition Plan	7.2.2
ESRS 2 SBM-3 – Material impacts, risks and opportunities and their interrelationships with the strategy and the business model	7.2.2
E1-2 – Climate change mitigation and adaptation policies	7.2.3
E1-3 – Actions and resources in relation to climate policy	7.2.4
E1-4 – Targets related to climate change mitigation and adaptation	7.2.4
E1-5 – Energy consumption and mix	Irrelevant
E1-6 – Gross scope 1, 2, 3 and total GHG emissions	7.2.5 Information regarding Scope 3 GHG emissions and total GHG emissions was omitted in the first three years of reporting.
E1-7 – GHG removals and GHG mitigation projects financed through carbon credits	Irrelevant
E1-8 – Carbon pricing internally	Irrelevant
E1-9 – Anticipated financial effects from material physical and transition risks and potential climate-related opportunities	Omitted in first three years of reporting
ESRS E2 – Pollution	
ESRS2 IRO-1 - Disclosure requirement related to ESRS 2 IRO-1 – Description of the processes to identify and assess material pollution-related impacts, risks and opportunities	Irrelevant
E2-1 – Policies related to pollution	Irrelevant
E2-2 – Pollution Actions and Resources	Irrelevant
E2-3 – Pollution targets	Irrelevant
E2-4 – Pollution of air, water and soil	Irrelevant
E2-5 – Substances of concern and substances of very high concern	Irrelevant
E2-6 – Anticipated financial effects from pollution-related impacts, risks and opportunities	Irrelevant
ESRS E3 – Water and marine resources	
ESRS 2 IRO-1 – Description of the processes to identify and assess material impacts, risks and opportunities related to water and marine resources	Irrelevant
E3-1 – Policies related to water and marine resources	Irrelevant
E3-2 – Activities and resources related to water and marine resources policies	Irrelevant
E3-3 – Water and marine resources objectives	Irrelevant
E3-4 – Water consumption	Irrelevant
E3-5 – Anticipated financial effects of risks and opportunities related to water and marine resources	Irrelevant
ESRS E4 – Biodiversity and ecosystems	
E4-1 – Biodiversity and ecosystems transition plan and integrating biodiversity and ecosystems into strategy and business model	Irrelevant

Disclosure number	Point
ESRS 2 SBM-3 – Material impacts, risks and opportunities and their interrelationships with the strategy and the business model	Irrelevant

7.2. ENVIRONMENTAL INFORMATION

7.2.1. Taxonomy

The TOYA Group for 2025 did not decide to apply the simplifications set out in Commission Delegated Regulation (EU) 2026/73 of 4 July 2025 amending Delegated Regulation (EU) 2021/2178 with regard to the simplification of the content and presentation of disclosures on environmentally sustainable economic activities, and Delegated Regulations (EU) 2021/2139 and (EU) 2023/2486 with regard to the simplification of certain technical screening criteria used to determine whether an economic activity does not significantly harm environmental objectives (OJ EU L 2026, No. 73).

Below, in accordance with Article 8 of EU Regulation 2020/852 (the Taxonomy Regulation), information is presented on how and to what extent the activities of the TOYA Capital Group are associated with economic activities that qualify as environmentally sustainable (taxonomy-aligned activities). The key performance indicators have been prepared in accordance with the requirements set out in Commission Delegated Regulation (EU) 2021/2139 of 4 June 2021 (the Delegated Act establishing technical screening criteria), as updated by Commission Delegated Regulation (EU) 2023/2485 of 27 June 2023 and Commission Delegated Regulation (EU) 2023/2486 of 27 June 2023, supplementing Regulation (EU) 2020/852 and amending Delegated Regulation (EU) 2021/2178, to the best of the Group's knowledge and with due diligence.

The assessment of the alignment of economic activities with the Taxonomy, within individual key performance indicators, was carried out based on the technical screening criteria set out in Delegated Acts (EU) 2021/2139 and 2022/1214.

Minimum guarantees

TOYA Capital Group meets the minimum safeguards referred to in Article 18 of EU Regulation 2020/852.

The assessment of compliance with the Minimum Safeguards in the TOYA Capital Group was carried out based on the recommendations from the *Final Report on Minimum Safeguards by Platform On Sustainable Finance* published in October 2022, which indicates that failure to comply with the Minimum Safeguards is the occurrence of at least one of two conditions within four areas of activity:

- Human Rights
- Corruption
- Taxes
- Fair Competition

Disclosures for Nuclear and Natural Gas Activities

Disclosure in accordance with the guidelines of Annex III of Commission Delegated Regulation (EU) 2022/1214, supplementing Commission Delegated Regulation (EU) 2021/2178 with Annex XII regarding the templates for the disclosure of information referred to in Article 8(6) and (7).

Turnover

Template 1 Nuclear and natural gas activities		
Row	Nuclear Energy Activities	
1.	The Company conducts research, development, demonstration and deployment of innovative electricity generation facilities that generate energy from nuclear processes with minimal waste from the fuel cycle, or finances or has exposure to such activities.	NO
2.	The Company builds, finances or has exposure to new nuclear facilities for the generation of electricity or process heat, including for district heating or industrial processes such as hydrogen production, as well as their safety modernization, using best available technologies.	NO
3.	The Company operates, finances or has exposure to the safe operation of existing nuclear facilities that generate electricity or process heat, including for district heating or industrial processes such as hydrogen production from nuclear energy, as well as their safety upgrades.	NO
Natural Gas Activities		
4.	The Company constructs or operates an installation for the generation of electricity using gaseous fossil fuels, finances such activity, or has exposure to such activity.	NO
5.	The Company builds, modernises and operates installations for the combined production of heat/cooling and electricity using gaseous fossil fuels, finances this activity or has exposure to it.	NO
6.	The Company builds, modernises and operates heat generation installations that generate heating/cooling energy using gaseous fossil fuels, finances this activity or has exposure to it.	NO

Template 2 Economic activity according to the taxonomy (denominator)							
Row	Types of business activities	Amount and share (information should be presented in monetary amounts and percentages)					
		CCM + CCA		Climate Change Mitigation (CCM)		Adaptation to Climate Change (CCA)	
		Amount (PLN thousand)	%	Amount (PLN thousand)	%	Amount (PLN thousand)	%
1.	Amount and share of economic activities in line with the taxonomy referred to in Section 4.26 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%
2.	Amount and share of economic activities in line with the taxonomy referred to in Section 4.27 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%
3.	Amount and share of economic activities in line with the taxonomy referred to in Section 4.28 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%

4.	Amount and share of economic activities in line with the taxonomy referred to in Section 4.29 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%
5.	Amount and share of economic activities in line with the taxonomy referred to in Section 4.30 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%
6.	Amount and share of economic activities in line with the taxonomy referred to in Section 4.31 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%
7.	Amount and share of other economic activities consistent with the taxonomy not included in rows 1–6 above in the denominator of the applicable KPI	0	0%	0	0%	0	0%
8.	Total applicable KPI	0	0	0	0	0	0

Template 3 Economic activity according to the taxonomy (numerator)

2.	Amount and share of economic activities eligible for the taxonomy but not compliant with the taxonomy referred to in Section 4.27 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%
3.	Amount and share of economic activities eligible for the taxonomy but not compliant with the taxonomy referred to in Section 4.28 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%
4.	Amount and share of economic activities eligible for the taxonomy but not compliant with the taxonomy referred to in Section 4.29 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%
5.	Amount and share of economic activities eligible for the taxonomy but not compliant with the taxonomy referred to in Section 4.30 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%
6.	Amount and share of economic activities eligible for the taxonomy but not compliant with the taxonomy referred to in Section 4.31 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%	0	0%	0	0%
7.	Amount and share of other economic activities eligible but not compliant with the taxonomy not included in rows 1–6 above in the denominator of the applicable KPI	0	0	0	0%	0	0%
8.	Total amount and total share of taxonomically eligible but non-taxonomically compliant economic activities in the denominator of the applicable KPI	0	0	0	0%	0	0%

Template 5. Economic activity not eligible for taxonomy			
Row	Types of business activities	Amount (PLN thousand)	%
1.	Amount and share of economic activities not qualifying for the taxonomy referred to in Section 4.26 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%
2.	Amount and share of economic activities not qualifying for the taxonomy referred to in Section 4.27 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%
3.	Amount and share of economic activities not qualifying for the taxonomy referred to in Section 4.28 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%
4.	Amount and share of economic activities not qualifying for the taxonomy referred to in Section 4.29 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%
5.	Amount and share of economic activities not qualifying for the taxonomy referred to in Section 4.30 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%
6.	Amount and share of economic activities not qualifying for the taxonomy referred to in Section 4.31 of Annexes I and II to Delegated Regulation (EU) 2021/2139 in the denominator of the applicable KPI	0	0%
7.	Amount and share of other economic activities not eligible for the taxonomy not included in rows 1-6 above in the denominator of the applicable KPI	907 705.5	100%
8.	Total amount and total share of economic activities not eligible for taxonomy in the denominator of the applicable KPI	907 705.5	100%

Accounting principles

The basis for calculating the key performance indicator for Turnover (Turnover KPI) was the consolidated financial statements of the TOYA Capital Group for 2025 prepared in accordance with International Reporting Standards (IFRS). The denominator of the indicator was net sales revenues from the above-mentioned statement.

Information on assessing compliance with Regulation (EU) 2020/852

The individual categories of revenues of the TOYA Capital Group were analysed in terms of their eligibility for the taxonomy. This process included an analysis of the activities eligible for the taxonomy defined in EU Regulation 2021/2139 and EU Regulation 2022/1214 in order to confirm whether the activities conducted by the TOYA Capital Group were listed in the aforementioned regulations.

As a result of the analysis, no revenues from activities eligible for the taxonomy were identified.

Contribution to multiple objectives, disaggregation of KPIs

Not applicable. Within the TOYA Capital Group revenues for 2025, no revenues related to environmentally sustainable activities (in line with the taxonomy) were identified.

Contextual information

Not applicable. Within the TOYA Capital Group revenues for 2025, no revenues related to environmentally sustainable activities (in line with the taxonomy) were identified.

8.	Total amount and total share of economic activities not eligible for taxonomy in the denominator of the applicable KPI	7 687.5	65%

Accounting principles

The basis for calculating the Capital Expenditure (CapEx) Key Performance Indicator (KPI) was capital expenditure recognized in the consolidated financial statements in accordance with the applicable International Financial Reporting Standards (IFRS). The denominator of the CapEx KPI includes expenditures accounted for under:

- a. IAS 16 Property, Plant and Equipment, paragraph 73(e)(i) and (iii);
- b. IAS 38 Intangible Assets, paragraph 118(e)(i);
- c. IAS 40 Investment Property, paragraph 76(a) and (b) (under the fair value model);

- d. IAS 40 Investment Property, paragraph 79(d)(i) and (ii) (under the cost model);
- e. IAS 41 Agriculture, paragraph 50(b) and (e);
- f. IFRS 16 Leases, paragraph 53(h).

Information on the Assessment of Compliance with Regulation (EU) 2020/852

The individual categories of capital expenditure incurred by the TOYA Group were assessed in accordance with the provisions of Commission Delegated Regulation (EU) 2021/2178, Annex I, Section 1.1.2.1, to determine whether they meet any of the following criteria:

- a. relate to assets or processes associated with a Taxonomy-aligned economic activity
- b. form part of a plan to expand a Taxonomy-aligned economic activity or to enable a Taxonomy-eligible economic activity to become Taxonomy-aligned (a “CapEx plan”), in accordance with the conditions set out in the second subparagraph of Section 1.1.2.2;
- c. relate to the purchase of output from Taxonomy-aligned economic activities and individual measures enabling the target activity to become low-carbon or to achieve reductions in greenhouse gas emissions, in particular the activities listed in Sections 7.3–7.6 of Annex I to the Climate Delegated Act, as well as other economic activities specified in delegated acts adopted pursuant to Articles 10(3), 11(3), 12(2), 13(2), 14(2) or 15(2) of Regulation (EU) 2020/852, provided that such measures are implemented and become operational within 18 months.

As a result of the assessment, capital expenditures were identified that relate to products purchased from two Taxonomy-eligible economic activities and that enable the target activity to become low-carbon:

- 7.2 – Renovation of existing buildings
- 7.4 – Installation, maintenance and repair of electric vehicle charging stations in buildings (and parking facilities associated with buildings)

No capital expenditures were identified as being directly associated with Taxonomy-aligned activities (criterion a above). Furthermore, no expenditures were identified that meet the conditions set out under criteria b or c above.

Contribution to multiple objectives, disaggregation of KPIs

Not applicable. Within the TOYA Capital Group revenues for 2025, no revenues related to environmentally sustainable activities (in line with the taxonomy) were identified.

Contextual information

Not applicable. Within the TOYA Capital Group revenues for 2025, no revenues related to environmentally sustainable activities (in line with the taxonomy) were identified.

Accounting principles

The basis for calculating Opex KPI in accordance with the provisions of Annex 1 to Regulation 2021/2178 was the separation from the TOYA Capital Group's general costs of direct, non-capitalized expenses, based on the consolidated financial statements of the TOYA Capital Group for the year ended on 31 December 2025, related to:

- activities related to the renovation of buildings,
- maintenance and repairs, and
- any other direct expenses related to the ongoing maintenance of property, plant and equipment by the Company or a third party to which the activities necessary to ensure the continuous and effective functioning of these assets were outsourced

Information on assessing compliance with Regulation (EU) 2020/852

The individual categories of TOYA Capital Group's operating expenses were analysed in accordance with the provisions of EU Regulation 2021/2178, in order to determine whether they meet one of the following conditions:

- a. they relate to assets or processes related to the economic activity compliant with the taxonomy, including training and other needs related to the adaptation of human resources and direct non-capitalized costs representing research and development
- b. they are part of a plan to expand the economic activity compliant with the taxonomy or to enable the economic activity qualifying for the taxonomy to adapt to the taxonomy ("capital expenditure plan") in accordance with the conditions set out in the second paragraph of this point 1.1.2.2;
- c. relate to the purchase of products from economic activities in line with the taxonomy and individual measures enabling the targeted activity to become low-emission or enabling it to reduce greenhouse gas emissions, in particular the activities listed in points 7.3 to 7.6 of Annex I to the Delegated Act on Climate, as well as other economic activities listed in delegated acts adopted pursuant to Article 10(3), Article 11(3), Article 12(2), Article 13(2), Article 14(2) or Article 15(2) of Regulation (EU) 2020/852, and provided that those measures are implemented and operational within 18 months.

As a result of the analysis, no operational expenditure meeting at least one of the above criteria has been identified.

Contribution to multiple objectives, disaggregation of KPIs

Not applicable. As part of the TOYA Capital Group's operating expenses for 2025, no expenses related to environmentally sustainable activities (in line with the taxonomy) were identified.

Contextual information

Not applicable. As part of the TOYA Capital Group's operating expenses for 2025, no expenses related to environmentally sustainable activities (in line with the taxonomy) were identified.

7.2.2. ESRS E1 Climate change

During the double materiality assessment, TOYA Capital Group diagnosed as a material actual negative impact that suppliers and other entities in the value chain (upstream) produce their products and services emit greenhouse gases. On the other hand, TOYA Capital Group can select suppliers using energy-efficient technologies, optimize logistics to reduce emissions from transport and invest in renewable energy sources, which potentially has a positive impact on climate change within the organization and in the upper range of the value chain (upstream).

In the long term (2041-2050), two risks were identified for TOYA Capital Group (both are transition risks):

- 1) Change in the perception of TOYA Capital Group's activities by stakeholders or negative assessment by stakeholders;
- 2) Change in consumer behaviour and unpredictability of the market situation.

TOYA Capital Group analysed its activities in the context of sustainable development, taking into account environmental, social and corporate governance aspects. The analysis concerned the organisation's own activities taking into account the impact of suppliers on TOYA Capital Group. It was conducted in conjunction with the double materiality assessment process. As a result of this analysis, TOYA Capital Group is aware of climate change and the challenges it poses in terms of ensuring the resilience of its business model. Therefore, a climate strategy was developed. At the same time, as a distributor, TOYA Group has limited influence on the activities of its suppliers and can change them depending on its needs and goals.

The significant potential and actual impact and significant risks were diagnosed in the double materiality assessment process. It included an assessment of the value chain, stakeholder opinions and an analysis of the regulatory context, ESG ratings and comparative analysis. An own assessment of both the materiality of the impact and the financial materiality was also made, using the scoring criteria developed based on the ESRs. The analysis of risks and opportunities related to climate change was divided into three main categories based on their location in the value chain: upstream, organisation, downstream. Risks were identified in three time perspectives - short-term, medium-term and long-term and according to two SSP scenarios:

- RCP 4.5 – a scenario assuming the introduction of new technologies to achieve a higher than current reduction in greenhouse gas emissions. This means an increase in the average temperature of the Earth by 2.5°C compared to the pre-industrial era.
- RCP 8.5 – a scenario assuming the current rate of growth of greenhouse gas emissions. This means an increase in the average temperature of the Earth by 4.5°C compared to the pre-industrial era".

Carbon footprint calculations were also performed in Scope 1 and 2, which allowed for the identification of their source. A methodology was also developed to calculate Scope 3. This activity aims to understand how TOYA Capital Group contributes to negative actual impacts within the value chain, as well as how it may materialize its potential positive impact in the future. Any increase in greenhouse gas emissions may result from business development.

TOYA Capital Group has not identified any physical risks. The scenario analysis showed that the two transition risks mentioned above occur in the RCP 8.5 scenario. Assets and business activities may be significantly exposed to these risks if mitigation measures are not taken in the long term.

7.2.3. Climate change mitigation and adaptation policies

TOYA Capital Group adopted a document stating that Scope 1 and Scope 2 greenhouse gas emissions in 2023 amounted to 1,581.78 t CO₂e, calculated using the market-based method. The next step in the decarbonization process will be the inclusion of Scope 3 emissions. To date, efforts have focused on direct emissions (Scope 1) and indirect emissions associated with purchased energy (Scope 2). In the coming years, the Group plans to estimate Scope 3 emissions in accordance with the developed Scope 3 calculation methodology, covering all other indirect emissions across the value chain. The current target is not aligned with the Paris Agreement objective of limiting global warming to 1.5°C.

Decarbonization levers have been identified, including the modernization of building infrastructure to improve energy efficiency and the continued purchase of guarantees of origin for electricity generated from renewable energy sources (RES). In the case of operations in Poland, guarantees of origin are expected to cover 100% of electricity consumption, and their purchase requires the allocation of appropriate financial resources. Any locked-in greenhouse gas emissions are not associated with the actions currently undertaken or planned by the Group.

The implementation of these measures is incorporated into the financial and operational planning of TOYA Capital Group. The organization is capable of reducing its climate impact and adapting to ongoing climate change, as approved by the Management Board of TOYA S.A.

In 2025, TOYA Capital Group did not have any policies in place regarding climate change mitigation or adaptation, except for the climate strategy described above. The objective of this strategy is to mitigate climate change through the reduction of greenhouse gas emissions within Scopes 1 and 2 and through the use of renewable energy sources. The transition to renewable energy may contribute to greater energy price stability, thereby protecting the organization against sudden fluctuations in energy prices that may result from climate-related factors. The current decarbonization action plan focuses exclusively on measures implemented within the organization and has been approved by the Management Board of TOYA S.A.

Climate-related matters are not reflected in the remuneration of members of the Supervisory Board or the Management Board of TOYA S.A., nor in the remuneration policies of other companies within TOYA Capital Group.

7.2.4. Climate change actions and targets

In 2025, apart from the inventory of Scope 1 and Scope 2 greenhouse gas emissions, TOYA Capital Group did not undertake any other activities related to its climate strategy or adaptation to climate change. In 2026, the following actions are planned:

- preparation of a greenhouse gas emissions inventory, including improvements to the system for monitoring energy and utility consumption at individual locations;
- review and analysis of potential climate change mitigation and adaptation measures, including the performance of a climate-related risks and opportunities assessment in line with the TCFD recommendations;
- identification of areas with the highest energy consumption and assessment of opportunities to improve energy efficiency and reduce greenhouse gas emissions.

As part of its activities, the organization purchases guarantees of origin for electricity and plans to improve energy efficiency. These measures are intended to contribute to achieving zero emissions within Scope 2 of the carbon footprint. Stakeholders of TOYA Capital Group were not directly involved in setting this target. However, their views regarding the organization's impact on climate change were taken into consideration.

TOYA Capital Group does not incur any significant capital expenditures (CapEx) or operating expenditures (OpEx) related to climate change matters. In 2025, CapEx related to infrastructure supporting the renovation of existing buildings, the installation, maintenance and repair of electric vehicle charging stations in buildings (and associated parking facilities), and building renovation amounted to PLN 7,687.5 thousand, while OpEx amounted to PLN 0, as further described in the Taxonomy disclosures.

TOYA Capital Group has not established climate change mitigation and adaptation targets based on conclusive scientific evidence. At present, apart from the activities planned for 2026, the organization does not monitor the effectiveness of its climate strategy.

7.2.5. Greenhouse gas emissions

TOYA Capital Group greenhouse gas emissions (tCO₂e)

	2025	2024
Scope 1	1185.94	1620.66
Scope 2		
Location-based method	1257.14	1374.34
Market-based method	575.96	802.29
Total emission (location based)	2443.08	2994.99
Total emission (market-based)	1761.89	2422.94

The table presented below includes data for 2025 and 2024 solely for comparative purposes. Under the adopted methodology, the reporting period covers the period from 1 January 2025 to 31 December 2025.

The Company revised its carbon footprint calculation methodology and, in order to ensure comparability with 2025 data, the 2024 figures have been restated.

TOYA Capital Group has no Scope 1 or Scope 2 emissions covered by a regulated emissions trading scheme.

Scope 1 and Scope 2 greenhouse gas emissions were calculated in accordance with the GHG Protocol. The results are reported in carbon dioxide equivalent (CO₂e), which includes the following greenhouse gases: CO₂, CH₄, N₂O, HFCs, PFCs, SF₆ and NF₃. [(E1-6) AR39b] The calculations were performed for each company within TOYA Capital Group, and the results were consolidated using the operational control approach. Emissions associated with the generation of consumed electricity were calculated using two methods: the market-based approach (electricity-related emissions calculated using the emission factor of the electricity supplier) and the location-based approach (electricity-related emissions calculated using average national grid emission factors). For Poland and Romania, the sources of emission factors were as follows: under the market-based approach, emission factors from the European Residual Mixes 2024 were used; under the location-based approach, emission factors published by KOBIZE were applied for Poland and factors published by ANRE were applied for Romania. For emissions resulting from fuel combustion, emission factors from DEFRA 2025 (Department for Environment, Food and Rural Affairs, UK Government, *Greenhouse Gas Reporting: Conversion Factors 2025*) were used. For China, the source of emission factors for electricity under both the location-based and market-based approaches was the International Energy Agency (IEA) report *Electricity 2025*. TOYA Capital Group uses guarantees of origin to reduce its carbon footprint calculated under the market-based method; this relates to 1,567.2 MWh of electricity consumed. Data relating to natural gas and electricity consumption (Scope 1 and Scope 2) are collected by the Facility Maintenance Coordinator within the Technical Department, who has access to smart meters and is responsible for processing utility invoices. The data are verified in cooperation with the Finance and Accounting Department through reconciliation with invoice information. Responsibility for data collection and processing is assigned as follows: the Fleet Manager collects vehicle-related data and prepares relevant reports; the Finance and Accounting Department prepares invoice summaries and reports from the accounting system; the Facility Maintenance Coordinator retrieves data from smart meters and invoices and prepares quantitative utility consumption data by location; and the Environmental Coordinator verifies the data and calculates the carbon footprint. The data are stored in password-protected Excel files with regular backups, while accounting data are maintained in operational systems with restricted access. Access is granted only to personnel responsible for data collection and processing. TOYA Capital Group has not identified any biogenic CO₂ emissions resulting from the combustion or biodegradation of biomass in its operations.

As the average number of employees did not exceed 750 as of the balance sheet date, TOYA Capital Group does not disclose information on Scope 3 greenhouse gas emissions during the first three years of preparing its sustainability statement. At the same time, TOYA Capital Group developed a methodology for calculating Scope 3 emissions in 2024.

TOYA Capital Group greenhouse gas emission intensity (tCO₂e/PLN million)

	2025	2024
Scope 1	1.31	1.97
Scope 2 (location-based)	1.38	1.67
Scope 2 (market-based)	0.63	0.97
Total emission (location-based)	2.69	3.65
Total emission (market-based)	1.94	2.95

The net revenues of the TOYA Capital Group amounted to PLN 907 705 thousand. The amount is included in the consolidated financial statements in note 24.

7.3. ESRS E5 RESOURCE USE AND CIRCULAR ECONOMY

Material impacts, risks and opportunities related to resource use and the circular economy (CE) were identified for TOYA Group during the double materiality assessment process. Circular economy was identified as a material issue for the Group, and the organization commenced work on defining the areas and activities to be addressed in the circular economy policy. In 2025, the Group did not have classified information on resource use. This inventory will be indirectly linked to the determination of Scope 3 emissions. Initially, reporting of this indicator was planned for 2025. The Group has developed a methodology for calculating Scope 3 emissions. The Group is making use of the three-year exemption from the obligation to disclose Scope 3 emissions provided for under the applicable regulations; following the expiry of this exemption period, reporting will be carried out in accordance with regulatory requirements.

The Group does not conduct its own manufacturing activities; therefore, resource use is concentrated in the upstream segment of the value chain. However, impacts related to waste affect both the upstream and downstream segments of the value chain and, to a limited extent, the organization itself.

As part of the double materiality assessment, TOYA Group conducted a dialogue with stakeholders in order to identify its material impacts, including those related to the circular economy. No separate stakeholder consultations were conducted specifically on resource use and the circular economy. The identified impacts related to the circular economy and waste affect, indirectly, the upstream and downstream segments of the value chain and, directly, the organization itself, i.e. the four companies comprising TOYA Capital Group. The Group companies monitor the waste they generate, including by waste category. During the reporting period, no detailed analysis was conducted regarding the impacts and risks associated with maintaining the current approach to resource inputs, including resource use and waste management. As part of the double materiality assessment, TOYA Group did not identify any material risks or opportunities for itself, as a distributor, related to resource use, the circular economy, or the transition to a circular economy.

In 2025, TOYA Group did not have any internal regulations in force regarding resource use or waste management. In the Group's assessment, there had been no need to adopt such a document in previous years, which was consistent with the priorities at that time. At the same time, TOYA Group commenced work on the preparation of a circular economy policy. This work consists of analysing the structure of TOYA Capital Group in terms of its individual activities and is linked to the collection of information required for the calculation of Scope 3 emissions. The objective of the

policy will be to optimise resource use throughout the value chain, including managing the negative environmental impacts of the organization's activities and supporting the circular economy by maximising product-use efficiency and minimising waste. Oversight of the implementation of the policy will be exercised by the Management Board of the parent company of TOYA Group.

In 2025, TOYA Group did not undertake any activities related to the circular economy due to the absence of internal regulations in this area. Once the circular economy policy has been developed and implemented, future actions will be undertaken to achieve the objectives and requirements set out therein.

During the reporting period, TOYA Group did not have any targets related to resource use or the circular economy. Such targets may be established following the adoption of the circular economy policy. At present, the companies within TOYA Group maintain waste records.

7.3.1. Resources introduced by TOYA Capital Group

Packaging material usage (in kg) in warehouses	2025	2024
Non-renewable materials made of plastics	65 444.79	64 293.52
Stretch foil	47 071.52	47 709.70
Bubble wrap	1 343.44	2 130.16
Foil sheets	4 693.90	4 225.86
Tapes	7 310.67	6 413.22
Foil-pack	5 018.06	3 814.58
Courier rebate	7.20	0.00
Renewable materials made of wood or paper	335 250.04	556 576.00
Pallets	276 645.00	506 496.00
Cartons	43 438.79	33 582.79
Angles	9 316.65	8 133.09
Labels	2 392.31	2 897.65
Replacement packaging	141.64	1 059.34
Paper envelopes	3 315.65	4 406.80

Weight of packaging introduced to the market - excluding packaging in warehouses (in kg)	2025	2024
Plastic packaging	310 949.22	411 208.00
Paper and cardboard packaging	1 685 988.96	2 129 470.00
Wooden packaging	75 412.00	148 253.00

Weight of equipment, products and batteries introduced to the market (in kg)	2025	2024
Electrical and electronic equipment		
Temperature Exchange Equipment B2B	442 738	553 093
Lamps B2C	45 382	32 019
Large Equipment with any external dimension exceeding 50 cm B2C	750 656	860 075

Small Equipment with no external dimension exceeding 50 cm B2C	1 897 564	2 369 385
Small Equipment with no external dimension exceeding 50 cm B2B	63 329	32 963
Products introduced to the market		
Lubricating oils	7 503	10 007
New pneumatic rubber tyres of a kind used for agricultural machinery and other new pneumatic rubber tyres	19 027	12 125
Mass of batteries introduced to the market		
Portable Alkaline (Zinc-Manganese) Batteries (LR)	2 846,43	1 683.07
Portable Zinc-Carbon (R) Batteries	2 396.24	2 859.50
Portable Button Batteries: Lithium, Silver (Mercury Free)	325.01	397.20
Portable Lithium-Ion (Li - Ion) Batteries	119 781.96	127 612.66
Portable Lithium-Polymer (Li - Po) Batteries	1024.87	226.26
Portable Silver Oxide (Ag2O) Batteries	0.00	53.10
Portable Nickel-Metal Hydride (NiMH) Batteries	18.00	183.15
Portable lead-acid batteries (Pb)	3 999.79	0.00

2025		
	Weight (kg)	Share in all packages
Biological materials used to provide services	2 096 651	85%
Reused or recycled components, products and materials	The organization has no information about recycled materials	

2024		
	Weight (kg)	Share in all packages
Biological materials used to provide services	2 497 560	87%
Reused or recycled components, products and materials	The organization has no information about recycled materials	

Data on the entered resources come from internal IT systems in TOYA Capital Group companies. This data is consistent with information reported under the obligations arising from extended producer responsibility.

7.3.2. Waste generated by TOYA Capital Group

With the development of a circular economy policy, TOYA Group will align its approach with the waste hierarchy in the European Union. The hierarchy prioritizes waste prevention and preparation for reuse over recycling, other forms of waste use and disposal.

TOYA Group companies do not conduct professional waste management activities and have not set a waste target. TOYA S.A. has the status of a waste producer and conducts non-professional waste collection activities. Waste is transferred to waste management entities.

TOYA Group reports waste related to significant impacts resulting from its activities and operations. The total amount of waste generated from its own operations in 2025 amounted to 242,2425 Mg.

2025				
Amount of waste avoided from disposal in Mg:				
	Preparation for reuse	Recycling	Other recovery processes	Total amount of waste
Hazardous waste	0	1.9965	0	1.9965
Non-hazardous waste	0	239.864	0.382	240.246
Total	0	241.8605	0.382	242.2425
Amount of waste sent for disposal in Mg:				
	Combustion	Storage	Other disposal processes	Total amount of waste
Hazardous waste	0	0	0	0
Non-hazardous waste	0	79.588	0	79.588
Total	0	79.588	0	79.588

2024				
Amount of waste avoided from disposal in Mg:				
	Preparation for reuse	Recycling	Other recovery processes	Total amount of waste
Hazardous waste	0	1.6876	0	1.6876
Non-hazardous waste	0	185.184	10.352	195.536
Total	0	186.8716	10.352	197.2236
Amount of waste sent for disposal in Mg:				
	Combustion	Storage	Other disposal processes	Total amount of waste
Hazardous waste	0	0	0	0
Non-hazardous waste	0	47.985	0	47.985
Total	0	47.985	0	47.985

The total mass of non-recycled waste within the TOYA Group in 2025 amounted to 79.97 Mg, which constituted 33.01 % of all waste generated.

Data on waste generated by TOYA S.A. comes from internal records and from the national Waste Database. In the case of the company operating in Romania, the data comes from the local equivalent of such a database. Other companies from the TOYA Capital Group also keep internal records of generated waste.

Waste transferred to External entities dealing with waste management comes from the Company's current operations, service work and is waste accepted from consumers on the basis of national regulations on non-professional waste activities that are not subject to records. The stream of recorded waste is dominated by electronic waste, generated, among others, during service work and waste from warehouse operations. Materials found in waste include metals, plastics, paper and cardboard, as well as electrical and electronic equipment containing critical raw materials. The organization does not produce radioactive materials.

7.4. ESRS S1 OWN WORKFORCE

As part of the double materiality assessment process, TOYA Capital Group employees were engaged to assess its impact on environmental, social (including employee) and corporate governance matters. The impacts raised by employees were considered material, which is associated with further management of these impacts within the adopted business model. Employees also have the opportunity to share their concerns through channels for reporting irregularities. The organization takes into account the interests of employees and respect for human rights, which has been codified in the Code of Ethics, Human Rights Policy and the Policy of dialogue with employees of TOYA Capital Group.

The scope of information disclosure in this chapter covers all persons creating their own employee resources of TOYA Capital Group, i.e. persons employed under an employment contract, persons employed under a contract of mandate and temporary employees. The organization does not specify any group within its employee resources that could be more exposed than others to the effects of negative impact.

TOYA Capital Group conducted the double materiality assessment process and according to its results, it has an impact on its employees. In terms of appropriate pay, the organization has a real positive impact by striving to provide competitive pay for both new and existing employees. At the same time, a potential negative impact has been identified, manifesting itself in the potential cessation of providing competitive pay for employees, which would result from too high pay pressures in relation to the organization's capabilities and achieved work efficiency. On the other hand, a potentially positive impact is that the TOYA Group can strive for even more competitive pay in relation to the market. This impact may be systemic and result from the adopted business model, in which the organization buys finished products and distributes them to its customers and end users.

Another impact related to this is equal pay and equal opportunities at work. The organization has a real positive impact by striving to ensure equal employment and promotion opportunities and equal pay for work of equal value. This is confirmed by data on the pay gap and the number of women and men in management positions. As part of the double materiality assessment, a potential positive impact was also identified consisting in striving for equal pay for work of equal value.

Equal opportunities and pay are related to another identified impact that the TOYA Capital Group has on its employees. The organization offers its employees training and invests in the development of competences and also provides attractive benefits, which was considered a real positive impact. On the other hand, a potential positive impact is the possibility of developing a training system and increasing investment in the competences of its employees.

Another real positive impact is that the TOYA Capital Group, or more precisely the companies that make it up, adheres to rigorous occupational health and safety standards in order to minimize the risk of accidents and occupational diseases. Regular training and OHS audits increase the level of employee safety. A potentially positive impact on occupational health and safety issues is associated with the possibility of implementing rigorous occupational health and safety standards.

As part of the double-materiality assessment process, TOYA Capital Group has diagnosed the actual potential impact regarding measures to prevent violence and harassment in the workplace. All regulations regarding ethics, values, equality, diversity and anti-corruption are included, among others, in the Code of Ethics. It is intended to help TOYA Capital Group employees understand its commitment to the highest ethical and legal standards in business activities,

facilitates proper assessment of the situation and conduct in an appropriate manner and provides information on how to report possible violations of the rules. The potentially positive impact is related to the fact that the Code of Ethics is implemented in all group companies and employees will receive training in this area.

The above material impacts do not result from the business strategy. They are also not directly related to the business model, which consists of designing products, commissioning their production to business partners, distributing finished products and providing warranty and post-warranty service. The above impacts result from TOYA Capital Group's ambitions related to its own employee resources.

The double materiality assessment process did not identify any risks or opportunities for TOYA Capital Group. Nor were any risks or impacts identified resulting from the adopted decarbonization action plan. Similarly, no risk of forced labour or child labour was identified within the companies forming the group in Poland, Romania and China.

7.4.1. Documentation relating to employee matters

TOYA Capital Group manages significant impacts on its own employee resources in accordance with the adopted regulations, which did not change during the reporting period. They apply to all employees, and the Management Board of the Company is responsible for implementing their provisions. The internal regulations described in this chapter are available to employees on the intranet – together they also define the organization's approach to respecting human rights, including employee rights and cooperation with employees.

Impact	Regulations	Key Content
Adequate pay	<i>Work Regulations,</i> <i>Remuneration Regulations,</i> <i>Diversity Policy,</i> <i>Human Rights Policy,</i> <i>Code of Ethics</i>	The remuneration for work is established in an amount corresponding to the type of work performed, the employee's qualifications required for its performance, taking into account the quantity and quality of the work performed. The remuneration guaranteed to the employee cannot be lower than the minimum regulated in separate state regulations. Employees have the right to equal remuneration for equal work or for work of equal value. A person against whom the employer has violated the principle of equal treatment in employment has the right to compensation in an amount not lower than the minimum remuneration for work, established on the basis of separate regulations. Employees are paid adequately to the qualifications, type, quantity, quality and workload, taking into account the need to provide employees and their families with a decent standard of living.
Occupational health and safety	<i>Work Regulations,</i> <i>Diversity Policy,</i> <i>Human Rights Policy,</i> <i>Code of Ethics</i>	TOYA Capital Group is responsible for the state of occupational health and safety at the workplace and complies with the provisions and principles of occupational health and safety. The Group undertakes to protect the life and health of employees by ensuring their safe and hygienic working conditions, protecting them from accidents at work and occupational diseases. In accordance with the adopted regulations, the basic obligation of employees is to know and comply with occupational health and safety regulations. In the event that working conditions do not comply with occupational health and safety regulations and pose a direct threat to the health or life of the employee, the employee has the right to refrain from working, immediately notifying the superior. Employees are informed about occupational risks during initial training and periodic training. All employees are subject to initial training in the field of occupational health and safety and fire protection before being allowed to work. The Group also finances periodic medical examinations.

Gender equality and equal pay for work of equal value	• <i>Work Regulations,</i> • <i>Code of Ethics,</i> • <i>Diversity Policy,</i> • <i>Human Rights Policy</i>	TOYA Capital Group undertakes in the adopted regulations to counteract discrimination in employment, in particular on the grounds of gender, age, disability, race, religion, nationality, political beliefs, union membership, ethnic origin, denomination, sexual orientation, as well as employment for a specified or indefinite period or full-time or part-time. Employees have equal rights due to the equal performance of the same duties; this applies in particular to the equal treatment of men and women in employment. Discrimination is also considered to include encouraging another person to violate the principle of equal treatment and behaviour whose purpose or effect is to violate the dignity or humiliate or humiliate the employee (harassment). Discrimination on the grounds of gender also includes any unacceptable behaviour of a sexual nature or related to the employee's gender, the purpose or effect of which is to violate the dignity or humiliate or humiliate the employee. The regulations adopted in the Group clearly indicate that employees have the right to equal pay for equal work or for work of equal value. Work of equal value is work whose performance requires comparable professional qualifications from employees, confirmed by documents provided for in separate regulations or professional practice and experience, as well as comparable responsibility and effort. A person against whom the principle of equal treatment in employment has been violated has the right to compensation in an amount not lower than the minimum wage.
Training and skills development	• <i>Work Regulations,</i> • <i>Order on the financing of TOYA S.A. employee training,</i> • <i>Code of Ethics</i>	In accordance with the regulations adopted by the Group, employees have equal access to training to improve their professional qualifications, in particular regardless of gender, age, disability, race, religion, nationality, political beliefs, trade union membership, ethnic origin, denomination, sexual orientation, and regardless of employment for a fixed or indefinite period or full or part-time.

The Group ensures appropriate remedies in terms of the impact on the observance of human rights. At TOYA S.A., the Human Rights Policy will be made available to employees via the intranet. At other companies, the document will be distributed via dedicated internal communication channels. This will be done in accordance with the management principles adopted at the TOYA Group. The Group has also established channels for reporting potential human rights violations. Any comments or information can be submitted to the persons responsible for employee affairs at TOYA Group companies. Immediately upon receiving a report, they are obligated to notify the Management Board of the company where they work and the HR Director at TOYA S.A.

The Human Rights Policy covers activities in the area of protection of human rights throughout the value chain and is based on the principles defined in the Universal Declaration of Human Rights, the International Bill of Human Rights, the 10 principles of the UN Global Compact, the UN Guiding Principles on Business and Human Rights and the OECD Guidelines for Multinational Enterprises.

7.4.2. Collaboration with employees

Procedures for cooperation with persons belonging to its own employee resources, including in terms of impacts, are defined, among others, in the *Code of Ethics*. The section of the document concerning communication with employees emphasizes TOYA Capital Group's efforts to maintain communication between employees and the employer at the highest possible level. The organization strives to comply with the disclosure obligations provided for under the laws in force in the countries where the companies comprising the Group are headquartered. In line with the Code, the organization's ambition is to cooperate with employees and provide them with a platform to express their opinions. In the Group's view, dialogue and mutual respect are essential tools for achieving the best results and reaching compromise solutions satisfactory to all participants. TOYA Capital Group considers employees' ideas and initiatives to be important, covering both the business sphere (e.g. process improvements) and the non-business sphere (e.g. activities promoting integration or engagement in local communities).

In addition, TOYA S.A. has adopted the *Employee Dialogue Policy*. The document defines the alignment of employee dialogue with the international stakeholder engagement standard AA1000SES. According to the Policy, the purpose of the employee engagement process at TOYA S.A. is to ensure effective organizational management and to address matters important to employees. The regulation obliges the Company to periodically review existing employee dialogue channels and tools and to ensure their availability. The policies in question do not specify the type, frequency, or form of cooperation with persons considered part of the Group's own workforce.

Within the parent company of TOYA Capital Group, in accordance with the Employee Dialogue Policy, activities are conducted to identify key employee needs and expectations. Based on these, in the event of identifying a negative impact, the Company develops and proposes a remedial action plan. In accordance with the principles of the double materiality assessment process, no actual negative impacts were identified that would require immediate response.

TOYA Capital Group has established channels enabling employees to report irregularities, concerns, and issues. The Code of Ethics indicates that the first point of contact for employees should be their direct supervisor. Compliance-related matters should additionally be consulted with employees of the Legal and Compliance Department, while employee-related matters should be addressed to the Human Resources management unit. Employees may also use an external reporting channel indicated in the Code of Ethics. Each company within TOYA Capital Group has established and made available its own channels for receiving and analysing all reports.

Persons responsible for receiving reports are required to keep all received information (including the personal data of the reporting person) confidential. Reports may also be submitted anonymously.

Channels for reporting violations related, among others, to discrimination, harassment, and intimidation are also specified in the Diversity Policy. Reports may be submitted through the channels commonly used in the Company (in person, by phone, or by email to a supervisor, the HR Department, or the Compliance Officer, via a dedicated email inbox, or—also anonymously—through an online platform).

TOYA Capital Group has not implemented a separate grievance mechanism for employee-related matters. In practice, employee concerns are addressed by the relevant functional departments.

Employees of TOYA Capital Group are informed about the existence of whistleblowing channels via the intranet. Due to the relatively short period of operation of the channels defined in the Code of Ethics and the Diversity Policy, awareness of their existence among employees and other persons performing work for the companies is currently not assessed. However, in TOYA S.A.'s view, the channels defined in the Procedure for Reporting Irregularities and Conducting Explanatory Proceedings at TOYA S.A., in place since 2020, are widely known to its employees.

In 2025, monitoring within the whistleblowing channel related to breaches of the Code of Ethics was conducted at the parent company. In subsidiaries, this will be implemented in accordance with the governance principles of TOYA Group. In line with adopted policies, the effectiveness of the channels is assessed during regulatory reviews, including through annual reports prepared by policy owners. Information on monitoring reports concerning cases specified in the Procedure for Reporting Irregularities and Conducting Explanatory Proceedings at TOYA S.A. is described in Section 7.7 – ESRS G1.

TOYA Capital Group identified only one negative impact in the double materiality assessment process, which is also potential in nature. It concerns the possible failure to maintain competitive employee remuneration. At present, the companies aim to provide competitive wages by monitoring market conditions and industry remuneration levels.

TOYA Capital Group does not undertake any other actions aimed at ensuring or strengthening a positive impact on its own workforce, and no monitoring of the effectiveness of such actions is conducted.

TOYA Capital Group has not set targets related to managing material impacts concerning its own workforce. However, the organization reviews policies related to material impacts, and each such review results in a report on the implementation of commitments, together with conclusions and recommendations, which is presented to the Management Board of the parent company. The decision to update policies is made by the Management Board of TOYA S.A. when deemed necessary.

The ambition of TOYA Capital Group is to provide competitive remuneration in order to retain employees and attract new individuals who will support the organization with their knowledge and experience. The organization is aware of its impact on employees and therefore strives to ensure zero accidents. The companies focus not only on safe but also competent and well-trained employees. Internal documents applicable across TOYA Capital Group reflect the ambition to create appropriate working conditions for all employees, as the organization believes that equal pay and equal opportunities help attract and retain valuable employees who contribute to the Group's performance. This is also linked to the ambition of preventing violence—there is no tolerance for violence or harassment in the workplace, and the adopted procedures are intended to eliminate the risk of such cases.

7.4.3. Information about employees and collaborators

Number of employees in total and by gender:		
Gender	Number of employees at the end of the reporting period	
	2025	2024
Male	443	437
Female	162	157
Total Employees	605	594

31.12.2025			
	Female	Male	Total (at the end of the reporting period)
Number of employees			
	162	443	605
Number of employees employed on fixed-term contracts			
	15	51	66
Number of employees employed for not-defined period			
	147	392	539
Number of employees whose working hours are not guaranteed

Number of part-time employees			
Male	5	1	0
Female	1	0	0
Total Employees	6	1	0

TOYA S.A. at the end of 2025 used the work of 9 people under mandate contracts and 7 temporary workers. Among its own workforce, there were no individuals operating their own business activities. The Romanian subsidiary and the Chinese subsidiaries also used the work of people who were not employed directly by the companies. In 2025, there were 8 and 11 such people in the Romanian subsidiary and the subsidiaries operating in China, respectively. These were temporary workers employed through an employment agency.¹

Gender distribution in numerical and percentage terms in the top management staff of the TOYA Capital Group:				
	2025		2024	
	Number of employees	Percentage of employees	Number of employees	Percentage of employees
Female	6	27%	6	27%
Male	16	73%	16	73%

Age structure of TOYA Capital Group employees:				
	2025		2024	
	Number of employees	Percentage of employees	Number of employees	Percentage of employees
under 30	98	16%	108	18%
30–50	413	68%	402	68%
over 50	94	16%	84	14%

In the TOYA Capital Group in 2025, there were no structured development interviews or reviews of employee career development. Employees receive feedback from their superiors on an ongoing basis. The companies that make up the Group organize training for their employees in order to provide them with the appropriate knowledge needed for work and development.

¹ Data on the number of employees cooperating on terms other than employment contract are provided as of 31 December 2025, i.e. at the end of the reporting period.

Average number of training hours		
	2025	2024
Female	25.05	24.33
Male	17.60	17.66
Total	20.20	20.09

7.4.4. Adequate remuneration

Measuring the pay gap is a key tool that allows us to assess the effectiveness of policies on equal pay for the same work or work of equal value. Taking into account the provisions in this internal document, TOYA Capital Group strives to achieve the smallest possible pay gap, so that in practice there is none at all.

In 2025, the pay gap in TOYA Capital Group was -8%. This means that women received on average 108% of men's basic pay.

The pay gap was calculated based on the average hourly pay in individual TOYA Capital Group companies. The sum of women's and men's pay as of 31 December 2025 was divided by the annual hourly working time. The average pay received in companies in Romania and China was converted into Polish zloty at the NBP exchange rate of 31 December 2025. Using a weighted average, the average pay of women and men in the entire TOYA Capital Group was calculated, and then these values were used to calculate the pay gap.

The ratio of the annual total remuneration of the highest earner to the median annual total remuneration of all employees (except the highest earner) was 12.25 in 2025 in the TOYA Capital Group.²

According to the adopted internal regulations, the amount of remuneration of an employee employed full-time monthly cannot be lower than the minimum wage regulated in separate state regulations in Poland, Romania and China. For this reason, in none of the companies in the TOYA Capital Group did any employee receive remuneration lower than the minimum wage provided for by law.

7.4.5. Employee safety

All TOYA Group companies have occupational health and safety policies in place, which comply with applicable national regulations and occupational health and safety standards. Each company has a designated person responsible for ensuring workplace safety and providing employees with all necessary information about health risks in the workplace. They also ensure appropriate safety measures are in place. These measures cover 100% of TOYA Group employees and associates.

In 2025, TOYA S.A. recorded 2 work-related accidents (the accident rate was 3.34). In the Romanian subsidiary, 1 fatal work-related accident occurred in 2025 (a traffic accident), resulting in an accident rate of 5.99. As a result of these incidents, a total of 26 days of absence from work were recorded. In the Chinese subsidiaries, no work-related accidents, work-related ill health cases, or absences from work due to occupational injuries were recorded.

² The remuneration of employees on 31 December 2025 working part-time has been recalculated for the value of full-time employment, and the remuneration of persons remaining on 31 December 2025 who worked for part of the year has been recalculated for the value of employment in the entire year.

In 2025, TOYA Capital Group did not record any cases of discrimination or incidents related to respect for the human rights of employees. The organization was also not the subject of:

- complaints filed by employees through channels for reporting concerns,
- complaints filed with national contact points for the OECD Guidelines for Multinational Enterprises.

7.5. ESRS S2 OSOBY WORKERS IN THE VALUE CHAIN

During the double materiality assessment, TOYA Capital Group diagnosed that it has an impact related to workers in the value chain. In the case of occupational health and safety, it is potentially positive, because entities in the TOYA Capital Group value chain can implement and comply with rigorous occupational health and safety standards to minimize the risk of accidents and occupational diseases. This impact is also actually positive, because TOYA Capital Group representatives maintain contact with suppliers, visit production plants and conduct inspections of suppliers' compliance with health and safety rules. At the same time, a real negative impact was diagnosed, because despite maintaining safety, it should be assumed that the specificity of work at suppliers of products distributed by TOYA Capital Group may be associated with possible accidents at work.

The issue of preventing violence and harassment in the workplace is related to working conditions in the upper range of the value chain (upstream). During the double materiality assessment process, an actual negative impact and a potential positive impact were identified. The negative impact stems from the fact that the TOYA Group Code of Ethics, which business partners are required to adhere to, has not been implemented across all TOYA Group companies. The document was formally implemented at the parent company in the third quarter of 2025. However, the potential positive impact stems from the fact that, following the implementation of the Code of Ethics, regulations concerning, among other things, employee equality and diversity will also apply throughout the value chain. The TOYA Group wants its business partners to share its values.

The diagnosed impacts are related to the TOYA Capital Group's business model, which assumes sourcing suppliers - primarily - in China and distributing goods manufactured there. The organization does not expect to change its business model in the near future.

During the double materiality assessment, one risk related to the value chain was identified, which results from the adopted business model. In the long term, there is a risk of increased costs resulting from increasing operating costs related to employee remuneration in the supply chain. The increase may also result from increasing safety standards, which is related to the impact on occupational health and safety.

Among the people performing work in the value chain, employees producing tools, power tools and other devices later distributed under various brands by TOYA Capital Group dominate. A significant group is also people responsible for the transport and logistics of manufactured goods to warehouses belonging to the organization or for transport directly to the customer. These people perform their work in Asia (mainly in China) and Europe.

The diagnosed material negative impacts are systemic and result from the specificity of the TOYA Capital Group value chain. On the other hand, positive impacts result from actions taken such as visits to suppliers or the planned inclusion of all suppliers in the provisions of the TOYA Capital Group Code of Ethics and Human Rights Policy.

As part of the double materiality assessment process, individual groups of people performing work in the value chain were not analysed. It was assumed that the impact exerted is similar, regardless of the group of employees, a specific supplier or geographical region.

As part of the double materiality assessment process, some entities in the value chain were involved in assessing the impact of TOYA Capital Group. The organisation strives to take into account the rights of people performing work in its value chain, as reflected in its Code of Ethics and Human Rights Policy.

7.5.1. Requirements for suppliers

TOYA Capital Group manages its significant impacts on people performing work in the value chain through the Code of Ethics and the Human Rights Policy. The provisions of these documents apply to TOYA Capital Group as well as to its business partners and affect their employees. The Management Board of TOYA S.A. is responsible for implementing the policy within the organization.

In the area of occupational health and safety, *the Code of Ethics* clearly expresses TOYA Group's expectation that all suppliers provide safe and healthy working conditions for their employees. This issue is also addressed in the Human Rights Policy, which emphasizes the need to provide a safe workplace in accordance with applicable regulations and requirements regarding health and safety, and consequently to minimize the risk of accidents, injuries and hazards.

The Code of Ethics also constitutes a firm expression of TOYA Group's opposition to any forms of harassment and workplace bullying. In accordance with the provisions of the Code – which also applies to the Group's suppliers – every employee has the right to work in a healthy environment free from all forms of hostility and harassment considered contrary to the law. Any form of workplace bullying, harassment, sexual harassment or discrimination is considered unacceptable, in particular on the grounds of gender, age, position, education, sexual orientation, religion, racial or ethnic origin, disability, beliefs or membership in employee organizations. In addition, in its Human Rights Policy, TOYA Group declares zero tolerance for all forms of discrimination, workplace bullying, harassment, exploitation, abuse and violence against employees. The Policy also emphasizes opposition to forced labour, human trafficking, modern slavery and child labour.

The Code and the Policy also form the basis of the Company's overall approach to respecting human rights relevant to workers in the value chain, directly referring to the principles set out in the Universal Declaration of Human Rights, the International Bill of Human Rights, the Ten Principles of the UN Global Compact, the UN Guiding Principles on Business and Human Rights, and the OECD Guidelines for Multinational Enterprises. During the reporting period, TOYA Capital Group did not record any violations of these regulations at either the upstream or downstream levels of the value chain.

In accordance with the provisions of these documents, the TOYA Group provides its employees with a channel for reporting misconduct. With the implementation of the Code of Ethics across all Group companies and its extension to suppliers, the organization will enable individuals working in the value chain to report misconduct. From the third quarter of 2025, following the implementation of the Code of Ethics at the parent company, Toya S.A. suppliers will have this option. Once the document is fully implemented across the TOYA Group, the reports received will enable action to be taken to address any negative impacts on human rights.

TOYA Capital Group is open to all signals and information from people performing work in the value chain, including those related to occupational health and safety and the prevention of violence and harassment in the workplace. Suppliers are of key importance to the business; therefore, TOYA Capital Group expects them to be committed to complying with recognized ethical standards and business practices. The organization pays close attention to this cooperation and encourages its suppliers to comply with policies aimed at limiting negative impacts. In 2025, the Group did not receive any reports in this regard from people performing work in the value chain.

7.5.2. Implementing ethical aspects in the value chain

TOYA Capital Group has developed a Code of Ethics and a Human Rights Policy and will oblige its suppliers to comply with their provisions. Representatives of the organization maintain contact with suppliers and visit production plants, which allows for the selection of appropriate partners or the initiation of discussions aimed at limiting or eliminating negative impacts on people performing work in the value chain.

With the implementation of the Code of Ethics across all companies within TOYA Group and its extension to suppliers, their employees will also be able to use this channel to report concerns or suspected violations. At the same time, TOYA Capital Group does not plan to directly inform suppliers' employees about this channel, leaving this responsibility to their employers.

Reported cases will be registered upon receipt. At this stage, TOYA Capital Group cannot yet assess the effectiveness of the whistleblowing channel. However, this possibility is already available within the parent company.

Actions aimed at addressing significant impacts on people performing work in the value chain and preventing negative impacts focused within TOYA Group in 2025 on the adoption, implementation, launch and monitoring of the contact channels specified in the Human Rights Policy and the Code of Ethics. At the same time, the Group monitored the existing Procedure for Reporting Irregularities and Conducting Explanatory Proceedings at TOYA S.A., which has been in place since 2020 and represents a continuation and development of earlier solutions in this area. In 2025, no corrective actions were taken because there was no need to do so.

TOYA Capital Group has developed a Code of Ethics and a Human Rights Policy and will oblige its suppliers to comply with their provisions. Representatives of the organization maintain contact with suppliers and visit production plants, which allows for the selection of appropriate partners or the initiation of discussions aimed at limiting or eliminating negative impacts on people performing work in the value chain.

TOYA Capital Group, together with its suppliers' commitment to comply with the provisions of the Code of Ethics and the Human Rights Policy, will begin to monitor and assess the effectiveness of the implemented solutions through policy reviews. Actions required in response to specific actual or potential negative impacts on people performing work in the value chain are determined on a case-by-case basis and are adapted to the nature and circumstances of the impact. In 2025, the Group did not receive any reports from people performing work in the value chain. The Capital Group will take actions aimed at extending the application of the Code of Ethics to its suppliers and, indirectly, to their employees. The resources allocated to managing its material impacts relate to the time devoted by TOYA Capital Group employees to the preparation of the Code of Ethics and the Human Rights Policy.

During the reporting period, no issues or incidents concerning human rights violations related to the Company's value chain at either the upstream or downstream level were recorded.

In 2025, the organization did not undertake any actions related to the risk of higher costs that may materialize over the longer term.

TOYA Capital Group has not established targets related to managing material negative impacts, enhancing positive impacts, or managing material risks associated with workers in the value chain. At present, the organization does not plan to establish targets for people performing work in the value chain and has no other means of monitoring the effectiveness of its actions. The ambition of TOYA Capital Group is to ensure that negative impacts in the value chain do not occur or, where unavoidable, are kept to a minimum.

7.6. ESRS S4 CONSUMERS AND END-USERS

TOYA Capital Group strives to strictly comply with consumer rights regulations in force in the European Union and in the individual countries where it operates. The Group monitors recommendations issued by relevant authorities in this area and adapts to the changing regulatory environment.

TOYA Capital Group is aware that without respecting consumer rights, it would not be able to build positive relationships with existing customers of its brands or attract new customers. In the online stores operated by TOYA Group, consumers can provide two types of feedback. The first concerns the functioning of the online store, transactions and the sales process. The second type concerns the purchased product. The feedback received is taken into account by TOYA Capital Group and supports the further development of its business.

During the double materiality assessment process, TOYA Capital Group identified its impacts on consumers and end users. These impacts occur both within TOYA Capital Group itself and among product distributors, i.e. at the downstream level of the value chain.

The current positive impact is related to the fact that the organization regularly analyses new requirements concerning product labelling. All products comply with legislative requirements and are fully labelled, including consumer contact information. Each product is accompanied by a detailed product safety data sheet and, where necessary, by operating instructions, which increases transparency and safety of use. Distributors in individual countries are responsible for product labelling in local markets. Another potential positive impact is that TOYA Capital Group and distributors in foreign markets can further increase transparency and safety of use by creating more intuitive labels and instructions for consumers.

The current impact, which is both negative and positive, relates to product quality and safety. Each product is analysed, and regular safety testing and compliance with applicable standards are key to ensuring user protection. A dedicated channel is available for reporting irregularities and ensuring consumer safety. Despite these measures, there have been instances where TOYA Capital Group withdrew products from the market due to concerns regarding product safety. Regular product testing is intended to eliminate such situations, and this activity has been identified as a potentially positive impact.

During the double materiality assessment process, another impact was identified that is both actual and potential. It concerns marketing practices. TOYA Capital Group analyses new regulations and conducts internal reviews of its marketing activities to ensure that accurate and reliable information is provided and that consumers are not misled. This has the potential to build consumer trust and loyalty. The identified impacts are not directly related to TOYA Capital Group's strategy and business model and do not affect any changes to them.

No material risks or opportunities were identified as part of the double materiality assessment process.

Consumers affected by TOYA Capital Group's activities are users of the products distributed by the Group, including both professional and amateur users.

TOYA Capital Group does not offer products that are inherently harmful to people. The organization's product portfolio complies with all applicable standards relating to the health and safety of end users. The electrical equipment offered complies with the RoHS Directive, as confirmed by the product declaration of conformity. In addition, suppliers of TOYA Capital Group declare that the products they supply do not contain substances listed under the REACH Regulation. In the case of products intended to come into contact with the skin or clothing, information regarding their composition is always provided.

TOYA Capital Group also clearly informs end users about their rights in accordance with local regulations. In European countries, these activities are based on Regulation (EU) 2016/679 of the European Parliament and of the Council on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, commonly referred to as the General Data Protection Regulation (GDPR). Visitors to the organization's website and online stores are informed about the use of cookies.

Operating instructions are provided with products not only where required by law, but also whenever such instructions may facilitate the use of the product by consumers. A product specification sheet containing an assembly drawing and operating instructions is prepared before the product is introduced for distribution and sale. The organization's portfolio does not include products intended for children, nor any other products or services related to consumer privacy or health.

As part of the double materiality assessment process, TOYA Capital Group did not identify any material negative impacts on consumers or end users. However, when an individual product defect is identified, TOYA Capital Group takes appropriate corrective actions. These may include:

- supplementing information, for example on the label or in the product description;
- eliminating the cause of the product hazard;
- repairing or replacing the product with a new one in the case of individual defects.

If a product is withdrawn from sale due to a defect, it is withdrawn for all consumer groups. The Group does not identify any specific categories of end users who may be exposed to a greater risk of harm than other users.

7.6.1. Consumer and End-User Policies

Policies related to the management of material impacts on consumers and end-users in the TOYA Group³ are:

- *Code of Good Practices in Communication with Consumers and End-Users of the TOYA Group.*
- *Code of Ethics of the TOYA Group*

The Code of Good Practices in Communication with Consumers and End-Users of the TOYA Group summarizes the good practices in the organization in the field of communication with consumers and end-users. The Code describes the Group's obligations and actions in the field of, among others:

- communication with consumers and opinions in the online store,
- product quality,
- documentation attached to products,
- sale of spare parts and post-warranty repairs,
- information on the principles of product complaints,
- communication regarding the handling of used equipment.

The process of creating the Code involved indirectly TOYA's internal stakeholders. This resulted from the materiality assessment process conducted in 2023, as a result of which TOYA Capital Group developed the Code of Good Practices in Communication with Consumers and End Users to better respond to the needs of stakeholders reported at that time.

³ The TOYA Group's Code of Good Practice for Communication with Consumers and End Users and the Group's Code of Ethics will be implemented throughout the Capital Group in 2026

The TOYA Group *Code of Ethics* contains the most important principles guiding the Group's activities, including ethical principles in sales and marketing activities, respect for consumer rights and concern for product quality.

The scope of the Codes covers the entire Group's activities, and both regulations are based on:

- OECD Guidelines for Multinational Enterprises - in relation to the protection of consumer interests, including compliance with fair business, marketing and advertising practices in contacts with consumers and actions taken by TOYA to ensure the appropriate quality of the products offered.
- UN Consumer Protection Guidelines – regarding transparency in consumer information about products, applicable conditions, fees and final costs, privacy guidelines, complaints and disputes with consumers.

The Management Board of the Parent Company in the TOYA Capital Group is responsible for implementing the provisions of the regulations.

In its activities, the organization respects human rights that are important for end users. This issue is regulated by the Human Rights Policy in the Parent Company, ensuring the protection of human rights throughout the value chain. The TOYA Capital Group did not identify a negative impact on the observance of human rights in the context of consumers and end users in 2025 or as part of the double materiality assessment process, therefore no corrective measures were applied in this area.

7.6.2. Consumer and End-User Collaboration Processes

TOYA Capital Group makes every effort to eliminate the risk of adverse product impact to the greatest possible extent. The organization analyses market trends and responds to the needs of consumers, striving to create a situation in which they can find products in the offer that meet their expectations. Opinions sent on an ongoing basis by users of TOYA Capital Group online stores and opinions received in surveys sent in December 2024 as part of the double materiality assessment process, in which the Management Board of the Parent Company was involved, are also taken into account. At the same time, the principle of meeting all local legal requirements related to quality and safety is strictly observed.

As part of the double materiality assessment process, TOYA Capital Group did not identify a negative impact on consumers and end users. Therefore, it has no corrective measures. Nevertheless, in accordance with the TOYA Capital Group Code of Ethics, each of the companies in the capital group is to create channels for receiving and analysing reports of violations of the Code. The companies provide reporting parties with a local channel that meets the needs and expectations of stakeholders to the greatest extent possible. Reports can be made in person or by sending an e-mail to dedicated addresses. Additionally, any comments and information about activities violating the provisions of the Code of Good Practices in the field of communication with consumers and end users should be reported to the persons responsible for contact with consumers, designated by the Management Board in each company of the TOYA Capital Group. End users of TOYA Capital Group products can obtain support and necessary information by contacting the Customer Service Office team. This applies not only to reports of problems with the use of the product, but also to providing information on the product offer, deliveries or other questions related to sales in the online store.

Depending on the market, customers can use the Helpline, e-mail or forms available on the corporate website and online store websites. Information can also be found in the regulations of online stores, which are posted on the store websites at the bottom of the home page, in the Regulations section.

As part of the after-sales service, a customer who has purchased a product can file a complaint or contact the service department, e.g. regarding the purchase of spare parts. The Group provides appropriate channels and mechanisms for reporting comments on the products offered and procedures for considering such reports.

All reports that reach the Customer Service Office of the online store are monitored and resolved.

There are no formal processes in the TOYA Capital Group that allow for assessing the extent to which consumers are aware of the possibility of contacting the Customer Service Office and reporting, among other things, violations of the Code of Ethics.

Activities undertaken on an ongoing basis by TOYA Capital Group companies related to material impacts on end users include:

- reliable preparation of user manuals and product descriptions. Where required, characteristics, pictograms and graphical or photographic references, energy labels and disposal methods are additionally attached.
- offering products and packaging that comply with the requirements of the REACH directive. In the case of products that are intended for contact with skin or clothing, information about their composition is always provided.
- conducting marketing strategies in accordance with the adopted market standards and TOYA values, expressed in the TOYA Capital Group *Code of Ethics*.
- publishing clear product documentation containing an assembly drawing of the product with numbered components and a list of spare parts intended for the product. This documentation allows the buyer to familiarize themselves with the construction of the device and allows them to make a decision on how to perform a post-warranty repair and possibly purchase spare parts and carry out the repair themselves.

In addition, TOYA Capital Group has a complaint process described in the regulations, which allows customers to easily exercise all their rights arising from legal regulations or the organization's own guarantees. In the event of a complaint, the consumer can count on free collection of the damaged product from the place indicated by them and consideration of the complaint to the extent indicated in the complaint notification. In addition, TOYA Capital Group provides post-warranty service, which includes the sale of spare parts and repairs in its own service centre.

The organization has not implemented a formal method of tracking and assessing the effectiveness of these activities.

During the double materiality assessment process, TOYA Capital Group did not identify any negative actual or potential impacts on consumers or end users. Also, possible risks and opportunities related to consumers and end users were not considered significant. In 2025, no serious issues and incidents concerning human rights related to consumers were reported.

Despite the lack of material negative impacts, TOYA Capital Group has developed a Code of Good Practice in Communication with Consumers and End Users. In the interests of the comfort of buyers, their safety and the proper and trouble-free use of tools and devices, the products offered by TOYA Capital Group have carefully prepared and legally required operating instructions and necessary descriptions, and if necessary, energy labels and methods of product disposal are attached. The TOYA Capital Group did not adopt any goals related to the management of material impacts related to end users in 2025. The Group does not plan to set goals related to impacts diagnosed in the double materiality assessment process.

TOYA Capital Group has not adopted any targets for managing material impacts related to end users in 2025. The Group does not plan to set targets for impacts diagnosed in the double materiality assessment process.

Despite this, TOYA Capital Group monitors the effectiveness of the adopted documents in order to manage material impacts. This is evidenced by the number of reports received by the Customer Service Office. They are analysed in terms of issues related to access to high-quality information, security or marketing practices. The lack of reports regarding these areas indicates the effectiveness of the policies. On the other hand, in a situation where information appears from a consumer about the lack of significant information in the instructions, actions are taken to correct it. There is no formal

procedure in place that would determine the number of reports, the achievement of which would mean that the policies adopted in TOYA Capital Group are ineffective. Our ambition is to completely eliminate such cases.

7.7. ESRS G1 BUSINESS CONDUCT

The Management Board of TOYA S.A. is responsible for all matters that are not reserved for the General Meeting of Shareholders or the Supervisory Board. The Management Board manages the affairs of the Company and represents it externally. The Supervisory Board is responsible for the ongoing supervision of the Company's activities. Within the Supervisory Board of the parent company, an Audit Committee operates. Its role is to advise and support the Supervisory Board in the performance of its control and oversight duties in the broadly understood area of financial reporting, in accordance with the Act on Statutory Auditors, Audit Firms and Public Oversight. Information on the expertise and qualifications of the members of the Management Board and the Supervisory Board has been disclosed in the ESRS 2 General Disclosures section.

TOYA Group's material impacts, risks and opportunities related to business conduct were identified as part of the double materiality assessment carried out between November 2024 and February 2025.

The course of the process, the methodology applied and stakeholder consultation activities are disclosed in this report under ESRS 2 General Disclosures.

As part of the double materiality assessment process, the following were identified:

- an actual positive impact and a potential positive impact related to corporate culture;
- an actual positive impact and a potential positive impact related to the protection of whistleblowers;
- an actual impact, both negative and positive, related to the management of supplier relationships, including payment practices;
- an actual positive impact and a potential positive impact related to the prevention of corruption.

7.7.1. Corporate governance in TOYA Capital Group

TOYA Capital Group manages significant revenues based on internally implemented and observed regulations in daily operations, for the implementation of which the Management Board of the Parent Company is responsible. They apply to all employees of the organization, and additionally the Procedure for reporting irregularities also includes people who are not employed in the Group

Corporate Governance Area	Adopted regulation	Key Content
Corporate culture	<i>Code of Ethics</i>	TOYA Capital Group adopted a Code of Ethics, which was implemented in the parent company in the third quarter of 2025. The Group plans to implement the document in its remaining companies in 2026. The Code sets out the key principles guiding the Company's operations, including respect for human rights, the prevention of corrupt practices and avoidance of conflicts of interest, relations with customers, responsibility for impacts, ethical relations with suppliers, environmental stewardship, and compliance with applicable laws and market standards. The provisions of the Code of Ethics apply to employees, co-workers and suppliers of TOYA Capital Group. The Code of Ethics was developed based on, among others, the UN Guiding Principles on Business and Human Rights and the OECD Guidelines for Multinational Enterprises, including the principles and rights set out in the eight fundamental conventions referred to in the International Labour Organization Declaration on Fundamental Principles and Rights at Work, as well as the principles and rights contained in the International Bill of Human Rights. However, the primary basis for defining the principles of conduct included in the

		document were TOYA's core values: responsibility, development and profit orientation, customer focus, and innovation.
Whistleblower protection	<i>Procedure for reporting irregularities and conducting explanatory proceedings at TOYA S.A.</i>	The procedure enables responding to non-compliance with regulations by identifying violations and taking follow-up actions. The regulation also defines reporting channels. The content of the procedure is made available on the Company's website.
Supplier relationship management, including payment practices	<i>Code of Ethics for TOYA S.A. Group</i>	Both documents include a commitment requiring suppliers to respect human rights, provide fair working conditions, ensure safe and healthy working environments, and conduct their business activities in an environmentally responsible manner. Since the third quarter of 2025, the Supplier Code of Conduct has been replaced by the Code of Ethics, which is intended to apply across all companies of TOYA Capital Group as well as to their suppliers.
Prevention and detection of corruption, including training	• <i>TOYA S.A. Anti-Corruption Code</i> • <i>TOYA S.A. Gift Policy</i> • <i>Procedure for the application of anti-corruption clauses in contracts concluded by TOYA S.A.</i>	<i>The Anti-Corruption Code</i> defines the concepts of corruption and establishes rules and principles that limit the risk of corruption, as well as actions in the event of its occurrence. The Code is detailed in the Gift Procedure, which regulates the principles of giving and receiving business gifts. The provisions of the Anti-Corruption Code are consistent with Polish law, and thus indirectly refer to the United Nations Convention against Corruption. The Group makes anti-corruption regulations available to employees on its internal IT network. Additionally, as a rule, an anti-corruption clause is included in contracts with contractors, obliging them to comply with the Anti-Corruption Code.

The corporate culture in the TOYA Capital Group is based on ethical business practices, building and developing trust among customers and strict compliance with regulations. Part of the Mission and Vision adopted at the organizational level are values - responsibility, orientation towards development and profit, customer-centricity and innovation. These values accompany the Group in its daily functioning and are the foundation for making strategic and operational decisions.

The corporate culture is shaped by the Group's management, which regularly communicates and reinforces values through its actions, decisions and management method. The Group encourages employees to co-create the corporate culture by providing access to the Intranet. Additionally, employees participate in compliance training, which raises awareness of the Company's principles and values. The topics of compliance training include, among others, the provisions of the anti-corruption code and other procedures related to minimizing the risk of corruption and the system for reporting irregularities. Cyclic training is dedicated to all employees and people starting work in the organization.

Procedure for reporting irregularities and conducting explanatory proceedings in TOYA S.A. introduces mechanisms in TOYA S.A. for identifying, reporting and investigating concerns related to conduct that is inconsistent with the provisions concerning, among others, corruption, money laundering and supporting terrorism, product safety and compliance with legal requirements, environmental protection, consumer protection, protection of privacy and personal data. The Company accepts reports from internal or external stakeholders. In accordance with the provisions of the regulations, whistleblowers may provide information through the provided safe, confidential and effective channels. Reports are accepted orally or in writing, including using an online tool that guarantees anonymity.

An oral report may be made during a conversation with the Compliance Officer or Compliance Coordinator via the Microsoft Teams program and - at the request of the whistleblower - during a direct meeting. A written report may be sent to a dedicated e-mail address, by traditional mail to the registered office of TOYA S.A. and via the online platform.

The information provided is initially verified by the Compliance Officer or Compliance Coordinator. If the report is deemed justified, an explanatory proceeding is initiated. During the proceedings, all employees of the organization are

obliged to make available all documents and provide the information necessary to determine the circumstances of the case being considered.

In accordance with the Procedure for reporting irregularities and conducting explanatory proceedings at TOYA S.A., persons submitting reports in good faith are protected against retaliatory actions. The organization ensures, among other things, full protection of the confidentiality of the whistleblower's data and a limited circle of people with access to the information covered by the report to the necessary minimum. The Management Board is responsible for the protection of whistleblowers, which is obliged to respond to all attempts to take retaliatory actions. Consequences may be drawn against employees who have taken retaliatory actions against the whistleblower, in accordance with the provisions of labour, criminal and civil law.

The procedure for reporting irregularities in force in the Company does not specify matters related to incidents of corruption or bribery, as priority, considering that each report should be considered quickly and efficiently.

No separate anti-corruption training is conducted due to the position held that is particularly exposed to the risk of corruption, because preventing such cases applies to all employees to the same extent. At the same time, the TOYA S.A. Gift Procedure distinguishes a category of exposed persons - these are members of the Management Board, members of the Supervisory Board and persons managing individual departments, employees of the sales department, proxies, as well as other persons indicated each time by a resolution of the Management Board due to their direct participation in relations with contractors.

The procedure for reporting irregularities was consulted with employee representatives during the development of its provisions. In the case of other regulations, no consultations were conducted with stakeholders.

7.7.2. Supplier Relationships

TOYA Capital Group manages supplier relations based on the Code of Ethics, which emphasizes the requirements of respecting human rights, ensuring fair working conditions, occupational health and safety, and ecological responsibility. The Group expects its suppliers to apply the same standards to their sub-suppliers. The Code of Ethics, and previously the Supplier Code of Conduct, promotes corporate culture throughout the value chain.

TOYA Capital Group, through its two companies - YATO Tools (Shanghai) Co. Ltd. and YATO Tools (Jiaxing) Co. Ltd. - maintains close contacts with factories and trading companies, which allows for effective local verification of quality and compliance with standards. Visits to factories and warehouses additionally support responsible business practices, which favours the selection of suppliers who comply with environmental and social standards.

The Group has not adopted policies regarding payments to suppliers, including with particular emphasis on small and medium-sized enterprises. The business practice in the organization is to pay receivables on time agreed with contractors.

Due to the different payment practices in the markets where TOYA Group operates, no formal policy has been adopted to prevent late payments. Due to the size of the Company and the number of invoices processed, TOYA S.A. has implemented an electronic document flow that supports the processing of documents from the moment they are received to the moment they are recorded in the accounting records. This system defines the individual steps and rules for accepting costs, which contributes to timely payment. In other companies in the TOYA Group, the invoice flow is initiated by the purchasing department, and payments are made by the finance departments with the authority to make payments.

The standard payment term for invoices issued to TOYA S.A. ranges from 7 to 30 days, and the average payment time in 2025 was 27 days. Approximately 67% of payments in the Company related to the purchase of trading goods within the Capital Group. In TOYA Romania, payment terms ranged from 7 to 180 days, with an average invoice payment time

of 75 days. In the two companies operating in China, the payment term is 45 days from the moment goods are delivered to the warehouse, and the average payment time was 45 days. In 2025, none of the companies were subject to any legal proceedings concerning late payments.

7.7.3. Preventing corruption

The prevention of allegations or incidents related to corruption and bribery is based on the anti-corruption regulations adopted in the Parent Company - the TOYA S.A. Anti-Corruption Code, the TOYA S.A. Gift Policy and the Procedure for the Application of Anti-Corruption Clauses in Agreements Concluded by TOYA S.A. Information on the provisions of these regulations is included in this report in chapter 7.7.1 - Business Conduct Policies and Corporate Culture.

TOYA S.A. has adopted procedures ensuring impartiality, objectivity and independence of conducting explanatory proceedings regarding corruption. The unit responsible for receiving reports and taking follow-up actions in TOYA S.A. is the Legal and Compliance Department, within which the Compliance Officer or Compliance Coordinator have been authorized by the Company to perform these activities.

In order to maintain an appropriate level of impartiality and proper consideration of reports concerning members of the company's management board, the Compliance Officer or the Compliance Coordinator, the following solutions have been adopted:

- if the report concerns a member of the Management Board – the report is accepted and follow-up actions are taken by the Compliance Officer. The Compliance Officer shall immediately upon receipt of the report inform the Chairman of the Supervisory Board. The member of the Management Board concerned by the report does not have access to information about the course of the explanatory proceedings until it is completed.
- if the report concerns the Compliance Officer – the report is accepted and follow-up actions are taken by the Compliance Coordinator. The Compliance Coordinator shall immediately upon receipt of the report inform the Vice President of the Management Board, whose competence includes supervision over the compliance zone. The Compliance Officer is excluded from all activities concerning the report in question, and also does not have access to information about the course of the explanatory proceedings until it is completed.
- if the report concerns the Compliance Coordinator – the report is accepted and follow-up actions are taken by the Compliance Officer. The Compliance Officer shall immediately upon receipt of the report inform the Vice President of the Management Board, whose competence includes supervision over the compliance zone. The Compliance Coordinator is excluded from all activities related to the report in question, and also does not have access to information about the course of the investigation until it is completed.

Each explanatory proceeding ends with the submission to the Management Board of a detailed report summarizing the actions and findings. If a violation of the law is found, the report includes a recommendation for remedial measures.

In order to raise the awareness of TOYA S.A. employees regarding the risks associated with corruption, the organization undertakes to conduct regular training tailored to individual groups, including in particular new employees and people working in departments particularly exposed to corruption. The Compliance Coordinator is responsible for fulfilling training obligations by TOYA S.A. employees. Training programs are developed, with the support of the Compliance Coordinator, by the Compliance Officer, ensuring their compliance with the currently applicable legal regulations and taking into account the potential risks associated with the current activities of TOYA S.A. All employees are exposed to the risk of corruption to a similar extent, therefore no positions particularly exposed to this risk have been identified. Members of the Management Board and Supervisory Board are also covered by anti-corruption training. All training includes the definition of corruption, internal regulations in force in the Company regarding the prevention of corruption, as well as information on actions taken in the event of a suspected case of corruption.

The table below presents information on training in all companies forming the TOYA Capital Group. Members of the Management Board of TOYA S.A. hold functions in other companies of the TOYA Capital Group, so in order to avoid double counting, the table presents information on training for the Management Board and Supervisory Board of the Parent Company. YATO Tools (Shanghai) Co., Ltd. and YATO Tools (Jiaxing) Co., Ltd. have identified employees who are particularly exposed to the risk of corruption.

	Management Board of TOYA S.A.	Supervisory Board of TOYA S.A.	Employees	Employees at risk of corruption
Number of people	4	11	547	50
Number of people undergoing training	4	11	384	50
Duration and nature of training	1 hour of mandatory training	1 hour of mandatory training	In Poland it is 1 hour of mandatory training. In China half-hour of optional training. In Romania the training is optional.	In China 1 hours of mandatory training.
Frequency of training	Once a year	Once a year	Once a year	In companies in China, training is held once a quarter.

8. STATEMENT ON THE APPLICATION OF CORPORATE GOVERNANCE PRINCIPLES

In accordance with § 72(7)(5) of the Regulation of the Minister of Finance of 6 June 2025 on current and periodic information disclosed by issuers of securities and on conditions for recognising as equivalent information required by the laws of a non-member state ("the Regulation"), the Management Board of the Company hereby presents its statement on corporate governance applied in 2025.

8.1. PRINCIPLES OF CORPORATE GOVERNANCE

Indication of the set of corporate governance rules governing the Parent Company and the place where the set is publicly available

From 1 July 2021, the Company applies the corporate governance principles set out in the "Best Practices of WSE Listed Companies 2021", attached to the Resolution of the Stock Exchange Supervisory Board No. 13/1834/2021 of 29 March 2021, the content of which is publicly available on the website of the Warsaw Stock Exchange S.A. at the address: <https://www.gpw.pl/dobre-praktyki2021>.

The text of the statements regarding each year with an indication of the extent to which the Company declared compliance with the rules mentioned above, is available on the Company's website at: <https://toya.pl/lad-korporacyjny> in the "Best practices" tab.

The Company does not apply any corporate governance practices that go beyond the requirements of local law.

An indication to the extent that the Parent Company departed from the provisions of the set of principles of corporate governance, with an indication of those provisions and the reasons for the withdrawal.

Pursuant to Article 29.3 of the Regulations of the Warsaw Stock Exchange S.A., the Management Board of the Company presented "Information on the status of the Company's application of the recommendations and principles contained in the Best Practices of WSE Listed Companies 2021" in the EBI report No. 1/2021 of 2 August 2021. In reference to the content of this document, in 2025 the Company complied with the detailed rules contained in the "Best Practices of WSE Listed Companies 2021", with the exception of the following:

RULE NUMBER	CONTENT OF THE RULE	EXPLANATION OF THE REASONS FOR THE COMPANY'S DEVIATION FROM THE PRINCIPLE:
1.3.1.	Companies integrate ESG factors in their business strategy, including in particular environmental factors, including measures and risks relating to climate change and sustainable development	In its business strategy, the Issuer does not include ESG factors, which include environmental factors, including measures and risks relating to climate change and sustainable development. The Issuer is aware of the growing importance of non-financial reporting as well as ESG issues, therefore, meeting the expectations of various stakeholder groups, it will consider taking steps to implement and apply this principle.
1.3.2.	Companies integrate ESG factors in their business strategy, including in particular social and employee factors, including among other actions taken and planned to ensure equal treatment of women and men, decent working conditions, respect for employees' rights, dialogue with local communities, customer relations.	In its business strategy, the Issuer does not include ESG factors, including social and employee factors, including among others actions taken and planned to ensure equal treatment of women and men, decent working conditions, respect for employees' rights, dialogue with local communities, customer relations. The Issuer is aware of the growing importance of non-financial reporting as well as

RULE NUMBER	CONTENT OF THE RULE	EXPLANATION OF THE REASONS FOR THE COMPANY'S DEVIATION FROM THE PRINCIPLE:
		ESG issues, therefore, meeting the expectations of various stakeholder groups, it will consider taking steps to implement and apply this principle. The Issuer and the entire TOYA S.A. Capital Group pays particular attention to the issues related to the core values to which this principle applies.
1.4.	To ensure quality communications with stakeholders, as a part of the business strategy, companies publish on their website information concerning the framework of the strategy, measurable goals, including in particular long-term goals, planned activities and their status, defined by measures, both financial and non-financial. ESG information concerning the strategy should among others:	The Issuer presents its Strategy within periodic reports. This information does not contain all the elements set out in this rule. If the Strategy document is formally adopted and disclosed in accordance with applicable regulations, it will be made available to stakeholders on the website. The Issuer is aware of the growing importance of non-financial reporting as well as ESG issues, therefore, meeting the expectations of various stakeholder groups, it will consider taking steps to implement and apply this principle.
1.4.1.	explain how the decision-making processes of the company and its group members integrate climate change, including the resulting risks;	The Issuer's current Strategy does not take into account the ESG issues. The Issuer is aware of the growing importance of non-financial reporting as well as ESG issues, therefore, meeting the expectations of various stakeholder groups, it will consider taking steps to implement and apply this principle.
1.4.2.	present the equal pay index for employees, defined as the percentage difference between the average monthly pay (including bonuses, awards and other benefits) of women and men in the last year, and present information about actions taken to eliminate any pay gaps, including a presentation of related risks and the time horizon of the equality target.	The Strategy presented by the Issuer in its periodic reports does not address the issues raised in this principle. The Issuer pursues an active policy in the field of working conditions and employee pay, providing the Company with staff that contributes to the organic growth of the organization.
1.5.	Companies disclose at least on an annual basis the amounts expensed by the company and its group in support of culture, sports, charities, the media, social organisations, trade unions, etc. If the company or its group pay such expenses in the reporting year, the disclosure presents a list of such expenses.	The Issuer does not disclose the expenses incurred by the Issuer and its group for supporting culture, sports, charities, media, social organizations, trade unions, etc. The reason for this is the marginal scale of this type of expenses from the point of view of the Company's financial situation.
1.6.	Companies participating in the WIG20, mWIG40 or sWIG80 index hold on a quarterly basis and other companies hold at least on an annual basis a meeting with investors to which they invite in particular shareholders, analysts, industry experts and the media. At such meetings, the management board of the company presents and comments on the strategy and its implementation, the financial results of the company and its group, and the key events impacting the business of the company and its group, their results and outlook. At such meetings, the management board of the company publicly provides answers and explanations to questions raised.	The Issuer enables investors, analysts, shareholders and representatives of the media to ask questions and obtain explanations on topics of interest to these persons, provided that the applicable law provides for such a possibility. The implementation of this principle takes place in the form of direct meetings with the above-mentioned stakeholders or answers to questions in electronic form.
2.1.	Companies should have in place a diversity policy applicable to the management board and the supervisory board, approved by the supervisory board and the general meeting,	The Issuer does not have a diversity policy towards the Management Board and the Supervisory Board adopted by the Supervisory Board or the General Meeting, respectively. Nevertheless, the principle of

<u>RULE NUMBER</u>	<u>CONTENT OF THE RULE</u>	<u>EXPLANATION OF THE REASONS FOR THE COMPANY'S DEVIATION FROM THE PRINCIPLE:</u>
	respectively. The diversity policy defines diversity goals and criteria, among others including gender, education, expertise, age, professional experience, and specifies the target dates and the monitoring systems for such goals. With regard to gender diversity of corporate bodies, the participation of the minority group in each body should be at least 30%.	diversity among its bodies is close to the Issuer and constitutes an added value for the organization. The Issuer ensures that the bodies are composed of persons with the broadest possible scope of competences and qualifications. The members of the Supervisory Board are elected by the General Meeting, while the Management Board is appointed by the Supervisory Board. Despite the lack of a diversity policy, the Issuer is deeply convinced that the General Meeting and the Supervisory Board, when selecting the Supervisory Board and the Management Board, are guided primarily by the interests and needs of the Issuer to ensure a diverse pool of talents necessary to meet the challenges faced by the Issuer. The above can be confirmed by the current composition of the Supervisory Board and the Management Board, which ensures diversity in terms of education, specialist knowledge and age.
2.2.	Decisions to elect members of the management board or the supervisory board of companies should ensure that the composition of those bodies is diverse by appointing persons ensuring diversity, among others in order to achieve the target minimum participation of the minority group of at least 30% according to the goals of the established diversity policy referred to in principle 2.1.	The members of the Supervisory Board are elected by the General Meeting, while the Management Board is appointed by the Supervisory Board. Despite the lack of a diversity policy, the Issuer is deeply convinced that the General Meeting and the Supervisory Board, when selecting the Supervisory Board and the Management Board, are guided primarily by the interests and needs of the Issuer to ensure a diverse pool of talents necessary to meet the challenges faced by the Issuer. The above can be confirmed by the current composition of the Supervisory Board and the Management Board, which ensures diversity in terms of education, specialist knowledge and age.
2.7.	A company's management board members may sit on corporate bodies of companies other than members of its group subject to the approval of the supervisory board.	A member of the Management Board may not, without the consent of the General Meeting, deal with competitive interests or participate in a competitive company as a partner in a civil partnership, partnership or as a member of a ruling body of a company, or participate in another competitive legal person as a member of a ruling body. This prohibition also covers participation in a competitive company, if a Management Board Member holds at least 10% of shares or stocks or the right to appoint at least one Management Board Member. The prohibition does not apply to performing functions in entities belonging to the capital group of the Company.
2.11.5.	In addition to its responsibilities laid down in the legislation, the supervisory board prepares and presents an annual report to the annual general meeting once per year. Such report includes at least the following: assessment of the rationality of expenses referred to in principle 1.5;	The Issuer does not disclose the expenses incurred by the Issuer and its group for supporting culture, sports, charities, media, social organizations, trade unions, etc. The reason for this is the marginal scale of this type of expenses from the point of view of the Company's financial situation.
2.11.6.	In addition to its responsibilities laid down in the legislation, the supervisory board prepares and presents an annual report to the annual general meeting once per year. Such report includes at least the following: information regarding the degree of implementation of the diversity policy applicable to the management board and the	Due to the fact that the Issuer does not have a diversity policy towards the Management Board and the Supervisory Board adopted by the Supervisory Board or the General Meeting, respectively (for the entirety of the justification, see rule 2.1.), the annual report of the Supervisory Board referred to in rule 2.11 does not contain the information referred to in rule 2.11.6.

<u>RULE NUMBER</u>	<u>CONTENT OF THE RULE</u>	<u>EXPLANATION OF THE REASONS FOR THE COMPANY'S DEVIATION FROM THE PRINCIPLE:</u>
	supervisory board, including the achievement of goals referred to in principle 2.1.	
3.3.	Companies participating in the WIG20, mWIG40 or sWIG80 index appoint an internal auditor to head the internal audit function in compliance with generally accepted international standards for the professional practice of internal auditing. In other companies which do not appoint an internal auditor who meets such requirements, the audit committee (or the supervisory board if it performs the functions of the audit committee) assesses on an annual basis whether such person should be appointed.	As at the date of publication of this statement, the Issuer has not appointed an internal auditor to manage the internal audit function. The Issuer and the Audit Committee assess on an ongoing basis the legitimacy of the organizational separation of internal audit and, if there is a need for such separation, the Issuer will consider appointing such an auditor.
3.6.	The head of internal audit reports organisationally to the president of the management board and functionally to the chair of the audit committee or the chair of the supervisory board if the supervisory board performs the functions of the audit committee.	The principle is not applied due to the fact that the Company has not appointed a person to manage internal audit. The Issuer monitors the needs of conducting an audit of individual areas of the Company's operations on an ongoing basis.
3.10.	Companies participating in the WIG20, mWIG40 or sWIG80 index have the internal audit function reviewed at least once every five years by an independent auditor appointed with the participation of the audit committee.	The principle is not applied as the Issuer has not yet distinguished an internal audit unit and has not separated the position of the person managing the internal audit function.
4.3.	Companies provide a public real-life broadcast of the general meeting	The Issuer does not provide publicly available real-time broadcasts of general meetings. The Issuer will monitor the demand of potential stakeholders for access to real-time broadcasts of the general meeting.
4.8.	Draft resolutions of the general meeting on matters put on the agenda of the general meeting should be tabled by shareholders no later than three days before the general meeting	The issuer encourages shareholders to submit draft resolutions of the general meeting on matters introduced to the agenda of the general meeting within a time allowing them to be read, but the Company's internal regulations do not provide for the deadline referred to in this rule.
4.9.1.	If the general meeting is to appoint members of the supervisory board or members of the supervisory board for a new term of office: candidates for members of the supervisory board should be nominated with a notice necessary for shareholders present at the general meeting to make an informed decision and in any case no later than three days before the general meeting; the names of candidates and all related documents should be immediately published on the company's website.	The Issuer encourages shareholders to propose candidates for the Supervisory Board in time allowing them to become acquainted with their professional experience and competences, but the Company's internal regulations do not provide for a deadline for submitting candidates. On the other hand, the rule is applied in the scope of immediate publication by the Issuer of the candidates together with a complete set of materials concerning them on the Company's website, provided that the candidates are submitted within the time limit specified in the rule in question.
4.14.	Companies should strive to distribute their profits by paying out dividends. Companies may retain all their earnings subject to any of the following criteria: a) the earnings are minimal and consequently the dividend would be immaterial in relation to the value of the shares; b) the company reports uncovered losses from previous years and the earnings are used to reduce such losses; c) the company can demonstrate	The intention of the rule is close to the Issuer. The Issuer's Management Board, in each application to the General Meeting as to the method of profit distribution for a given financial year, presents, together with the justification, its recommendations, which may include, inter alia, the current and projected financial situation of the Company and its capital group, further development strategy, including investment plans. The issuer shall immediately disclose the

RULE NUMBER	CONTENT OF THE RULE	EXPLANATION OF THE REASONS FOR THE COMPANY'S DEVIATION FROM THE PRINCIPLE:
	that investment of the earnings will generate tangible benefits for the shareholders; d) the company generates insufficient cash flows to pay out dividends; e) a dividend payment would substantially increase the risk to covenants under the company's binding credit facilities or terms of bond issue; f) retention of the company's earnings follows recommendations of the authority which supervises the company by virtue of its business activity.	information in question to the public, and the above-mentioned application is assessed by the Supervisory Board. The final decision, taking into account the essential needs of the Issuer, the catalogue of which may exceed the premises indicated in the principle, is made by the Issuer's General Meeting.

8.2. INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM IN RELATION TO THE FINANCIAL STATEMENTS PREPARATION PROCESS

Description of basic features of internal control and risk management systems applied in the Company with respect to the process of preparing the stand alone and consolidated financial statements.

The Management Board of the Company is responsible for the internal control system within the Company and its effectiveness in the process of preparing financial statements and periodic reports, prepared and published in accordance with the Regulation of the Minister of Finance of 6 June 2025 on current and periodic information disclosed by issuers of securities and on conditions for recognising as equivalent information required under the laws of a non-member state. The Company applies internal control systems in the area of accounting and financial reporting, ensuring a reliable and transparent presentation of its financial and asset position. The Company maintains documentation describing the adopted accounting principles, specifying methods for measuring assets and liabilities and determining financial results, as well as the manner of keeping accounting books and the system for protecting data and data sets. The adopted accounting principles are applied on a continuous basis, ensuring comparability of financial statements under the going concern principle and prudent valuation.

The Company's financial statements are audited by authorised entities selected by resolution of the Supervisory Board. The statements are published in accordance with applicable legal regulations.

The accounting books are maintained by the Company in the SAP R3 IT system. Access to the IT system's information resources is restricted through appropriate authorisations granted to employees solely within the scope of their duties. The Chief Financial Officer supervises, from a substantive perspective, the process of preparing the Company's financial statements and periodic reports.

The organisation of work related to the preparation of annual and interim financial statements falls within the responsibilities of the accounting and controlling departments.

The financial statements, prepared by the accounting department in cooperation with the controlling department, after approval by the Chief Financial Officer and before publication, are subject to verification by the Management Board and the Supervisory Board of the Company.

8.3. SHAREHOLDERS HOLDING SUBSTANTIAL BLOCKS OF SHARES

Shareholders who hold, directly or indirectly, major blocks of shares, the number of shares held by such entities, their percentage share in the share capital, the number of votes resulting from them and their percentage share in the total number of votes at the general meeting.

The table below presents the ownership structure of shareholders who hold, directly or indirectly, major blocks of shares of TOYA S.A., the number of shares held by such entities, their percentage share in the share capital, the number of votes resulting from them and their percentage share in the total number of votes at the general meeting as of 31 December 2025 (status according to the best of the Company's knowledge and to information provided to Company by its shareholders):

Name	Status	Number of shares / number of votes at the General Meeting	Nominal value of one share in PLN	Nominal value of shares in PLN	Percentage share in the share capital/Percentage share in the total number of votes at the general meeting
Jan Szmidt	natural person	28 284 304	0.1	2 828 430.40	37.69%
Romuald Szałagan	natural person	9 652 290	0.1	965 229.00	12.86%
Generali OFE	natural person	5 001 147	0.1	500 114.70	6.66%
Others - share below 5%	not applicable	32 104 485	0.1	3 210 448.50	42.79%
TOTAL		75 042 226		7 504 222.60	100.00%

Between the date of submission of the previous periodic report (i.e. from 6 November 2025) and 31 December 2025, as well as after the end of 2025 until the date of approval of this report for publication, there were no changes in the ownership structure of significant blocks of TOYA S.A. shares.

The Parent Company is not aware of any agreements that could result in future changes in the proportions of shares held by current shareholders.

8.4. SECURITIES GIVING SPECIAL CONTROL RIGHTS

Indication of the owners of any securities, which provide special control rights, together with the description of the rights (§ 70 section 6 point 5 letter e of the Regulation).

All shares in the Company are ordinary bearer shares which provide no special control rights. Apart from shares, the Parent Company issued no other securities.

8.5. LIMITATION OF RIGHTS FROM SHARES

Indication of any restrictions on the exercise of voting rights, such as restrictions on the exercise of voting rights by holders of a specific part or number of votes, time restrictions on the exercise of voting rights or provisions according to which capital rights related to securities are separated from the possession of securities (§ 70 sec. 6 item 5 letter f of the Regulation).

Shares in the Company do not involve any restrictions with respect to exercising voting rights. Pursuant to the Articles of Association of TOYA S.A., each share carries one vote at the General Shareholders' Meeting.

Limitations in transferring the ownership right to the issuer's securities

In 2025, there were no restrictions on the transfer of ownership of the Company's securities.

8.6. DESCRIPTION OF THE RULES FOR CHANGING THE ISSUER'S STATUTE

The Company's Articles of Association are amended in accordance with the provisions of the Commercial Companies Code. Resolutions on amendments to the Articles of Association that increase the benefits of shareholders or reduce the rights granted personally to individual shareholders require the consent of all shareholders affected by them.

8.7. GENERAL SHAREHOLDERS MEETING

The functioning of the General Shareholders' Meeting, its basic entitlements, the rights of shareholders and the manner of exercising these rights and entitlements, and in particular the rules set forth by the Bylaws of the General Meeting of Shareholders provided such bylaws have been adopted, unless such information is determined directly by the provisions of law.

The proceedings of the General Meeting of Shareholders of "TOYA" S.A. are held in accordance with generally applicable provisions of law, in particular the provisions of the Commercial Companies Code, the Company's Articles of Association and the provisions of the Regulations of the General Meeting (available: <https://toya.pl/materialy-dla-inwestorow>).

The General Meeting is held as ordinary or extraordinary. An extraordinary General Meeting is convened by the Management Board on its own initiative, at the written request of the Supervisory Board or at the request of shareholders representing at least 1/20 of the share capital, submitted to the Management Board in writing or in electronic form. The request to convene the General Meeting should specify the matters put on the agenda or include a draft resolution regarding the proposed agenda. The convening of an extraordinary General Meeting at the request of the Supervisory Board should take place within two weeks from the date of submitting the request.

The Supervisory Board convenes the General Shareholders' Meeting:

- a) if the Company's Management Board failed to convene the Ordinary General Shareholders' Meeting within the prescribed period,
- b) if, despite the submission of a request by the Supervisory Board, the Company's Management Board failed to convene the General Shareholders' Meeting in time, or
- c) whenever it deems such meeting necessary.

Shareholders may participate in the General Shareholders' Meeting using electronic means of communication, on conditions specified in detail by the Management Board.

The General Meeting may adopt resolutions regardless of the number of shareholders present at the meeting or the represented shares, unless otherwise provided in the provisions of law.

Resolutions of the General Shareholders' Meeting are adopted by an absolute majority of votes, unless the provisions of law or these Articles of Association provide otherwise. Resolutions of the General Shareholders' Meeting are adopted by the majority of $\frac{3}{4}$ votes cast with respect to the following issues:

- a) amendments to the Articles of Association, including issue of new shares,
- b) issue of convertible bonds or bonds with pre-emptive rights to acquire shares,
- c) merger of the Company with another company,
- d) decrease of the share capital,
- e) redemption of shares,
- f) disposal of the Company's enterprise or its organised part,
- g) dissolution of the Company.

The resolutions amending the Articles of Association on the increase of the shareholders' benefits or limiting the rights granted to individual shareholders require the consent of all affected shareholders.

Resolutions of the General Shareholders' Meeting are binding upon all bodies of the Company, as well as all shareholders, including shareholders who are not present on the General Shareholders' Meeting.

The competences of the General Meeting of Shareholders include adopting resolutions concerning the following issues:

- a) considering and approving the Management Board and Supervisory Board's report and the financial statements,
- b) acquisition of own shares,
- c) merger of the Company or transformation of the Company,
- d) determination of remuneration of the Supervisory Board members,
- e) creation and liquidation of special funds,

Acquisition and disposal of real property, right of perpetual usufruct or share in a real property by the Company does not require a consent of the General Shareholders' Meeting.

The General Meeting may at any time adopt a resolution to convene an Extraordinary General Meeting, resolutions regarding the announced agenda and resolutions of an administrative nature, including:

- a) a resolution to change the order of discussion of individual items on the agenda,
- b) a resolution to remove individual matters from the agenda,
- c) a resolution on the manner of voting,
- d) a resolution to adjourn the meeting.

Participation of Members of the Management Board and Supervisory Board in the General Meeting:

- a) participate in a composition that allows for providing substantive answers to questions asked during the General Meeting. In the event that the participation of any member of these bodies is impossible for important reasons, the Participants of the General Meeting will be presented with the reasons for their absence.
- b) should, within the limits of their competences and to the extent necessary to resolve matters covered by the agenda, provide Participants with explanations and information concerning the Company, subject to restrictions resulting from applicable regulations.
- c) in cases requiring detailed, specialist knowledge in a given field, they may indicate a person from among the Company's employees who will provide such information or explanations. The auditor auditing the Company's financial statements is invited to the General Meeting, in particular when the agenda includes an item concerning the Company's financial matters.

Opening of the General Meeting and election of the Chairman

The Chairman of the Supervisory Board opens the General Meeting (in the event of his absence – the Vice-Chairman of the Supervisory Board, or the person indicated above) and has the powers of the Chairman until he is elected.

The person opening the General Meeting orders and conducts the election of the Chairman of the General Meeting from among the persons entitled to vote. Each Participant of the General Meeting has the right to run for the Chairman, as well as to submit one candidacy for this position. The nominated candidate is entered on the list of

candidates after submitting a declaration that he accepts the candidacy. The Chairman of the General Meeting is elected in a secret ballot. The person opening the General Meeting supervises the proper course of the vote and announces its results.

Chairman of the General Meeting, among others:

- a) ensures the efficient course of the proceedings and respects for the rights and interests of all shareholders.
- b) should counteract, in particular, the abuse of powers by Participants and ensure that the rights of minority shareholders are respected.
- c) his duties and powers include, among others, determining whether the General Meeting has been properly convened and is capable of adopting resolutions; presenting the announced agenda of the General Meeting; granting and taking away the floor from a Participant who speaks clearly off-topic or violates the principles of decent conduct with his speech; ordering voting and ensuring its proper course and announcing its results; ordering breaks in the proceedings, subject to the provisions of the Regulations of the General Meeting; closing the General Meeting after the established agenda has been exhausted.
- d) has the right to appoint a Secretariat of the General Meeting consisting of 1-3 persons.
- e) has the right to consult a notary, lawyers and other independent consultants engaged by the Management Board of the Company to service the General Meeting. The Chairman informs the audience of their presence at the General Meeting.
- f) may order a short break in the proceedings, in particular in order to: enable the formulation of motions, agree on the positions of the Participants, seek the opinion of the persons referred to in § 6 section 5 of the Rules of Procedure of the General Meeting, enable the Management Board and the Supervisory Board to take a position, in other cases where this is required, in particular when the General Meeting lasts longer than 2 hours.

The breaks ordered by the Chairman cannot be aimed at hindering the Participants from exercising their rights. If a break in the proceedings were to cause the General Meeting to be adjourned until at least the following day, it is necessary for the General Meeting to adopt an appropriate resolution by a majority of 2/3 of the votes. In total, such breaks cannot last longer than 30 days.

Rights of the Participants of the General Meeting

Each Participant of the General Meeting is entitled to submit a motion on a formal matter. Motions on formal matters are considered to be motions on the manner of deliberation and voting, and in particular on: adjourning or closing the discussion, breaks in the proceedings, the order of voting on motions submitted within a given agenda item, closing the list of candidates in elections.

Motions submitted on formal matters are decided by the Chairman, and in the event of an objection to his decision submitted by a Participant - by voting.

Subject to the provisions of § 8 of the Regulations of the General Shareholders' Meeting, every Participant should voice their opinion only on matters covered by the adopted agenda which are currently being considered, in particular by asking questions to the representatives of the Company. Motions concerning draft resolutions or amendments thereof should be submitted, along with their justification, in writing to the Secretariat, or in the case of lack thereof, to the Chairperson. When taking the floor or submitting a motion, the Participant should provide their full name and, if they are not applying on their own behalf, also details of the shareholder they are representing.

The Chairman grants the floor in the order of applications, and for the delivery of a reply - after the list of speakers on a given matter covered by the agenda has been exhausted. The Chairman may grant the floor to members of the Supervisory Board and the Management Board of the Company out of turn. A participant may also express his/her opinion by submitting a written statement, question or motion. After the list of speakers has been exhausted, the Chairman informs the General Meeting of the content of such statements and arranges for explanations to be provided, and if necessary, puts the submitted motions to a vote. In the event of doubts as to the wording of the motion being voted on, the Participant may ask the Chairman to read its content before the vote. A Participant of the General Meeting who, after the General Meeting has adopted a resolution against which he/she voted, requested that the objection be recorded, has the opportunity to present a concise justification for this objection.

Questions asked in connection with the General Meeting, together with the answers provided to them, are posted on its website by the Company immediately after the end of the General Meeting.

Adoption of a resolution

A resolution is considered adopted if its adoption is supported by shareholders representing the majority of votes required in accordance with the provisions of the Commercial Companies Code or the Articles of Association. If proposals for amendments have been submitted to the draft resolution, these proposals, subject to § 8 section 2 of the Rules of Procedure of the General Meeting, are put to a vote in the order established by the Chairman, and then the entire draft resolution, together with the adopted amendments, is put to a vote.

A secret ballot is not ordered in the case of votes on motions on formal matters. Voting and counting of votes is carried out with the help of a computer-based vote counting company or in another manner specified in the voting instructions submitted by the Chairman.

Voting on the Supervisory Board

The General Meeting determines the number of members of the Supervisory Board for a given term. Voting for members of the Supervisory Board takes place separately for each candidate, in a secret ballot, by a simple majority of votes. A vote cast for more candidates than the number of mandate positions is an invalid vote. The Supervisory Board is composed of candidates who, by obtaining a simple majority of votes, received the largest number of them, and in the event of an equal number of votes for the last mandate position, a second vote for these candidates is held, applying the above principles accordingly.

A special voting procedure is ordered by the Chairperson of the General Shareholders' Meeting in the case of group elections to the Supervisory Board. Upon the motion of shareholders representing at least one fifth of the share capital, the Supervisory Board should be elected by way of voting in separate groups even if the Articles of Association provide for a different manner of appointment of the Supervisory Board. During a group ballot, one share corresponds to one vote. Groups of shareholders are created at the General Shareholders' Meeting in order to elect members of the Supervisory Board, provided that the number of created groups corresponds to the number of posts to be appointed in the Supervisory Board. A shareholder can only be a member of one voting group. The minimum number of shares needed for creating a group is established by dividing the number of shares represented at the General Shareholders' Meeting by the number of mandates to be appointed in the Supervisory Board. The group of shareholders is entitled to elect the number of members of the Supervisory Board equal to the number of times the shares represented by it exceed the calculated minimum. Groups of shareholders can merge in order to make optimal use of jointly held shares to elect members of the Supervisory Board. For each group, the Chairperson orders a separate attendance list to be prepared. Each group holds a vote for the chairperson of the meeting of a given group, who will ensure organisation of the ballot within the group, i.e. proposing candidates, holding ballots and minutes from the group's meeting being drawn up by the notary public. Each of the established groups is provided with a separate room to hold the elections unless this is impossible for organisational reasons. In such a case, groups take turns and use a single room. Each group holds the ballot before the notary public who draws up the minutes; the order is determined by the Chairperson of the General Shareholders' Meeting.

After holding a group ballot, the chairperson of the group delivers written results of secret ballots held in groups to the Chairperson of the General Shareholders' Meeting. The Chairperson of the General Shareholders' Meeting announces the composition of the Supervisory Board after collecting all results of group ballots.

Resolutions of the General Shareholders' Meeting are recorded in the minutes by the notary public, otherwise being null and void. The minutes are signed by the notary public and the Chairperson of the General Shareholders' Meeting. The minutes declare that the General Shareholders' Meeting has been convened correctly and can adopt resolutions; they also list the adopted resolutions and, next to each of them, the number of shares from which valid votes were cast, the percentage of these shares in the share capital, the total number of valid votes, the number of votes for, against and withheld as well as voiced objections. The minutes are supplemented by the attendance list with signatures of the Participants. The Management Board of the Company enters the extract from the minutes to the minutes book. The minutes book is also supplemented with evidence for convening the General Shareholders' Meeting.

On its website, the Parent Company publishes the ballot results within a week of the conclusion of the General Meeting. The ballot results will be available until the deadline for appealing against the resolution of the General Shareholders' Meeting.

General Shareholders' Meetings can be recorded; in such cases, the recording of the meeting will be published on the Company's website immediately after conclusion of the General Shareholders' Meeting.

8.8. MANAGEMENT BOARD, SUPERVISORY BOARD AND AUDIT COMMITTEE

Description of the rules for appointing and dismissing managers and their powers, in particular the right to decide on the issue or redemption of shares.

Description of the activities of the issuer's management, supervisory or administrative bodies and their committees, together with an indication of the personal composition of these bodies and changes that have occurred in them during the last financial year.

In relation to the audit committee or, respectively, the supervisory board or other supervisory or control body in the event that this body performs the duties of the audit committee, an indication:

- a) on individuals who meet the statutory independence criteria;
- b) on individuals who have knowledge and skills in the field of accounting or auditing of financial statements, with an indication of the method of their acquisition;
- c) on individuals who have knowledge and skills in the industry in which the Company operates, including the manner of acquiring the same,
- d) whether the Company has been provided with any permitted non-audit services by the auditing firm examining its financial statements, and whether the independence of this auditing firm has been assessed and the consent for the provision of such services has been given,
- e) main assumptions of the developed policy for selecting an audit firm to audit or attest sustainability reporting and the policy for the provision of permitted services other than audit or attest sustainability reporting by the audit firm conducting the audit or attest sustainability reporting, by entities related to that audit firm and by a member of the audit firm's network,
- f) whether the recommendation regarding the selection of an audit firm to carry out the audit met the applicable conditions, and where the selection of the audit firm was not related to the extension of the agreement for the auditing of financial statements – whether such recommendation was prepared following the selection procedure organised by the Issuer and whether it complied with the applicable criteria,
- g) number of meetings of the Audit Committee or Supervisory Board or other supervisory or controlling body held,
- h) in case the functions of the Audit Committee are performed by the Supervisory Board or other supervisory or controlling body - information on which statutory conditions allowing such situation were met, along with necessary supporting data.

8.8.1. Management Board

In accordance with the Articles of Association of TOYA S.A., the Management Board consists of one to seven members, including the President of the Management Board and, where the Management Board is composed of more than one member, a Vice-President of the Management Board. The number of members for a given term of office is determined by the Supervisory Board. Members of the Management Board are appointed for a joint three-year term, and their mandates expire no later than on the date of the General Meeting approving the financial statements for the last full financial year in which they performed their duties.

Members of the Management Board are appointed and dismissed by the Supervisory Board.

The composition of the Company's Management Board is 100% male and is as follows:

- a) Grzegorz Pinkosz – President of the Management Board; associated with TOYA S.A. since 1999 and serving as President of the Management Board of TOYA S.A. since 2009. In 2025, Grzegorz Pinkosz also served as Vice-President of the Management Board of YATO Tools (Shanghai) Co., Ltd., Member of the Management Board of YATO Tools (Jiaxing) Co., Ltd., and Administrator of TOYA Romania S.A.
- b) Maciej Lubnauer – Vice-President of the Management Board; graduated from the Faculty of Technical Physics and Applied Mathematics at the Lodz University of Technology and the Faculty of Management at the University of Warsaw. He is a member of ACCA (Association of Chartered Certified Accountants). Since 2012, he has served as Chief Financial Officer of TOYA S.A. He has many years of experience as a finance director in various companies across different industries.
- c) Robert Borys – Vice-President of the Management Board; associated with the Company since 2004. Since 2009, he has served as Director of the IT Department. Since 2021, he has acted as Censor of TOYA Romania S.A., a subsidiary of the TOYA Capital Group based in Bucharest.
- d) Jan Jakub Szmidt – Vice-President of the Management Board; graduate of the Faculty of Business Administration at the Wroclaw School of Banking. In 2021, he was appointed Market Analysis Specialist at TOYA S.A. Since 2024, he has also been a Member of the Management Board of YATO Tools (Shanghai) Co., Ltd. and serves as President of the Management Board of Unicas.

None of the members of the Management Board of TOYA S.A. is a representative of employees. The Company's employees have their own representative; however, this representative does not sit on the Management Board.

Members of the Management Board may be dismissed at any time, without prejudice to any claims arising from their employment relationship or other legal relationship with the Company.

All matters of the Company that are not reserved for the competence of the General Meeting or the Supervisory Board fall within the responsibilities of the Management Board.

The Management Board operates on the basis of Rules of Procedure approved by the Supervisory Board, as specified in the Articles of Association of TOYA S.A. These Rules define the detailed competences of the Management Board. The Management Board conducts the Company's affairs and, under the leadership of the President of the Management Board, manages the Company and represents it externally. The manner of representation of the Company is defined in the Articles of Association, according to which declarations of intent and signing on behalf of the Company may be made individually by the President of the Management Board or jointly by a Vice-President of the Management Board together with a Member of the Management Board.

The following corporate documents, containing, among other things, a description of the rules for appointing and dismissing management persons and their powers, including the authority to decide on the issuance or buyback of shares, are available on the Company's website <https://toya.pl/> under the Investor Relations section – Investor Materials – Articles of Association, Regulations:

- a) Articles of Association of TOYA S.A.,
- b) Rules of Procedure of the Management Board,
- c) Rules of Procedure of the Supervisory Board,
- d) Rules of Procedure of the General Meeting.

Shareholding of management persons

The number of shares and voting rights in the Company's share capital held by members of the Management Board as at the date of submission of this report is presented in the table below:

	Number of shares	Par value of the shares (PLN)	Number of votes	Share (%)
Grzegorz Pinkosz	146 812	14 681.20	146 812	0.20%
Maciej Lubnauer	61 831	6 183.10	61 831	0.08%
Robert Borys	8 528	852.80	8 528	0.01%
Jan Jakub Szmidt	241 094	24 109.40	241 094	0.32%
TOTAL members of the Management Board	458 265	45 826.50	458 265	0.61%

Remuneration of Members of the Management Board (in PLN '000):

Name and surname	Position	Gross basic salary (fixed and variable)	Additional benefits and granted benefits	Cost of pension programs (PPK)	Total (PLN '000)
2025					
Grzegorz Pinkosz	President of the Management Board	1 238	6	-	1 244
Maciej Lubnauer	Vice-President of the Management Board	1 195	6	-	1 201
Robert Borys	Vice-President of the Management Board	1 181	8	-	1 189
Jan Jakub Szmidt	Vice-President of the Management Board	693	2	-	696
2024					
Grzegorz Pinkosz	President of the Management Board	1 163	6	-	1 169
Maciej Lubnauer	Vice-President of the Management Board	1 125	6	-	1 131
Robert Borys	Vice-President of the Management Board	1 112	9	-	1 121
Jan Jakub Szmidt	Vice-President of the Management Board	179	2	-	181

Remuneration amounts presented in this note include gross remuneration actually paid in 2025 (including variable remuneration for prior periods covered by provisions as at 31 December 2024), as well as additional benefits and employee-related costs incurred by the employer under the Employee Capital Plans (PPK). Remuneration does not include unpaid variable remuneration for 2025 (covered by provisions as at 31 December 2025). In addition, after the end of 2025, the Supervisory Board adopted a resolution concerning an adjustment of the fixed component of remuneration of Mr. Jan Jakub Szmidt, effective from 1 January 2025. The adjustment relating to 2025 in the amount of PLN 147 thousand was not included in the above summary. This remuneration will be recognised in the costs of 2026.

The Company has no liabilities arising from pensions or similar benefits for former managers, supervisory board members, or former members of administrative bodies, nor any liabilities incurred in relation to such pensions.

The remuneration of members of the Management Board of TOYA S.A. was not linked to sustainability matters in 2025.

As at 31 December 2025, no agreements were in place between the Parent Company and members of management providing for compensation in the event of resignation or dismissal from their positions.

8.8.2. Supervisory Board

The Supervisory Board consists of 7 members (85% men and 15% women):

- Piotr Mondalski – Chairman of the Supervisory Board (with many years of experience in managing large companies. Since 2011, he has served as Chairman of the Supervisory Board of TOYA S.A.),
- Jan Szmidt – Deputy Chairman of the Supervisory Board (co-founder and originator of TOYA S.A., with experience in business development, confirmed by numerous successes in the Polish and international markets. He has served as Deputy Chairman of the Supervisory Board of TOYA S.A. since 2011),
- Beata Szmidt – Member of the Supervisory Board (long-term shareholder familiar with the specifics of TOYA S.A.'s operations),
- Dariusz Górka – Member of the Supervisory Board (manager with experience in international institutions and the capital market, member of supervisory boards of many companies across various industries),
- Zenon Beker – Independent Member of the Supervisory Board (with many years of experience in automation, IT, and management. Former member of management boards of large companies),
- Grzegorz Maciąg – Member of the Supervisory Board (legal counsel registered with the District Chamber of Legal Advisers in Gdańsk. Former member of governing and management bodies in numerous companies across different industries),

- g) Wojciech Papierak – Independent Member of the Supervisory Board (manager with extensive experience in banking and the capital market. Former management board member of banks and other companies in the financial sector).

Mr. Zenon Beker and Mr. Wojciech Papierak meet the criteria required for independent members of the Supervisory Board (this means that the share of independent members of the Supervisory Board amounts to 28%).

The Supervisory Board of TOYA S.A. is a body that combines experience from various sectors, including IT, finance, law, investments, and management, which enables effective supervision of the Company in the context of its strategy. Its members have both domestic and international experience, allowing them to adequately respond to global challenges and market opportunities. The Supervisory Board also includes the Company's founder. His unique knowledge of the Company's history, values, and strategy is of fundamental importance for overseeing activities related to its future, including in the area of sustainability.

The number of shares and voting rights in the Company's share capital held by members of the Supervisory Board as at the date of submission of this report is presented in the table below.

	Number of shares	Par value of the shares (PLN)	Number of votes	Share (%)
Jan Szmidt	28 284 304	2 828 430.40	28 284 304	37.69%
Beata Szmidt	3 239 253	323 925.30	3 239 253	4.32%
Grzegorz Maciąg	2 800	280	2 800	0.00%
TOTAL members of the Supervisory Board	31 526 357	3 152 635.70	31 526 357	42.01%

Remuneration of Members of the Supervisory Board (in PLN '000):

There are no liabilities under the pensions or similar benefits for former managers, supervisors or former members of administrative bodies and the liabilities that are incurred in relations to such pensions at the Company.

The remuneration of members of the Supervisory Board of TOYA S.A. was not related to sustainable development issues in 2025.

8.8.3. Audit Committee

The composition of the Audit Committee is as follows:

- a) Wojciech Papierak – Chair of the Audit Committee
- b) Dariusz Górka – Member of the Audit Committee
- c) Zenon Beker – Member of the Audit Committee

Members of the Audit Committee who meet the independence criteria referred to in Article 129(3) of the Act of 11 May 2017 on statutory auditors, audit firms and public oversight are:

- a) Zenon Beker
- b) Wojciech Papierak

The member of the Audit Committee who possesses knowledge and skills in accounting or auditing of financial statements as well as in the industry in which TOYA S.A. operates is Mr. Dariusz Górka. Mr. Dariusz Górka is a graduate of, among others, the Stern School of Business (New York, USA), where he completed an MBA with a specialization in finance, during which he acquired knowledge and skills in the above-mentioned area. He is also a member of the Institute of Management Accountants (IMA) in Newark (New York, USA).

Main assumptions of the Policy on selecting an audit firm to conduct the audit developed by the Company are as follows:

- a) the selection of an audit firm for the purpose of conducting the Company's audit is carried out in accordance with the Procedure for selecting an audit firm developed by the Company;
- b) the selection of an audit firm is made by resolution of the Company's Supervisory Board, no later than by the end of December of the year preceding the year which will be subject to the audit or assurance of sustainability reporting;
- c) the Audit Committee is responsible for properly and lawfully conducting the selection process in accordance with this Policy on selecting an audit firm;
- d) the selection of an audit firm is made following the Audit Committee's recommendation submitted to the Company's Supervisory Board. Where the selection of an audit firm does not concern the extension of an agreement for the audit of financial statements, the recommendation shall include at least two options for selection of an audit firm, together with justification and an indication of the Audit Committee's justified preference for one of them;
- e) the selection of an audit firm may concern only the audit, only the assurance of sustainability reporting, or both the audit and assurance of sustainability reporting combined;
- f) in the case of statutory audit, the first audit engagement contract is concluded for a period of not less than two years, with the possibility of extension for subsequent periods of at least two years, taking into account the rotation requirements for the audit firm and key statutory auditor arising from generally applicable laws;
- g) when selecting an audit firm to perform the statutory audit, the principle of audit firm rotation is taken into account, so that the maximum uninterrupted duration of statutory audit engagements performed by the same audit firm, an audit firm affiliated with it, or any member of the network operating in EU Member States to which these audit firms belong, does not exceed five years. In the case of the key statutory auditor, the selection shall ensure that they do not perform the statutory audit for the Company for a period longer than five consecutive years. In such case, the key statutory auditor may again perform the statutory audit of the Company only after at least three years have elapsed since the end of the last statutory audit;

- h) the above provisions shall apply accordingly to the selection of an audit firm to perform assurance of sustainability reporting;
- i) the selection of an audit firm is based on the following selection criteria:
 - i. the audit firm's offer is not subject to rejection under § 9(4) of the Procedure for selecting an audit firm;
 - ii. the audit firm has the ability to perform the necessary audit or sustainability reporting assurance procedures also in foreign companies forming part of the "TOYA" S.A. Capital Group;
 - iii. the audit firm has:
 - knowledge and international connections that may be used for proper performance of the audit or sustainability reporting assurance;
 - experience in conducting audits of public companies within the meaning of the Act of 29 July 2005 on Public Offering, Conditions Governing the Introduction of Financial Instruments to Organised Trading and Public Companies, preparing financial statements in accordance with International Financial Reporting Standards;
 - experience in performing assurance of sustainability reporting based on the National Standard for Sustainability Reporting Assurance Services 3002PL and knowledge of the European Sustainability Reporting Standards (ESRS);
 - human resources, including persons affiliated with international organisations of finance, accounting and management professionals such as ACCA, as well as expertise in sustainability reporting;
 - appropriate expert knowledge and knowledge of the industry in which the Company operates;
 - iv. the audit firm provides the Company, the Supervisory Board, and the Audit Committee with ongoing direct access to the key statutory auditor;
 - v. the audit firm uses IT tools and has experience in auditing accounting records maintained in the SAP system;
 - vi. the audit firm's registered office, branch, or office is located in Wrocław;
 - vii. during the term of the contract with the Company, the audit firm enables the assessment of accounting solutions proposed by the Company regarding significant matters covered by the audit;
 - viii. the audit firm submits an offer including the elements specified in § 12(4) of the Procedure for selecting an audit firm;
 - ix. price, although the price offered by the audit firm is not a decisive factor;
 - x. impartiality, objectivity, integrity, and independence of the audit firm;
- j) in the event of the occurrence or disclosure of circumstances that may indicate influence by third parties on the selection procedure, the person concerned shall immediately refrain from further activities within the tender procedure and immediately inform the Audit Committee thereof;
- k) the agreement for the audit or assurance of sustainability reporting is signed by the Management Board with the entity selected by the Supervisory Board.

Main assumptions of the Policy on the provision by the audit firm performing the audit or assurance of sustainability reporting, or by entities affiliated with that audit firm or a member of its network, of permitted non-audit services are as follows:

- a) the Policy is developed by the Audit Committee and is addressed to all members of the "TOYA" S.A. Capital Group;
- b) the statutory auditor or audit firm performing audit activities of the Company and/or the "TOYA" S.A. Capital Group, or any member of the network to which the statutory auditor or audit firm belongs, shall not directly or indirectly provide to the audited Company or its controlled entities any prohibited non-audit services, in particular:
 - i. tax services relating to:
 - preparation of tax returns;
 - payroll taxes;

- customs duties;
 - identification of public subsidies and tax incentives, unless support from the statutory auditor or audit firm in such services is required by law;
 - assistance in tax audits conducted by tax authorities, unless required by law;
 - calculation of direct, indirect, and deferred income tax;
 - provision of tax advisory services;
 - ii. services involving any participation in the management or decision-making of the audited entity;
 - iii. bookkeeping and preparation of accounting records and financial statements;
 - iv. payroll services;
 - v. design and implementation of internal control procedures or risk management procedures related to the preparation and/or control of financial information, or design and implementation of IT systems for financial reporting;
 - vi. valuation services, including actuarial services or litigation support services;
 - vii. legal services, including:
 - general legal advice;
 - negotiating on behalf of the audited entity;
 - acting as an advocate in dispute resolution;
 - services related to the internal audit function of the audited entity;
 - viii. services related to the financing, capital structure and allocation and investment strategy of the audit client, with the exception of the provision of assurance services in connection with financial statements, such as issuing assurance letters in connection with prospectuses of the audited entity;
 - ix. human resources services regarding:
 - management positions exerting significant influence over accounting records or financial statements, where such services include:
 - o searching for or selecting candidates for such positions; or
 - o conducting reference checks for such positions;
 - organisational design; and
 - cost control;
- c) The audit firm conducting the sustainability reporting assurance of the Company and/or the TOYA S.A. Capital Group, nor any member of the network to which the audit firm belongs, may not provide, directly or indirectly, to the Company and/or the TOYA S.A. Capital Group subject to the Sustainability Reporting Assurance, to its parent company or to entities controlled by it within the European Economic Area, any services:
- i. involving any participation in the management or decision-making process of the audited entity;
 - ii. accounting and preparation of accounting records and financial statements;
 - iii. development and implementation of internal control procedures or risk management procedures related to the preparation or control of financial information or the development and implementation of technological systems for financial information;
 - iv. valuation services, including valuations performed in connection with actuarial services or legal dispute resolution support services;
 - v. legal services, including:
 - providing general legal advice;
 - negotiating on behalf of the audited entity; and
 - acting as an advocate in dispute resolution;
 - vi. related to the internal audit function of the audited entity;
 - vii. related to the financing, capital structure and allocation, and investment strategy of the audit client, except for the provision of assurance services in connection with financial statements, such as issuing letters of assurance in connection with the audited entity's prospectuses;

- viii. conducting promotional activities and trading in the audited entity's shares or interests on its own account or underwriting the issue of shares or interests in the audited entity;
 - ix. human resources services in relation to:
 - management personnel who may exert significant influence on the preparation of accounting records or financial statements subject to statutory audit, if such services include:
 - searching for or selecting candidates for such positions, or
 - conducting reference checks of candidates for such positions;
 - developing the organizational structure; and
 - cost control.
- d) statutory auditors and audit firms may provide certain tax and valuation services where such services are immaterial or have no direct or, individually or collectively, material impact on the audited financial statements. Such services shall not be considered immaterial if they involve aggressive tax planning. The statutory auditor or audit firm may provide non-audit services not related to the Company's and/or the Group's tax policy, which are not prohibited by applicable law, including:
- i. services performed in connection with prospectuses issued by the audited entity, carried out in accordance with national standards for related services, consisting of agreed-upon procedures;
 - ii. due diligence procedures regarding financial and economic condition;
 - iii. issuing comfort letters;
 - iv. assurance services relating to pro forma financial information, forecast results, or estimated results included in prospectuses issued by the audited entity;
 - v. audit of historical financial information for the prospectus referred to in Commission Regulation (EC) No 809/2004 of 29 April 2004 implementing Directive 2003/71/EC of the European Parliament and of the Council as regards information contained in prospectuses as well as the format, incorporation by reference and publication of such prospectuses and dissemination of advertisements (i.e. OJ L 149, 2004, p. 1 - repealed) – currently Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC (i.e. OJ L 168, 2017, p. 12) and Commission Delegated Regulation (EU) 2019/980 of 14 March 2019 supplementing Regulation (EU) 2017/1129 of the European Parliament and of the Council with regard to the format, content, scrutiny and approval of the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market and repealing Commission Regulation (EC) No 809/2004 (consolidated text: OJ L 166, 2019, p. 26);
 - vi. verification of consolidation packages;
 - vii. confirmation of compliance with loan covenants based on financial information derived from audited financial statements;
 - viii. assurance services regarding corporate governance reporting, risk management, and corporate social responsibility;
 - ix. services assessing compliance of disclosures by financial institutions and investment firms with capital adequacy and variable remuneration disclosure requirements;
 - x. certifications for supervisory authorities, the supervisory board, or owners exceeding the scope of the statutory audit, to assist in fulfilling statutory duties;

- e) the provision of non-audit services is carried out in accordance with the remuneration requirements specified for such services in the principles of professional ethics and standards for the performance of such services, as well as in specific regulations;
- f) entities providing non-audit services should be characterized by a critical attitude and remain vigilant towards circumstances that may indicate possible errors or conduct contrary to the rules and regulations applicable to the field of services provided;
- g) if a statutory auditor or audit firm provides non-audit services to the Company or a subsidiary for a period of at least three consecutive financial years, other than the services referred to in Article 3 of this Policy, the total remuneration for such services is limited to a maximum of 70% of the average remuneration paid in the last three consecutive financial years for the audit of the Company and, where applicable, its subsidiaries and the consolidated financial statements of the TOYA S.A. Capital Group;
- h) the provision of permitted non-audit services is possible only after prior approval of such service by the Audit Committee through an appropriate resolution. The Audit Committee consents to the provision of permitted non-audit services if a justified need for such services is reported by one of the Company's bodies after the Audit Committee has conducted an assessment of threats and safeguards for independence, as referred to in Articles 69-73 of the Act of 11 May 2017 on Statutory Auditors, Audit Firms and Public Oversight. This applies accordingly to the attestation of sustainability reporting.

The selection of an audit firm to audit the Company's financial statements for 2025 did not concern the extension of the audit agreement, and the recommendation of the "TOYA" S.A. Audit Committee regarding the appointment of an audit firm to audit the financial statements of "TOYA" S.A. for the years 2023, 2024, and 2025 complied with applicable requirements and was prepared as a result of a selection procedure conducted by the Company in accordance with applicable criteria, consisting of:

- a) inviting any audit firms to submit bids for the provision of audit services, subject to compliance with Article 17(3) of Regulation (EU) No 537/2014 of the European Parliament and of the Council of 16 April 2014 on specific requirements regarding statutory audit of public-interest entities;
- b) ensuring that the procedure did not exclude firms deriving less than 15% of total audit fees from public-interest entities in the relevant EU Member State in the previous calendar year, included in the list of audit firms referred to in Article 91 of the Act of 11 May 2017 on Statutory Auditors, Audit Firms and Public Oversight;
- c) preparation by the Company of tender documentation for invited audit firms, enabling them to understand the Company's business, specifying the financial statements to be audited, and containing transparent and non-discriminatory selection criteria used to evaluate bids;
- d) freedom for the Company to determine the selection procedure and the possibility of conducting direct negotiations with interested bidders during the process;
- e) evaluation of audit firms' offers in accordance with the selection criteria set out in the tender documentation;
- f) preparation by the Company of a report containing the conclusions of the selection procedure, approved by a resolution of the Audit Committee;
- g) consideration by the Company and the Audit Committee of any findings or conclusions contained in the annual report referred to in Article 90(5) of the Act on Statutory Auditors;
- h) demonstration by the Company, upon request of the Polish Financial Supervision Authority (KNF), that the selection procedure was conducted in accordance with the requirements referred to in Article 130(2) and (3) of the Act on Statutory Auditors.

The Audit Committee held four meetings in 2025.

8.9. DIVERSITY POLICY

The Company did not prepare and does not pursue a diversity policy. The position of the Company's Management Board is that the sole criterion for appointing persons to perform functions in the Company's authorities and its key management is the experience and competence of the candidates for performing the given functions. The Company declares that it will consider developing a diversity policy in the future.

8.10. INFORMATION ABOUT THE ENTITY AUDITING THE FINANCIAL STATEMENTS

The entity authorized to audit and review the stand-alone and consolidated financial statements is Grant Thornton Polska Prosta Spółka Akcyjna with its registered office in Poznań ("Auditor"). The Auditor was selected by the Supervisory Board on 19 December 2022.

The audit and review agreement was concluded on 5 July 2023 and covers the half-year review and annual audit of the stand-alone and consolidated financial statements for the years 2023-2025.

The remuneration of the entity authorized to audit in accordance with the concluded agreements is presented below (amounts in PLN thousand):

	2025	2024
Audit of the annual financial statements (stand-alone and consolidated) (*)	146	117
Review of the half-year financial statements (stand-alone and consolidated) (*)	60	48
Other assurance services - assurance of sustainability reporting (*)	120	120
Other assurance services - report on remuneration of the Management Board and Supervisory Board	12	9
TOTAL	338	294

(*) Relates to remuneration due for the year covered by the service, i.e. 2025 and 2024, and not the amounts actually invoiced in a given year; furthermore, the amounts do not include the supervision fee of 2.29% in 2025 and 2.29% in 2024, as well as additional costs.

The auditor provided permitted non-audit services. Accordingly, the auditor's independence was assessed and consent was granted for the provision of such services. The Company did not use any other services of the selected audit firm.

9. INFORMATION ABOUT SIGNIFICANT EVENTS THAT OCCURRED AFTER THE BALANCE SHEET DATE

9.1. IMPACT OF THE MIDDLE EAST CONFLICT

The conflict in the Middle East, which broke out on 28 February 2026, is not expected to have a significant impact on the Group, provided that it remains a regional event. The Group does not conduct material operations in that region. However, it should be noted that the shipping route through the Red Sea forms a maritime passage between Asia and Europe and is used by carriers whose services are utilized by the Company. Available information indicates that the armed conflict has led carriers to use alternative shipping routes, which is expected to extend delivery times by approximately two weeks.

The conflict may, however, have an indirect impact on the Company, particularly if it proves to be long-lasting. An increase in energy carrier prices may result in slower economic growth or even a recession in many countries where the Group has customers. The Management Board assesses that the magnitude of this impact is currently impossible to estimate.

9.2. ANNEX TO THE OVERDRAFT AGREEMENT

On 20 March 2026, TOYA S.A. concluded Amendment No. 8 to the Overdraft Credit Agreement No. 09/030/19/Z/ with mBank S.A., with its registered office in Warsaw. The conclusion of the Agreement was disclosed by TOYA S.A. in Current Report No. 3/2019 dated 4 March 2019.

Under the amendment, the final repayment date of the credit was set for 26 March 2027.

Pursuant to the amendment, the credit is secured by a blank promissory note issued by the Company, accompanied by a promissory note declaration.

The remaining terms of the Agreement do not differ from market standard terms for this type of agreements.

Management Board of Toya S.A.:

Date	Name and surname	Position	Signature
26.03.2026	Grzegorz Pinkosz	President of the Management Board	
26.03.2026	Maciej Lubnauer	Vice-President of the Management Board	
26.03.2026	Robert Borys	Vice-President of the Management Board	
26.03.2026	Jan Jakub Szmidt	Vice-President of the Management Board
